THE VICTORY BELONGS TO **THE PEOPLE**

We have witnessed a stunning armed victory! A coalition of world forces has triumphed over the aggression of Iraq. Rarely has such a multi-national gathering of armies moved so decisively and so quickly to counteract a single aggressor.

Much has been written about the impact high technology, or *smart weapons,* had on the ability of our Armed Forces to bring the war to a quick and dramatic end. But let's not forget that the heart and soul of the war effort was the young men and women who directed or, in many instances, took those *smart weapons* ***to*** the enemy.

The media seems to dwell on what's wrong with America and her young people. Clearly, however, the spirit, determination, will and skill of the current generation was impressively demonstrated as they worked together to assure freedom throughout our world.

I see this same spirit and determination every day in the various operations of Lufkin Industries, as our people learn to use and apply modern technology more efficiently to produce our wares and serve our customers.

Just as our Armed Forces have dramaticaly proven that they are the best on earth, we must also prove—every day—that the LUFKIN Team has no equal. In doing this, let's all recognize our tremendous accomplishments, accentuate the positive and strive to improve our Company and our country.

E B Stevenson

LUFKIN

EXTENDS A SPECIAL **THANK YOU to**

congressman charles wilson

Congressman Charles Wilson (D,Lufkin) was honored March 8, when LUFKIN declared "Charles Wilson Day at Lufkin Industries."

Pictured, at left, with Congressman Wilson are Odis Garner and Jay Hess who built the plaque Wilson is holding and Scott Semlinger, who presided at the presentation ceremony.

vertex communications corporation

Vertex Communications Corporation representatives, Don Branum, Vice-President Sales & Marketing and Rex Vardeman, President, C.E.O., stand with LUFKIN employees Scott Semlinger, Herb Green, Fred Coulter, Gary Day, Dwayne Howell and Frank Stevenson, behind the scale model of a communications satelite dish manufactured by LUFKIN.

F.Y.I.

LUFKIN has purchased the former Kimco Plant facility in Lufkin.

The acquisition includes over 29 acres of land, manufacturing and warehouse facilities in excess of 73,000 sq. ft. and more than 5,000 sq. ft. of office space.

According to Frank Stevenson, "This facility will primarily be utilized for gear repair. By moving this portion of our business to this new location, several positive aspects will be realized: first, this will give us the opportunity to expand our gear repair business; and second, it will free up needed space in our present manufacturing facilities."
