LUFKIN

july 1991

EDUCATION:

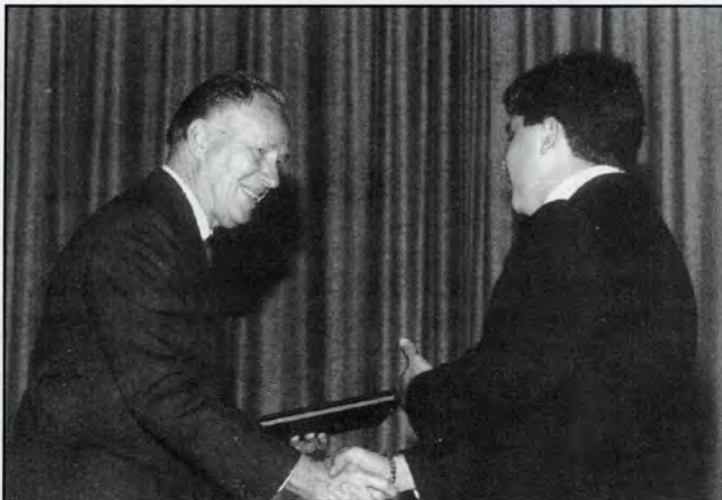

SPOTLIGHT ON EXCELLENCE

High school graduation is an exciting milestone in a young person's life. We at Lufkin Industries salute those students, especially the children of LUFKIN employees, who have successfully completed their high school education.

Lufkin Industries places a high value on education. We recognize that graduation from high school, college, vocational/technical school or a Lufkin University class does not signal the end to our learning. Especially in an age of rapid technological change, learning is a process that lasts the rest of our lives. For this reason, we applaud and

encourage the efforts of those who seek additional education or training.

Through the Lufkin Industries Foundation, we are all able to support the continuing education of the sons and daughters of LUFKIN employees. The foundation has provided financial support to over 400 students since it was founded in 1964. This year, the foundation awarded scholarships to over 40 young people. Each of us can be proud of these numbers, because the funds for

these scholarships come from each of us through Company, employee and retiree contributions, participation in the Annual "Mutt" Barr Golf Tournament and vending machine sales.

Lufkin Industries believes that funds invested in education are funds invested in the continued success of our Company, our community and our country. We are therefore committed to providing an environment that encourages learning, growth and opportunity.

We wish this year's scholarship recipients and all the high school graduates well as they develop their plans for the future and strive to make their own unique contributions.

F.Y.I.

Gene Nelson has recently been named the Safety & Health Coordinator for the Trailer Plant.

Gene, along with his counterparts in the other production areas, is responsible for coordinating the safety and health programs in his area.

Remember, if you have any questions concerning safety/health related issues,

you can talk to your supervisor or your Safety Coordinator.

The Safety & Health Coordinators in the other production areas are:

Danny Melton.....Foundry
Cecil Primrose.....Machine Shop
Pete Werner.....Fabrication
