FOCUS GROUPS
Focus groups are an opportunity for a manufacturer to learn about overall company perceptions, effective communication, and most importantly, what specifiers think about a manufacturer’s products from a group of 15-20 IIDA member participants. The format and questions are developed by the manufacturer, with IIDA providing feedback, edits, and more to ensure questions garner as much beneficial information as possible.
WEBINARS OR VIRTUAL PROGRAMS

Connect, inform, and educate IIDA members and designers through live webinars, panel discussions, or product demonstrations. Utilizing Zoom webinar and meeting technology, you have the opportunity to share your expertise by providing continuing education or product introductions germane to the commercial interior design industry. Multiple virtual event options are available from intimate, invitation-only events to large seminars open to the public.
