

Dr. J. R. Grant, Chairman of the Steering Committee for the Baptist Hospital for Southeast Texas, announced today that a Special Committee is now reviewing applications for the position of Administrator or Superintendent of the hospital. A businessman especially trained and experienced in hospital supervision will be selected. Applications for key office positions are also being considered.

Dr. Grant stated that the most capable personnel available will be employed throughout the hospital and that it will be operated under the same high medical standards existing in leading Baptist hospitals elsewhere.
