## **NEW YORK STATE**

# PUBLIC HEALTH LEGAL MANUAL

# A GUIDE for JUDGES, ATTORNEYS and PUBLIC HEALTH PROFESSIONALS

SECOND EDITION

New York State Bar Association publications are intended to provide current and accurate information to help attorneys maintain their professional competence. Publications are distributed with the understanding that NYSBA does not render any legal, accounting or other professional service. Attorneys using publications or orally conveyed information in dealing with a specific client's or their own legal matters should also research original sources of authority.

We consider the publication of any NYSBA practice book as the beginning of a dialogue with our readers. Periodic updates to this book will give us the opportunity to incorporate your suggestions regarding additions or corrections. Please send your comments to: Publications Director, New York State Bar Association, One Elk Street, Albany, NY 12207.

#### **FOREWORD**

#### **Chief Judge Janet DiFiore:**

In today's world, we face many natural and man-made catastrophic threats, including the very real possibility of a global influenza outbreak or other public health emergency that could infect millions of people. While it is impossible to predict the timing or severity of the next public health emergency, our government has a responsibility to anticipate and prepare for such events. An important element of this planning process is advance coordination between public health authorities and our judicial and legal systems. The major actors in any public health crisis must understand the governing laws ahead of time, and must know what their respective legal roles and responsibilities are. What is the scope of the government's emergency and police powers? When may these be invoked, and by which officials? What are the rights of people who may be quarantined or isolated by government and public health officials?

These questions must be researched and answered now—not in the midst of an emergency—so that the responsible authorities have a ready-made resource to help them make quick, effective decisions that protect the public interest. This *New York State Public Health Legal Manual* is designed to serve this purpose. It will be an absolutely essential tool in guiding us through the effective management of future public health disasters. I am pleased that the New York State Unified Court System was able to play a key role in this historic collaboration along with the New York State Bar Association, the New York State Department of Health, and the New York City Department of Health and Mental Hygiene. I thank each of these organizations for their invaluable cooperation and contributions.

### Henry M. "Hank" Greenberg, President, New York State Bar Association:

A core mission of the New York State Bar Association is to serve as a resource for the profession, policymakers and public on complex and important public policy issues. Just such issues are presented today by the coronavirus pandemic—a contagion that poses the gravest public health crisis in American history.

Lawyers, judges and public health officials will find this volume a useful resource, containing a superb and readily accessible survey of the law governing the containment of communicable diseases. It is the product of

a collaborative effort, bringing together the state's leading health lawyers and other experts. The New York State Bar Association is grateful for the extraordinary efforts of the Office of Court Administration to produce this volume and for the tremendous support from the New York State Department of Health and the New York City Department of Health and Mental Hygiene.

#### ACKNOWLEDGMENTS

We would like to gratefully acknowledge the assistance of Robert Swidler, Vice President of Legal Services for St. Peter's Health Partners, Eileen Millett, Counsel at NYS Office of Court Administration, and Thomas G. Merrill, former General Counsel at the New York City Department of Health and Mental Hygiene, as well as the Committee members who worked on the first edition of this Manual listed below.

In addition to the Office of Court Administration, we will continue to work closely with Mary Beth Morrissey, PhD, MPH, JD, Chair of the NYSBA Health Law Section COVID-19 Task Force, as well as Hermes Fernandez, Esq., Chair of the Health Law Section, and the other members of the Section, and the contributors to the first edition to keep this edition up to date.

The Committee members for the first edition are Michael Colodner, Esq., Editor-in-Chief, Robert Abrams, Esq., Hon. Richard T. Andrias, Barbara A. Ashfield, Esq., Holly Mitchell Dellenbaugh, Esq., Lawrence M. Martin, Esq., Justin D. Pfeiffer, Esq., Robert N. Swidler, Esq., Hon. Shirley Troutman, Roslyn Windholz, Esq., and Ronald P. Younkins, Esq.

Robert L. Burhans, former Director of the Office of Emergency Preparedness of the New York State Department of Health, and Lawrence M. Martin, Esq., New York City Law Department, also contributed to the first edition.

Daniel McMahon, Esq., Kathryn Calista, Esq., Kirsten Downer, Esq., Alex Dickson, Reyna Eisenstark, Candace Grabow, and Howard Healy at the New York State Bar Association ensured the timely publication of this edition. Thanks also to law student volunteer Kerianne Morrissey for citation checks.
