

## Site Assessment R17

---

Hello, My name is -. I work for the Needs and Population Monitoring Unit of the International Organization for Migration. We conduct assessments on the number, location and needs of Rohingya refugees in Cox's Bazar. We share this information with other humanitarian organizations who are working to provide assistance and only with the purpose of delivering aid. The source of information is kept anonymous.

We do not share your personal details publicly, but only with organizations that request a contact person to reach out in order to deliver assistance

The purpose of this interview is to collect as much information as possible to inform the humanitarian response. However, NPM is not directly involved in the provision of services and assistance.

You have the right to refuse to participate in this assessment. Your participation or nonparticipation in the assessment has no impact on the assistance you will receive.

\* A1- By providing a verbal consent to participate to this interview, I hereby authorize IOM and any authorized person or entity acting on behalf of IOM to process my personal data for the purpose of data collection for IOM's Displacement Tracking Matrix. I agree to be contacted by IOM in case further data verification is considered necessary. I also agree that my personal data is shared by IOM to humanitarian organizations for the purpose of providing humanitarian assistance. I hereby release, discharge and agree to hold harmless IOM, its officers, employees and agents from any liability or damage caused, directly or indirectly, to me, my family or relatives in connection with this authorization by virtue of the use or disclosure of my personal data for the specified purpose as described above.

*If first interview with Key Informant you must get Data Collection Consent form signed  
If KI does not agree the interview ends. Please make a note of why they do not want to participate.*
