

Odgis + Co: Make Business Beautiful.™

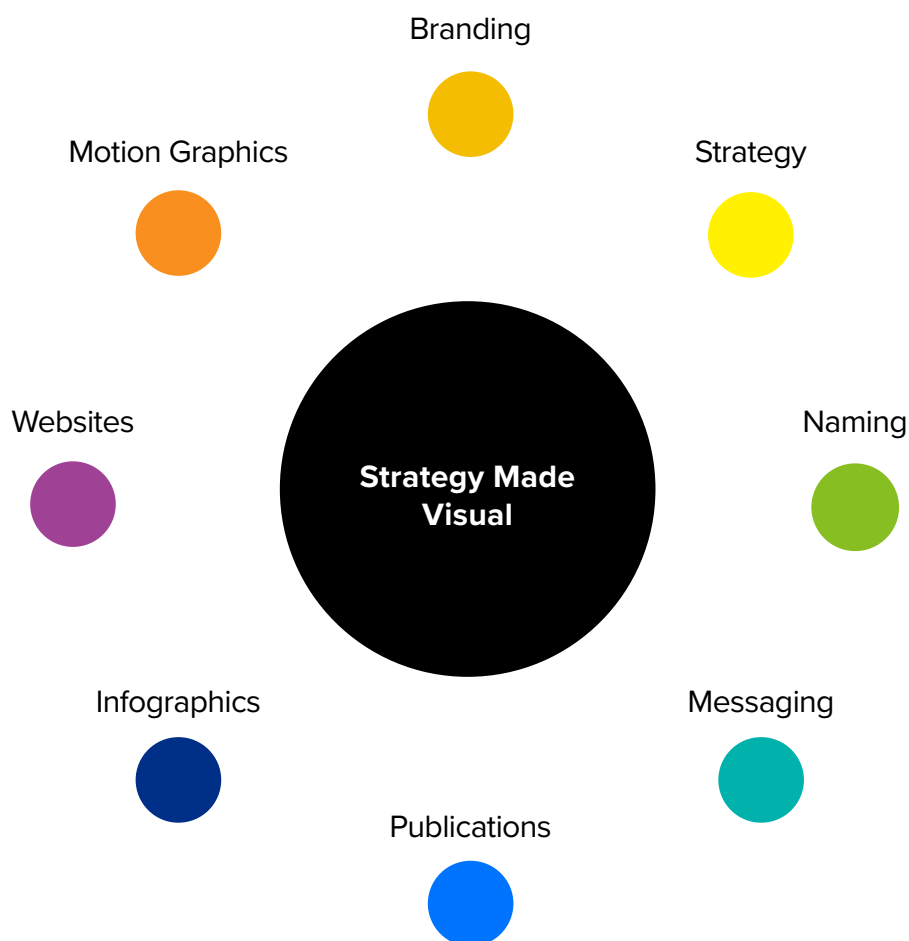

www.odgis.com

We turn complex organizations into brands that are instantly understood. They look great, sound great, and signal trust before a word is spoken. Recognized. Remembered. We make business beautiful.

Odgis + Co is an award-winning, women-owned brand design studio. We work with organizations at moments of transition: a new venture, a repositioning, a brand that no longer reflects the firm behind it. We help them define what they stand for, then design a brand that expresses it. We then bring it to life through naming, messaging, and design across every touchpoint, for professional services, financial services, commercial real estate, and law.
