

## Compliance Management

### ADDRESSING THE BURDEN OF REGULATORY COMPLIANCE

Every day, healthcare organizations confront a significant burden of complying with federal and accreditation requirements. Failure to meet these obligations can have a considerable impact on business continuity. The ProtectAdvisr™ Compliance Management solution provides a robust tool to manage and identify gaps and opportunities to meet or exceed the Conditions of Participation (CoPs) and other accreditation requirements more efficiently.

#### Strengthen Compliance and Gain Insight

- + Develop compliance schedules that meet industry and policy requirements.
- + Visualize your compliance and quickly identify gaps.
- + Manage documentation and verify compliance records.
- + Realize citation reduction savings.
- + Reduce administrative burden and manual review.
- + Meet compliance requirements for Inspection, Testing and Maintenance (ITM).

#### Visualize ITM Gaps and Requirements In Real-Time

##### *Configurable Dashboard*

Our proven solution utilizes an interactive configurable dashboard to manage timetable requirements.

##### *Requirements Tracker*

Timely completion, accurate follow-up and proper analysis transform compliance into proactive performance improvement programs.

##### *Vendor Inspection Reports*

Vendors submit inspection reports to your specific compliance requirements directly into the system, allowing less time spent on compliance activities and more on high-value tasks.

### *ProtectAdvisr™*

Compliance programs in the built environment must center around the measurement, improvement and analysis of processes.

**ProtectAdvisr Compliance Management** empowers our clients to develop and enhance their compliance programs, organize documents, and establish effective and efficient operations while driving performance growth.

#### A TRUSTED PARTNER IN THE HEALTHCARE INDUSTRY

Our technical experts provide risk-informed services to clients daily and help develop the standards and guidelines used by NFPA, CMS, and accreditation organizations.

Compliance Management has been in operation at healthcare facilities and providing value to our clients since 2020.

### *How Can We Help?*
