WE WANT TO STOP POLLUTION BEFORE IT STARTS.

There is only one sure effective way to control pollution. Keep it from occurring. At Temple-Eastex Incorporated, our environmentalists are trying to do just that. Air and water samples taken on plant sites as well as from surrounding areas are constantly analyzed to insure we meet or exceed pollution control regulations. New construction incorporates the latest in pollution control technology.

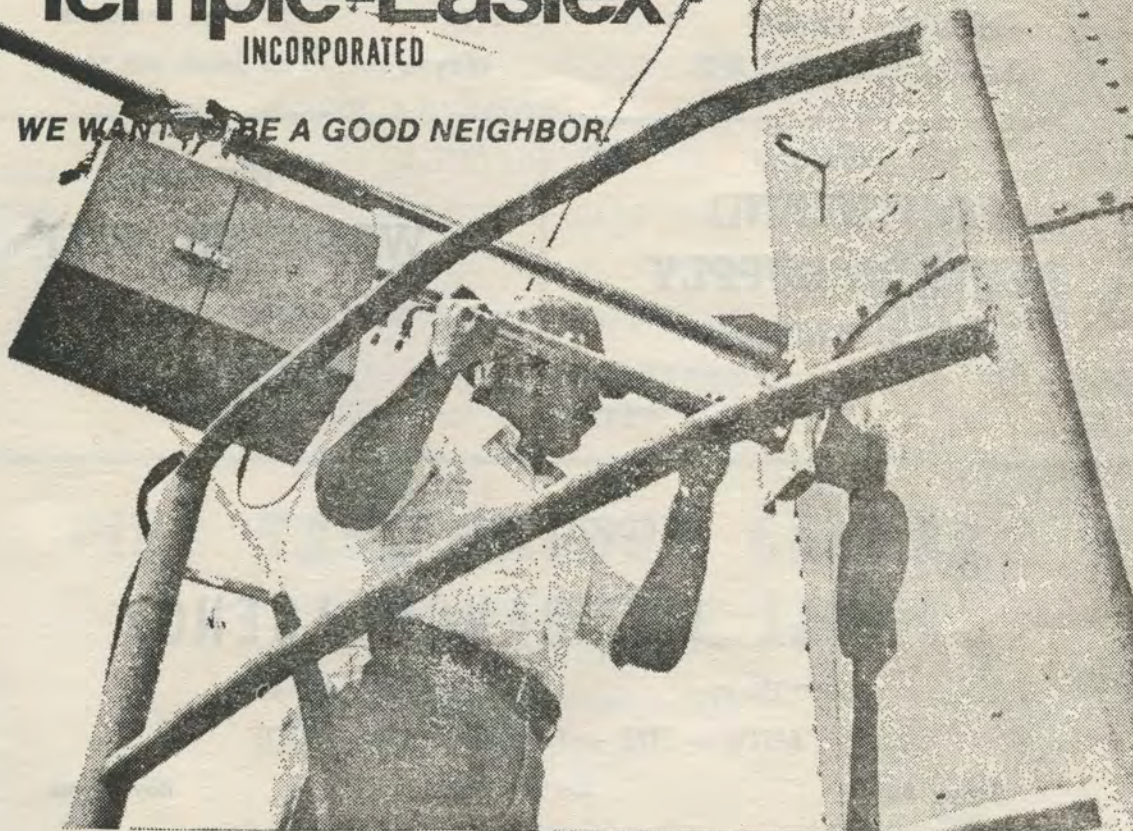

It will take a lot of research, money, and effort to put an end to pollution. But we can if we all do our part.
