STUDENT DESIGN COMPETITION 2024

Clarifying Questions
Thank you for reading our 2024 IIDA Student Design Competition Questions and Answers document.

In addition to providing answers to the questions below, we also wanted to remind students that we have published the 2023 IIDA Student Design Competition winners to help you better understand what a jury is looking for when selecting winners.

**GENERAL PROJECT QUESTIONS**

1. **What is TRCP?**
   TRCP stands for The Reflected Ceiling Plan. This is optional.

2. **Is it possible to know the exact location of the site or is the location of the site entirely up to our discretion?**
   The location is in Baltimore, MD and the neighborhood is up to the designer’s discretion.

3. **Can we film a walkthrough video of the space to capture our thought process?**
   Yes! This is not required but you are more than welcome to.

4. **Is there a CAD file for the floorplan?**
   Yes, you can access that [here](#).

5. **Is the clinic on the first floor or the ground floor?**
   The clinic and the outdoor space are on the ground floor. The stairs lead to the other floors, but you do not need to design for that.

6. **Is there a scale or dimensions available for this project?**
   No, we recommend designer’s use their best judgment with the provided information, square footage, and space requirements.

**FLOORPLAN QUESTIONS**

7. **Can we add exterior door access to the patio?**
   Yes, you can add additional doors but you cannot remove existing ones.

8. **Where is the existing plumbing line? And would that be concerning with the placement of the bathrooms?**
   Up to the designer’s discretion.

9. **Is the elevator single door or double door?**
   Up to the designer’s discretion.

10. **Where is the front door? And can we change the swing of the doors?**
    The main entrance to the clinic is the entrance to the left of the outdoor space. The entrance has double doors and the swing can be adjusted.

11. **Do we need to leave access space for the public to use the elevators and stairs?**
    Up to the designer’s discretion.

12. **How do you access the outside space?**
    Designer’s discretion: may use the door all the way towards the right, or may build a new entryway to the outdoor area (without altering the other already called out doors).

13. **There is a small room under the stairs on the right side of the drawing? Can you describe its use?**
    This space is used for mechanical storage. You do not need to design around it.
IIDA

IIDA is the commercial interior design association with a global reach. We support design professionals, industry affiliates, educators, students, firms, and their clients through our network of 15,000+ members across 58 countries. We advocate for advancements in education, design excellence, legislation, leadership, accreditation, and community outreach to increase the value and understanding of interior design as a profession that enhances business value and positively impacts the health and well-being of people's lives every day.
