

# IMPA | EDUCATION

We support your professional career with education and training

## The value of continuing professional development remains undisputed at IMPA

We continually strive to create and secure innovative and highly-requested education and training programmes that give marine purchasers and suppliers the recognition they deserve and allow them to become better at their job through flexible study. From a three-tier online course that caters for all levels in maritime purchasing and is delivered via the widely-used Moodle platform, to short courses in collaboration with our partners, we see education as the backbone of our everyday activity.

### Build your procurement career with our array of marine purchasing and supply online education programmes of its kind. Visit [www.impa-education.com](http://www.impa-education.com)

No matter your walk of professional life, the IMPA Marine Procurement Education Academy has got your back. Offering three study levels catering for all lengths of professional experience, our courses are designed from an academic perspective, integrated with practical scenarios, and designed to see you leave the course with solid procurement and supply chain management knowledge.

#### As a student, you will benefit from:

- ✓ A research-led education paving the way to becoming tomorrow's procurement leader;
- ✓ Teaching conducted by maritime procurement and supply chain management experts;
- ✓ A highly-dynamic, interactive and flexible learning environment that is 100% online;
- ✓ The opportunity to sharpen your skills and knowledge and advance your career.

#### Entry-Level Online Course - Assistant Buyer

The Assistant Buyer course is suitable for the assistant maritime buyer who fulfils an operational, procurement role in a department involved with procurement or ordering processes in the shipping industry. Delivered across two blocks of eight weeks, the course will introduce you to the different phases of the purchasing process and the levels of purchasing activities.

#### Intermediate-Level Online Course - Buyer

Our intermediate-level programme for maritime procurement, the Buyer course is suitable for the purchaser who operates on an operational or tactical level in a maritime procurement department. Delivered across four blocks of eight weeks, the course will help you master the skills to excel in your position.

#### Advanced-Level Online Course - Buyer

The Senior Buyer course is suitable for the seasoned maritime buyer who desires to be an expert in the field. Delivered across four blocks of eight weeks, the course will help you manage complex procurement situations and interact with multi-disciplined teams around you. It will also offer you the tools to develop strategic supplier relations

## Understand upcoming requirements, new regulations and existing procurement frameworks with consolidated and specialised workshops and short courses

Throughout the year, we organise with our partners and collaborators member-only workshops and presentations delving into emerging new requirements that can impact the maritime procurement business. Whether related to sustainability and responsible supply chain management, maritime engineering, or new requirements such as the IHM Regulation, we listen to our members and aim to deliver, all with one goal: to help you navigate new territories.

### Our workshop portfolio changes all the time, but here are some of the courses we have been running more recently:

To find out more, go to [www.impa-education.com](http://www.impa-education.com)

#### Suppliers' Workshop for IHM Maintenance

100% Online

In collaboration with GSR Services GmbH, we are helping our supplier members navigate the IHM minefield, this course teaches suppliers in maritime to work out the integration of documentation into existing structures.

#### Responsible Business Conduct: The Global Standard

In-Person, London, UK

In collaboration with Global CSR, we assist companies in setting up a responsible supply chain management system that is aligned to internationally endorsed UN principles, as well as increasing visibility in their supply chains.

#### Hydraulic Engineering for Maritime Engineers

Available on request

In partnership with EDME - If you are a marine superintendent or engineer looking to learn the practical maritime applications of hydraulic engineering, this two-day in-company course is for you.

#### Marine Auditing for Purchasing Professionals

Available on request

Delivered in-company or in London in collaboration with Lloyd's Register, this course is of value to those involved in auditing or purchasing and teaches the benefits of purchase management and supplier control.

For our online degree programmes, prices start from GBP 1,375 for IMPA members and we also run a successful scholarship scheme covering full tuition fees. Most short courses and workshops are available exclusively to members of IMPA and we work hard to keep the fees low and accessible.
