

Prior Learning Assessment and Recognition (PLAR) of CAMRT CT Imaging 1

Eligible Schools and Required Courses

School Name	Approved Requirements as of 2025 (year of last approval)	Previously Approved Courses
How to use this chart? <i>If you want credit for our CT Imaging 1 course, please review the PLAR requirements. Usually, you do this this is to streamline registration into the CTIC or PET-CT programs.</i>	1. Find the school you graduated from to see if it is covered under our agreement. This column indicates the current requirements. 2. Check to see that you passed the required courses (75%+) that are listed below for your program. 3. If so, submit a PLAR application (including a transcript) to CAMRT through the catalogue!	Graduated awhile ago? <i>If you have graduated within 3 years and courses have since changed, you can see the historically approved courses in this column.</i>
