

# Contents

<b>Introduction</b> .....	<b>ix</b>
Who Should Read This Book.....	ix
What Is the Rationale Behind This Book?.....	x
About This Edition.....	xi
How This Book Is Organized.....	xi
What Special Features Are in This Book?.....	xiv

## CHAPTER 1

<b>Cultivate Computational Thinking in Computer Science and Beyond</b> .....	<b>1</b>
What Is Computational Thinking?.....	2
Computer Science Standards and Navigating the Entry Points for Learners.....	8
Scaffolding Computer Science Learning Experiences.....	9
Overcoming State and District Challenges of Integrating Computer Science.....	15
Supporting Educator Success.....	22
Strategies for Implementing Computational Thinking and Computer Science.....	30
Summary.....	34
Questions and Reflections.....	35
Further Resources.....	36

## CHAPTER 2

<b>Create Inclusive Project-Based Learning and Design Thinking Experiences</b> .....	<b>39</b>
Project-Based Learning and the Construction of New Knowledge.....	40
Incorporating Cognitive Science Research Strategies into PBL Experiences.....	41
Teacher and Student Roles in a PBL Classroom.....	48
Design Thinking: Pathways to Inventive Problem-Solving.....	53
Scaffolding the Student Design and PBL Process.....	56
Strategies to Facilitate Student-Centered Project-Based Learning and Design Thinking.....	61
Summary.....	75
Questions and Reflections.....	75
Further Resources.....	76

## CHAPTER 3

<b>Maximize AI Within Your Professional Practice</b> .....	<b>79</b>
Artificial Intelligence: The Technical Basics.....	80
Evaluating AI Readiness.....	81

Artificial Intelligence Literacy ..... 89  
 Leveling Up AI Prompting ..... 94  
 Strategies to Support Successful AI Evaluation and Integration ..... 100  
 Summary ..... 112  
 Questions and Reflections ..... 113  
 Further Resources ..... 114

**CHAPTER 4**

**Empower Learners Through Digital Citizenship ..... 119**  
 What Do We Know About Digital Citizenship? ..... 120  
 Teaching Online Safety and Digital Citizenship ..... 121  
 Protecting Student Data Privacy During Innovation: Striking a Balance ..... 123  
 Responsible Use Policies in the Age of AI ..... 126  
 Cyberbullying and Counterspeech ..... 132  
 Fitting Digital Citizenship into Your School: Getting Started ..... 134  
 Strategies to Support Digital Citizenship ..... 138  
 Summary ..... 146  
 Questions and Reflections ..... 146  
 Further Resources ..... 147

**CHAPTER 5**

**Leverage Game-Based Learning for Student Achievement ..... 151**  
 What Are Gamification and Game-Based Learning? ..... 152  
 Game-Based Learning and Student Achievement ..... 154  
 Leveraging Adaptive Scaffolding to Support Inclusive Game-Based Learning ..... 155  
 Game-Based Learning to Support Retrieval Practice ..... 157  
 Fitting Gamification into Your School: Getting Started ..... 160  
 Strategies to Support Effective Game-Based Learning Opportunities ..... 164  
 Summary ..... 171  
 Questions and Reflections ..... 172  
 Further Resources ..... 172

**CHAPTER 6**

**Bridge the Digital Divide by Ensuring Greater Access and Opportunity for Students ..... 175**  
 Current Status of Digital Equity ..... 176  
 High-Speed Connectivity in the Context of Learning Outside of School ..... 181  
 Opportunities for School Districts to Respond ..... 182  
 Strategies for Bridging the Digital Divide ..... 185

## Contents

Summary .....	193
Questions and Reflections .....	194
Further Resources .....	194

## CHAPTER 7

<b>Elevate Experiential Learning with Connections Beyond the Classroom</b> .....	<b>197</b>
Experiential Learning: What It Is, and Why It Is Beneficial .....	198
Design Elements of High-Impact Experiential Learning .....	199
Leveraging AR, VR, and AI to Support Experiential Learning .....	204
Augmented Reality .....	208
Formal, Nonformal, and Informal Learning .....	213
Strategies to Support Successful Experiential Learning .....	218
Summary .....	229
Questions and Reflections .....	230
Further Resources .....	230
<b>References</b> .....	<b>233</b>
<b>Index</b> .....	<b>247</b>
