Notes and caveats	<p>All data is drawn from government survey results and is subject to any associated limitations or distortions present in the source data.</p> <p>The methodology by which literacy was measured during the census is not known.</p> <p>Language and dialect naming conventions in the census are sometimes unclear and in some cases have been grouped or allocated to the Other Languages field.</p> <p>Language shares below 0.1% of an area population have been discarded. As a result languages may not be present at Medium administrative levels.</p> <p>All decimal values have been rounded to a maximum of 3 decimal places. As a result language shares may not total 100%.</p> <p>Empty values represent non-existent data and should not be treated as zero values.</p>

state_code	#state+code	2011 Census unique identifier number for state	Office of the Registrar General & Census Commissioner, India. 2011 Census.
census_code	#census+code	2011 Census unique identifier number for district	Office of the Registrar General & Census Commissioner, India. 2011 Census.

number_of_named_languages	#indicator+lang+num	Number of named (non-Other) languages reported in area (excluding those with less than 0.1% coverage in this area)	Calculated field
main_language	#indicator+lang+main	Name of reported language with highest attributed population in area	Calculated field
main_language_share	#indicator+lang+main+pct	Percentage share of population in area attributed to main language	Calculated field
Language fields
Language fields	#indicator+lang+pct+iso639-3_ABC	Percentage of population who have this language as mother tongue	Office of the Registrar General & Census Commissioner, India. 2011 Census.
Other language	#indicator+lang+pct+iso639-3_unknown	Percentage of population who have non-named language as mother tongue	Office of the Registrar General & Census Commissioner, India. 2011 Census.
pop_total	#population+total	Number of total population in 2011	Office of the Registrar General & Census Commissioner, India. 2011 Census.
pop_male	#population+m+total	Number of male population in 2011	Office of the Registrar General & Census Commissioner, India. 2011 Census.
pop_female	#population+f+total	Number of female population in 2011	Office of the Registrar General & Census Commissioner, India. 2011 Census.
literacy_all	#population+total+pct+literate+age10up	Percentage of population aged 7 and over who are literate	Office of the Registrar General & Census Commissioner, India. 2011 Census.
literacy_male	#population+m+pct+literate+age10up	Percentage of male population aged 7 and over who are literate	Office of the Registrar General & Census Commissioner, India. 2011 Census.
literacy_female	#population+f+pct+literate+age10up	Percentage of female population aged 7 and over who are literate	Office of the Registrar General & Census Commissioner, India. 2011 Census.
language_data_yn	#meta+data+bool	Binary field describing whether language data is available in this	-
data_confidence	#meta+confidence	Assessment of data quality (Medium/medium/low)	-
notes	#meta+text	Notes and clarifications	-

Data confidence descriptions

Examples

High	Data from well regarded government census or other specialist organisation.
Medium	Data from quality source but without clear methodology or inverse.
Low	Data known to be erroneous or based on non-statistical or imprecise data.

Factors increasing confidence	Data is corroborated. Data can be directly applied to administrative areas without aggregation or manipulation.
Factors decreasing confidence	Data is disputed. Data requires transformation that may affect accuracy for example combining admin 2 data to form admin 1 data.
