VOL. 1 NO. 18 DECEMBER 21, 1977

Strange lights sighted in east

Authorities near Bethlehem refused to permit still and movie or TV cameras near the manger where a miracle birth has been reported. Exact date of the birth is in question, but some local people say it is the 25th. A court-reporter-artist was on vacation in the area and was permitted to send the Banner this sketch of shepherds coming from the hills to greet the birth of a baby named Jesus. Our reporter also first released the story that three wisemen from the east brought the baby presents including gold, frankincense and myrrh. See other stories on this page for more details on the fast developing story.

From a rash of UFO sightings comes one report nobody has yet been able to explain.

News sources throughout the world have reported the appearance of an unusually bright light in the east. This light is particularily brilliant in the troubled Mid-East.

Some newsmen say a strange apprehension has gripped many in the Mid-East while many others seem to be in a complete state of tranquility as though they were awaiting the arrival of a some mysterious happening or possibly something that would relieve them of all their burdens.

It all started to attract attention when citizens of the Mid-East were ordered back to their ancestral homes so that a census could be taken.

Some religiously oriented groups, including many scientists, doctors and other educated men say they can't dismiss the rumor that a possible "Messiah" is linked to the unusually brilliant light in the heavens.

A "not to be taken lightly" story was belatedly told by some shepherds in the hills adjacent to Bethlehem. They reported within the last 36 hours that an angel appeared to them and the entire landscape shone bright with the glory of the "Lord".

"We were badly frightened", one shepherd told the Home Banner. According to this shepherd the angel told them not to be afraid.

"I bring you the most joyful news ever announced and it is for everyone.

Cont. A-19

NFL playoffs take back seat

A Home Banner survey revealed that news of "Strange Happenings" in the Mid-East has pushed almost every other bit of news out of the people's minds.

The energy crisis, taxes, costs of living, farming problems and even the National Football League playoffs are not foremost in the minds of people.

People are wondering if the news media could gather more facts and detailed information on child being born in a manger. This is of special interest to those religious groups who say that this child is the prophesied Savior told of hundreds of years ago by Isaiah and other Jewish Prophets.

If this is truly the "Messiah", then according to the prophets, the mother, Mary will bear the child while still a virgin. According to the husband, Joseph, a descendant of King David, the actual father is the Holy Spirit.

When asked if this bothered Joseph, the fact that Mary was his wife and the child to be born was the child of someone other than himself, he said, "God has spoken to me personally and told me this was planned centuries ago. God told me not to worry and I am just proud that I will be honored to be the earthly father of this child. I know you newspeople do not understand, but to those that will understand and have faith their lives will change greatly."

Church attendance shows upsurge

Area Ministers report churches have been overly crowded in the past week. From Corrigan to Nacogdoches and from Wells to Angelina these reports have come in.

Ministers have no explanations for the upsurge in attendance.

By the 24th of December Holy men and religious groups are expecting to receive a message as to the whereabouts of a child born in a manger in Bethlehem. It is reported that the mother is a woman called Mary and the father Joseph, a descendant of King David and also of Abraham.

One area Pastor told the Home Banner that he has no doubt of the shepherds' report outside Bethlehem and that they were visited by angels from on high.

One Pastor told the Home Banner, "I have the faith to believe we live in a time when all history will be changed with the arrival of this new born baby in Bethlehem."

Notice

The front page of this week's Home Banner is written as though the Birth of Christ is to take place in the present.

It is hoped that the importance of the Christmas season is understood by you and may your holidays be safe and happy ones.

Opinions—thoughts—features

Farmers deserve a backing, but should not impede others

East Texas people understand the farmers plight. He tries to produce wheat and other crops in a world of inflation and spiraling cost of goods and services. He is not properly protected by certain tariffs...He is taken advantage of by our government and so called "concerned politicians"...BUT THAT DOES NOT GIVE THEM THE RIGHT TO IMPEDE THE DAILY PATHS OF OTHER CITIZENS GOING ABOUT THEIR LIVELYHOODS.

For the farmers in the panhandle, Kansas or any other part of the United States to think they have the privilege to set up picket lines, keep trucks of perishables from serving thousands of people and in general set themselves up and "GODS" is not only dictorial, but less than adolescent.

Sure, the farmer dealt a losing hand by the government and is not appreciated by the masses in America. Granted the farmer deserves so much more than he receives by the thousands that take him for granted...But is he unique in the discrimination imposed upon him by the rest of the United States? Surely, for every grievance the farmer claims his counterpart in the business world can also cry "Unfair". Surely those in education can cry "Unfair"...and on and on and on.

The point is this...farmers have so much more coming to them than they have received...they deserve the gratitude of us all...BUT they have no right to set themselves up as Judge and jury...Possibly they have been taking lessons from some of our "self righteous" unions and labor constituents.

As the addage goes, "If you don't like farmers, don't talk about them with your mouth full". So goes the idea that this is a free country...yet only free where ones ideas and desires are not forced upon others.

Let's get behind the farmer in his efforts to produce more for us at a fair price. Lets march with him peacefully. Let's get behind our provider at the polls. And let us remind our "brother of the earth" when he is wrong.

Angelina County history series

TFA organized to promote wise forest use

Editor's Note: This is one of a series of articles reprinted with permission from the Angelina Bicentennial Committee from "Land of the Little Angel," an award winning book compiled by the Angelina County Historical Survey Committee and edited by Bob Bowman.

Every once in a while, a cause arises with an appeal so universal and so strong that it gathers together people from all walks of life and welds them into a cohesive organization for united action.

In 1914, it was just such a cause that gave birth to the Texas Forestry Association, which numbers among its members farmers, bankers, lawyers, industry heads, teachers, foresters, housewives and many others.

The Association is a non-governmental, non-profit, state-wide, privately supported organization promoting the wise use of forest and related resources.

Lufkin, the forest capital of Texas, played an important role in the early history of TFA. Lufkin has hosted 14 annual meetings for the Association, including such early meetings in 1924, 1928, and in 1936 the 21st annual meeting of TFA was held in Lufkin in connection with the dedication of the new Texas Forest Service's Forest Fire Protection Headquarters. The 1976 annual meeting of TFA is also scheduled in Lufkin. The TFS building, which is still in use, is a combination of beauty and efficiency, featuring Texas woods.

Through the years TFA and TFS have cooperated on many educational projects of mutual interest. In fact the State Forester of Texas served as Secretary of TFA until 1949, including the 19-year span with Mr. E.O. Sieke serving as secretary of TFA.

In 1949, the headquarters for the Texas Forestry Association was moved from College Station to Lufkin. Office space was rented in the Perry Building. Later, the offices were moved to the Denman Building on the corner of Lufkin and First Street, but were returned to the Perry Building about 1958.

Looking to the future, the Texas Forestry Association authorized the purchase of a large, beautiful wooded lot on the corner of Atkinson Drive and Oleta Street near the main traffic thoroughfares of Lufkin. Realizing that a readily accessible "home of our own" had many advantages, including abundant parking space, a fun-raising drive was initiated and an architect was employed, thus TFA put down some permanent roots and moved into its own all-wood building in 1967. The note was burned, completing payment for the building, at the TFA annual meeting in 1973.

County Commissioners hold lengthy session

Before entering into a squabble that lasted nearly five hours, the Angelina County Commissioner's Court had a full agenda as they met in regularly scheduled session Dec. 12 in the Angelina County Courthouse.

The Commissioners unanimously approved the County Treasurer's report for the month of November, 1977. The Angelina County Courthouse expansion is due to get underway by January 3rd of next year and Thomas and Thomason will be doing the honors. A payment of nearly $100,000 was approved for payment consisting of architectural fees, legal fees, and other fees for the proposed Courthouse expansion.

Approval was made for the 1976 insolvement advalorem tax roll. The tax roll includes delinquent payments as of June 30 of all real and personnal property throughout Angelina County. An estimated $79,000 was reported delinquent to the Commissioners in a report compiled by the County Tax Assessor and Collector's office. The report does not include the total tax delinquency.

The County has approved the match the amount of $3,667 to the $11,000 as contracted by the Research and Planning Consultants for the '701 Planning Grant. The State of Texas is funding 2/3 of the total amount.

Dr. Wayne Lawrence had made the recommendation of John Smith to be appointed to the Angelina County MHMR Public Responsibility Committee. The committee is designed to inspect the operations of the MHMR facilities. The recommendation was unanimously approved by the County Commissioners. December 20 at 9 a.m. is the set time and date for the public hearing on the proposed 1978 Angelina County Budget. County Judge Claude Welch had first suggested the date of Dec. 19 but is appeared that some of the Commissioners would be out of town on that date.

Financial statements presented to School Board

The Board of Trustees of the Lufkin Independent School District held their Board meeting last Wednesday night and were presented a copy of the financial statements concerning the cafeteria and tax reports.

The cafeteria report included 93,106 for total pupil lunches for the month of November and $216,499.18 total working capital. Under expenditures, food, labor, and other expenditures totaled $191,627.03 for the same month. Other expenditures which include closing cash balance, total cash due, and unpaid bills, totaled a net balance of $64,227.41.

The tax report for the month of November, 1977 totaled $405,073.20 for the Lufkin Independent School District. The monthly report includes current tax, (1977) at $386,801.68, current P and I, delinquent tax (prior to 1977) at

INCLUDING CHRISTMAS EVE!

"My electric bill keeps going up. Why?"

REASON ONE The cost of new generating plants. Even though many people are reducing their usage of electricity, Texas Power & Light must build new generating plants. These plants—which use lignite coal and nuclear materials as fuel—are necessary to phase out use of natural gas and fuel oil, and to meet the electricity needs of homes, businesses and industries. TP&L construction expenditures for plants and other facilities are expected to total some $279 million in 1977 and $326 million in 1978.

REASON TWO The cost of fuel for generating plants. Lignite-fueled plants now in operation are reducing TP&L's dependence on expensive gas and oil. However, when use of air conditioning skyrockets the demand for electricity during the summer, gas-fueled plants must supply more power. When supplies of gas are curtailed during the winter, oil must be used to meet the demand.

REASON THREE The cost of environmental equipment. TP&L recognizes its responsibility to help protect the cleanliness of the air and water. Within the bounds of a reasonable balance of costs and benefits, the Company has been fulfilling this responsibility for many years. Now, State and Federal regulations require installation of environmental equipment on generating plants. At one new plant, air quality control devices will add some $76 million to the cost of the plant, and increase the cost of electricity produced at this plant 15 to 20 per cent.

Texas Power & Light is working to assure an adequate and dependable supply of electricity to its customers. And, in the face of constantly rising costs of producing and supplying electricity, we're working to keep your cost as low as possible.

Area Sports

Babe Ruth signs new contract

With the winter baseball meetings at an end it was little more than astonishing to see the results of the trading. Players like Vida Blue, Bobby Bonds, Willie Montanez, Jon Matlack, Al Oliver and Al Haabosky were traded as though they were priceless. With the free agent status making millionaires out of average athletes we have a problem. Before Babe Ruth went into the owners office he heard some astonishing news, Catfish Hunter was making two million and Reggie Jackson was making three.

Now if this the case we have to put everything in proportion and that's just what the Babe did. He equated his ability with that of Andy Messersmith, who makes $333,000 from the Yankees, and signed for his comparable value. The Sultan of the Swat now owns Manhatten, Yankee Stadium, and part of the Statue of Liberty. We also heard that Ted Williams is the proud new owner of Boston.

Maybe today's baseball players are worth their asking price, but if so then the Babe Ruths, Lou Gehrigs, and Walter Johnsons are worth more than the game could raise.

Volleyball registration begins Jan. 9

The Lufkin Recreation and Parks Department will sponsor Men and Women's Open Volleyball beginning Jan. 9, 1978. The League Organizational meeting will be Wednesday, Dec. 21, at 6 p.m., in the Downtown Recreational Center.

Teams interested in playing in the League are asked to send representatives to the meeting.

More Sports on A-9

From my corner....

by Jim Daher

In recent weeks we have seen one of the most tragic incidents to happen in sports for years. Houston Rocket Rudy Tomjanovich possibly saw his career come to an abrupt end with one vicious, violent blow.

Kermit Washington, a 6' 9", 325 lb. forward, saw fit to smash Rudy's face after, yes, after an exchange between opposing players. In what's becoming commonplace in professional athletics, we saw an example of the sportsmanship we now exhibit. In today's arena this is acceptable behavior. Why else would the penalty have been so lenient?

The irony of this new type of professional competition is the results suffered by those involved. Washington seemingly received just punishment for his actions when the commissioner suspended him for 60 days and hit him with a $10,000. fine. Tomjanovich was rushed to the intensive care unit at Centinela Hospital where his injuries were diagnosed as: a broken cheekbone, broken nose, a cut from under his left nostril through his lip, a concussion, blurred vision, loose teeth, and a skull fracture. Both his lips are swollen shut and his head is considerably puffed.

Washington's seemingly just punishment amounts to two weeks wages and 30 games on the bench. Tomjanovich could get life.

Of all the people in the league the victim couldn't have been a worse choice. Rudy T. has had a nice guy image ever since his rookie season. He's always the peacemaker and has the mildest temperment on the club. He's a gentleman on and off the court, and this should never have happened.

When a game becomes so violent that it's dangerous, it's a sad day in sports. What we're coming to is an age where the skill involved will diminish as the voilence increases. Is this

Nearly 900 Texas cities to receive tax rebates

State Comptroller Bob Bullock announced last Thursday that some 890 Texas cities will be receiving some early Christmas cheer in the form of city sales tax rebate checks totaling $53.8 million.

Mailed Thursday, the checks represent the cities' December share of the local option, one per cent sales tax.

The December checks totaled $3,2 million more than those for the same month last year, and bring the rebate total for the year to $361.6 million. This is up $58.9 million---19.4 per cent---over calendar 1976. "These figures indicate that 1977 was a banner year for merchants and other sale tax permit holders in Texas, and we expect the coming year to be as good and or better," Bullock said.

Among the cities locally that will be receiving rebate checks are: Diboll, $34,143; Jasper, $41,383; Groveton, $3,396; Corrigan, $6,787; Lufkin, $214, 057; Palestine, $80,764; Rusk, $10,617; San Augustine, $12,095; Zavalla, $883; and Huntington, $5, 336.

Of the Texas cities, Austin registered the biggest percentage increase in city sales tax rebates for the year. City sales tax rebates for the city were up a whopping 31 per cent.

Alpha Lambda Chi selling notecards depicting Lufkin scenes

Six Angelina College art students have used their talent in pen and ink drawing to create scenes of Lufkin for use on notecards being sold by the Alpha Lambda Chi Chapter of Beta Sigma Phi.

Scenes depicted on the notecards include Angelina College, the Lufkin Civic Center, the Texas Forestry Association Museum, the Historical and Creative Arts Museum, Ellen Trout Zoo and Kurth Memorial Library.

All of the artists are art majors at A.C. and most have already decided how they will use their artistic talents in the future. Mark Skelton, whose drawing is of Angelina College, has plans to become a court artist one day. The artist who depicted the Civic Center, Billie Schrieber hopes to teach art education in the future. Robert Lopez, whose project was the TFA Museum, plans to keep up his pen and ink talents as a hobby, but would prefer to direct most of his time toward architecture. The scene of the Historical and Creative Arts Museum was the work of Jay Brittain. Brittain is not definitely decided on his future, but has tenatively decided to pursue art education. David Jones, who chose to draw Wllen Trout Zoo because of his interest in wildlife, plans to enter to architectural field, but plans to keep doing pen and ink drawing as a hobby.

The notecards, a ways and means project for Alpha Lambda Chi, are currently on sale $2 for each packet of 12 cards.

Anyone interested in purchasing the notecards may order by calling 632-564

Joe Hackney Reports

If I had to pick a period of time when the fishing in this part of the world was at it's best and providing the most all around excitement, that time would be right now. This past week I've had the opportunity to make a couple of trips over to Toledo Bend and both trips were packed with action. The first trip came Tuesday on the heels of the well received rain. The rain fell until that afternoon and about 3 o'clock in the afternoon my father, who was visiting me, and I made our way out into the river channel and started the run to the place where I had found a few fish my last time out; on the edge of an underwater outside bend of the river. I had found the fish on the chart recorder and caught just a few a couple of weeks ago. As I pulled into the area, I once again began to see the fish on the chart recorder but much shallower that they were the time before. I could see the growing schools of white perch down about the 17 to 25 foot level, but these fish that I was seeing were moving at about the six foot level. As we began to fish and speculate as to what kind of fish that were feeding so shallow, we began to catch a few bass mixed with occassional white perch. Then, about a hundred yards from the boat, the surface of the water broke into a frenzy of fish feeding on the shad that had surfaced to bask in the warm rain water that had fallen there. If I didn't know that it was December the 13th, I would have thought that I was looking at a scene in July or August. I put the trolling motor into high and scurried toward the schooling fish. Rather than taking the time to put on another bait, as soon as I was in range I cast the silver jigging spoon that I had on into the middle of the action. I cranked about two or three turns of the reel when the rod doubled. Sure enough there he was. Old bigmouth was doing his familar dance on top of the water. The schooling lasted until dark even though we had to move the beat in order to follow the school. The fish that we caught ran from two to three pounds apiece, though at times we would see some much larger fish sur-

the goal of athletics?

Another sad aspect of this tragedy is that it would be so easy to correct. If the punishment for such behavior is to be a deterent then suspend the guilty party for a year. Levy an edict that warns him his next incident of that nature will earn him permanent retirement.

If action of a serious nature is not taken soon there are going to be worse incidents. Somebody better start the ball rolling before that happens, and that job belongs to the Commissioner. It happens to be housecleaning time and O'Brien has the broom. He better see that they play by the rules or not at all.

Yuletide Wishes

Hoping your Christmas will be merry
Your holidays bright and gay,
And all the good old fashioned joys
Cross your hearth and stay.

Heartfelt thanks for your valued friendship.

face.

I don't think that I could close this column without saying something about Christmas. Sometimes I don't think that Christmas means as much to kids today as it seemed to in times past. Every store you go into today you can find just about any size or shape Santa Claus you want and it is of small surprise that kids' beliefs in Santa are not quite as strong as they used to be. I never think of Santa Claus but that I think of a story I read one time written by Dan Beard, founder of the Boy Scouts. He was a little boy at about the turn of the century and he and his family lived in the wooded mountain area of one of the eastern states. He recalls how that Christmas had a lot of meaning for their family with the entire family helping with decorating a tree that had been cut from the woods and how that his mother would make candies and that Christmas spirit in general ran very high. They lived in a log cabin with a fireplace and on Christmas Eve they would all bundle up and wear their coats

Merry Christmas

Off-season savings.
That's one reason why. When we're not so busy, we can give you a better buy. And more attention.
Miss the price increase.
Inflation seems never to stop, and normally a new season brings higher prices. Right now you can get next year's pool for last year's prices.
We'll tell you the truth about Fiberglass.
And that's for free. We'll tell you about the best and let you decide we can give you the whole truth and let you make your own decision.
Don't tear your yard up during growing season.
It seems to hurt more when the grass is green and growing. Call us now and we'll be through before then.
Have your pool for a full season.
You'll be able to enjoy your pool from spring through fall. Ask anyone who gets a pool in the summer and they will tell you it is hard to wait for when it is 100 degrees *in the shade. So, give us a call. We'll build you a pool while it's too cold to use it so you won't miss a minute when it gets hot. Plus you'll save money.*

From Wall Street to Main Street

By Jerry Benson, Registered Representative with Edward D. Jones and Co., Members of the NY Stock Exchange.

Opening an account with our firm is simple. Among the information we need to know is your name, address, occupation, social security number, citizenship and whether you're of legal age...and the name of your bank or other satisfactory financial reference.

The great majority of today's investors have "Cash Accounts." This means that transactions are settled promptly without the use of credit.

"Margin Accounts" involve both cash and credit. The percentage of the full purchase price which may originally be advanced by your broker, and on which you pay interest, is set by the Federal Reserve Board. In recent years this has ranged between 20 per cent and 80 per cent and is currently set at 50 per cent for stock. Stock purchased on margin serves as collateral for the credit. If the price of your stock declines, you may have to put up additional cash or securi-

Lufkin Area Church News

St. Cyprians celebrates Lucia Fete

Members of St. Cyprian's Episcopal Church gathered Dec. 11 to celebrate the Lucia Fete. The Lucia Fete is an advent ceremony preparing for the coming of Christ.

An ancient custom, the Lucia Fete was first celebrated by the Swedes in honor of Saint Lucia, the Patron Saint of Light. Celebrated a little early by the parishioners at St. Cyprians, since the early 17th century, Dec. 13 is when the eldest daughter in every household wears a crown of candles in a procession honoring the Saint on the day marking the turning point in the days length (winter solstice).

The tradition was brought to America by the Swedes in the Philadelphia and Delaware areas, founding a church called "Gloria Dei" in Philadelphia.

American children have adopted a saying which goes - "Lucy Day, Lucy night, shortest day, longest night."

Saint Lucia was noted for her purity and deeds of feeding the poor. She was betrayed by her fianice (a non-Christian) when she refused to marry him, choosing instead to give her life to the Lord. She lived during the reign of Diocletian, Emporer of Rome.

For the Episcopal Church, this celebration allows participants to act as the "bearers of light, preparing the way for Christ," according to Father John Caskey, Rector of St. Cyprian's Church.

Mrs. A. E. Peterson, left, directed the music for the Lucia Fete presented at St. Cyprian's Episcopal Church Dec. 11. Far right, dressed in the costume of her native Sweden, is Mrs. Lone Wittliff, Chairman for the dinner that followed the ceremony. Following the fete, those attending enjoyed a smorgasboard of Swedish delicacies. The climax of the ceremony was marked by the entry of the Lucia Queen. This year's Queen was Lisa Anderson, top row center.

Sevelle to hold seminar

Jerry Savelle will conduct a three-day seminar Monday through Wednesday at the Word of Life Teaching Center at 1226 Ellis Ave. Night sessions will be at 7:30 p.m. and afternoon sessions are set for 1 p.m. on Tuesday and Wednesday.

Savelle has been conducting seminars and crusades for several years. Prior to entering his own ministry, he was an Associate Minister with the Kenneth Copeland Evangelistic Association.

He is currently pastoring the Overcoming Faith Center in Fort Worth where he also has a Christian School.

Holiday services scheduled by Church of Nazarene

The mid-week service of prayer, praise and Bible study will be conducted this evening at 7:30 at the First Church of the Nazarene. Rex Weisinger will be in charge of the service and will give the devotion.

On Sunday, Dec. 25, a special one-hour service will be held at 10 a.m. Rev. Raymond Robbins will be bringing the message.

Special music will be provide by Rev. and Mrs. Robbins. The Sunday evening service will be dismissed.

Huntington Methodist festivities set

Christmas Festivities are in the making in many areas of East Texas and the Huntington Methodist Church is just one of the many churches which are preparing to celebrate the Christmas Season.

Saturday, Dec. 24, from 11:15 to midnight, the Huntington Methodist Church will be holding a Christmas Eve Candlelight Service.

Huntington Methodist will be dismissing their Sunday school classes, but will [illegible] their worship services at 10 a.m. Looking at the week after Christmas, Huntington Methodist will hold communion Dec. 31 for the New Year from 7 to 12 p.m.

Hackney from A-11

because they knew that that was the one night that they could not light a fire in the fireplace. Yes, when he and his brother would go to bed it was with the fullest faith that old Santa would soon be making his way through the night and finally making his way down that chimney with presents for the whole family. The next morning when they would wake there would be the toys and fruit that Santa had brought, but there was always more. Over at the fireplace there would be a big pile of ashes on the floor and a set of soot covered footprints making their way to the Christmas tree and back. His father would then take them up to the loft and lift the trap door that went out onto the roof. There, in the snow on the roof, they could see the skid marks of a sleigh and the footprints of dder and the scene was complete with fresh deer droppings.

He said that if you wanted to talk about someone who believed in Santa Claus, those two wide-eyed boys didn't have a doubt in their minds.

Times have changed a lot and now I have a 5-year-old who will be waiting for Santa to arrive here in Lufkin Christmas Eve and at my house Santa is alive and doing well.

Merry Christmas and a happy New Year.

As we dispense greetings of the season we send a large portion of warm wishes your way. It's our pleasure to serve you.

Strange light from A-1

The Savior, yes, the Messiah, the Lord, will be born in Bethlehem Sunday night. You will recognize him as a baby wrapped in swaddling clothes lying in a manger", the angel reportedly told the shepherd.

The shepherd told the Home Banner that the angel was joined by a vast host of others praising God and saying "Glory to God in the highest and peace on earth for all good men".

Skylab Astronauts reported possible confirmation of the Angel's appearance when they said an unusual "earth glow" was seen by them in the area describe in the news report from the shepherds.

Hassle free meals begin with advance planning

Hassle free holiday meals start with advance planning and creative, nutritious ideas, advises Marilyn Haggard, Foods and Nutrition Specialist.

"During the holiday season, time for everyday meals is limited, what with shopping, tree trimming and preparation of special foods for the 'big day.' But everyday meals don't have to suffer. A little advance planning and preparation are the key," she says.

Miss Haggard is with the Texas Agricultural Extension Service, The Texas A&M University System.

Make a simple plan of meals that can be prepared ahead of time or require little preparation, she says.

One might be a favorite family casserole. Prepare it and freeze it in a foil-lined dish that can be heated in the oven. Once frozen, remove the casserole from the container to free it for other uses, and store the casserole inthe foil. When you are ready to serve it, simply place the casserole back in the origin al container and heat it. Toss a salad, heat some rolls and call the family in for a quick, but nutritius and tasty, meal.

Another idea makes several meals with ground meat. Prepare a large batch of ground beef seasoned with tomato sauce and favorite spices and herbs. Divide it into meal-size portions and freeze individually.

One portion can serve as the base for a spaghetti supper and another for sloppy joes. Or make hearty sandwiches by spooning the ground beef into pocket bread and topping it with cheddar cheese. Don't forget tacos for a "south of the border" treat. Use one portion for a quick-and-easy pizza with a crust prepared in minutes from boxed yeast-bread mix.

Wall Street from A-14

ties to meet our margin requirements. Margin accounts are usually better suited to experienced investors who are prepared to assume additional risks in the hope of achieving greater rewards.

Margin Call

A demand upon a customer to put up money or securities with the broker. The call is made when a purchase is made; also if a customer's equity in a margin account declines below a minimum standard set by the Exchange or by the firm.

Denman from A-14

Denman, in turn, announced Temple-Eastex's new organization plan that included the election of six senior officers to the newly created positions of Group Vice-President of Temple-Eastex Incorporated. "Elevation of these men to their new assignments," Denman said, "more emphatically recognizes the expanding diversification of Temple-Eastex operations. "With plants and offices located throughout the United States, streamlining our top management group will improve communications, flexibility, and effiency." Denman said Temple-Eastex revenues for 1977 would be at record levels, approximately $400,000,000.

Group Vice-Presidents named include, Rex P. Condit, Henry H. Holubec, Kenneth Nelson, W. Ray Frye, Don V. Hackney, and W. Wayne McDonald. In addition to the above officers, Denman also announced the appointment of Ward R. Burke as Vice-President and General Counsel of Temple-Eastex.

It's Christmas again and time to say how much it means to have the friendship and good will of folks like you. Accept our sincere thanks and warm wishes for a Happy Holiday

Book Review

by Emily Kistler & Judy Semlinger

"The Random House Encyclopedia" is a completely new kind of reference work, the first specifically designed to serve both adults and young people in today's visually oriented world.

It is revolutionary in concept. It uses pictures not only with unprecedented lavishness but in a wholly new way - as a basic means of conveying knowledge. The result is a one-volume encyclopedia like no other, a unique resource for learning and, at the same time, a unique pleasure to read. Here at last is a one-volume encyclopedia that truly fulfills the requirements of a 20th century family for a universal home reference book and, perhaps even more important, powerfully projects the excitement and the joy of knowledge.

Erma Bombeck, our reigning humorist, has a new delightfully fun book, "The Grass is Always Greener over the Septic Tank". She has written the expose of all exposes - the truth about the suburbs: where they planted trees and crab-grass came up, they planted schools and taxes came up, where they died of old age trying to merge onto the freeway, and where they finally got sex out of the schools and back into the gutter. A former obituary writer and home-room mother, Erma Bombeck is the author of three bestselling books, "At Wit's End, Just Wait Till you have Children of Your Own, and I lost Everything in The Post-Natal Depression", all of these books being exciting and fun.

One of the greatest pleasures of life is to eat well. One of the greatest arts of life is to cook well. Lillian Marshall has prepared the "Southern Living Illustrated Cookbook" for the aspiring cook, who seeks to learn the art, and for the accomplished cook, who seeks to refine it.

Mrs. Marshall doesn't stop with recipes, as outstanding as her's are. She gives you a concise, but thorough, introduction in how to organize a kitchen, including the choosing of major and small appliances. She offers her great experience in food buying and storage and in the planning of menus.

Most importantly, Mrs. Marshall gives careful explanations of simple and complex cooking techniques, all of them twice revealed, by words and by step-by-step photographs.

School Board from A-4

$15,059.33, and delinquent P and I at $3,212.

Total Collections for the year 1977 rounded out to $908,884.30, which includes current tax (1977) at $873,459.71, current P and I, delinquent tax (prior to 1977) at $28,446.26, and delinquent P and I at $6,978.33.

The Board of Trustees also reviewed the subject of substitute teachers. Substitute teachers for the Lufkin Independent School District are selected from a list of people approved by the Board of Trustees. The substitute pay is determined each year as the budget if formulated.

Student Welfare was another important topic discussed Wednesday night. Immunization is a major factor in enrolling a student in the schools. It is current policy that no person is to be admitted to any school in the District unless he has been immunized against diptheria, rubeola, rubella, tetanus and poliomyelitis. There are certain exemptions, however; when a doctor states that immunization would be injurous to the health and well-being of the applicant or any member of the family or household, or if the immunization conflicts with the tenets of a recognized church or religious denomination of which the applicant is an adherent or member. The latter exemptions do not apply in times of emergency or epidemic delcared by the Commissioner of Health. A signed affidavit is ussually required under both exemptions as regulated by the school district officials.

The Lufkin Independent School District Board of Trustees lastly approved to pay bills and accounts for the month of November totally $75,635.43. The Board of Trustees is a body of persons elected by the citizens of the local school district to be legally responsible for the education of all the children within the district. Members serve without compensation for three-year terms. Though made up of seven individuals, the Board acts officially only as a group. No member, person or group of persons acts in the name of the Board except when authorized by the Committee of the whole to do so.

The Board has control over local school matters, subject to limitations imposed by regulations of the State Commissioner of Education, state laws of Texas, federal laws, and, of course, the will of the District's patrons as expressed in the District elections.

In accordance with the law, board meetings are open to the public, except when discussions of personnel matters, land acquistions, student hearings or matters of legal counsel are involved. Such matters may be handled in executive sessions.

Regular meetings of the Board are scheduled for the third Wednesday of each month in the Board Room of the Administration Building. the Board reserves the privilege of changing Board meetings when necessary. Public notice is made in advance.

The Board meetings follow a standard agenda. Visitors are encouraged to express a viewpoint or ask a question regarding matters related to the school system.

HOLY NIGHT

God bless you and keep you in the circle of His love. Warm thanks to all our friends.

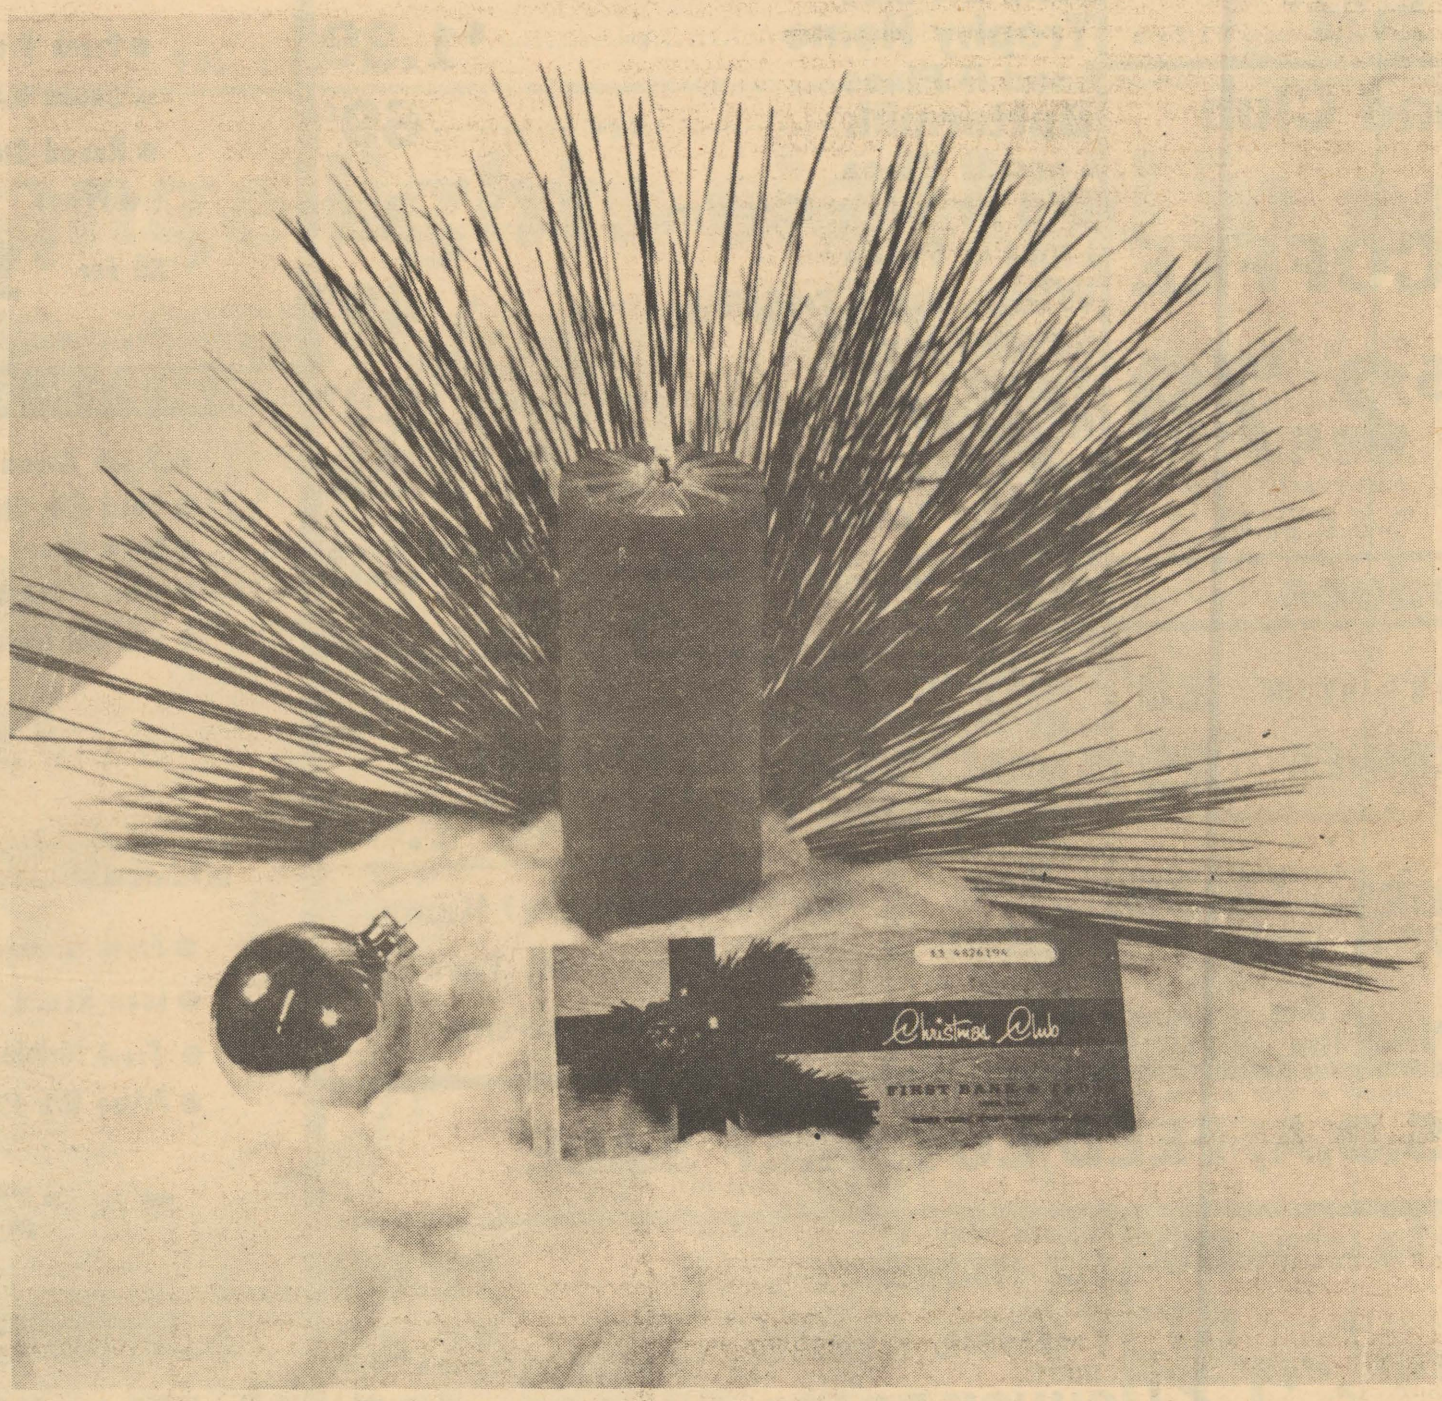
Let Us Light Up Your Christmas!



Join our Christmas Savings Club before January 1st, and we'll give you a FREE scented Christmas candle and help you save Christmas money at the same time.

By saving a few dollars each week you can start preparing for next Christmas now and stop that extra worry about Christmas cash.

At your request we'll make automatic withdrawals from your checking or savings account and deposit them into your special Christmas Club Account. To make it easier to save, early withdrawals are not allowed. The amount that you specify ($3, $5, $10, or $20) can be deposited weekly or monthly, whichever you prefer, and with no trouble to you. Then on November 15th, 1978, your total Christmas Club check will be mailed to you.

We do it all. Just let us know how much and when and we'll gladly take care of saving money for you for the time of year when you need it most.

Just another service from the bank that puts you First.
