

SMARTPLAN

Facility Response Plans

SMARTPLAN™ delivers expert-backed emergency planning technology designed to streamline the development and management of Facility Response Plans (FRPs) in full compliance with the Clean Water Act (CWA) and Oil Pollution Act (OPA 90).

We can help when:

- + You've had an agency FRP **review or inspection** and need to address deficiencies.
- + Staff is **stretched thin**, and you don't have time to research, write or update a full FRP.
- + Uncertain about the **agency's requirements** or whether they apply to your operations.

Over the past 20 years, many Fortune 500 companies in oil and gas, refining, manufacturing and other industries have turned to us to develop their plans and programs and efficiently keep their plans compliant.

EXPERTISE

Plan Development Experts — Response plans covering more than 50,000 miles of pipelines and more than 1,000 facilities in more than 40 states.

Audit-Ready — Significant experience with EPA, U.S. Coast Guard, PHMSA regulations.

On Site Help with Exercises — Additional services include design and facilitation of exercises to satisfy regulatory requirements.

INDUSTRIES WE SERVE

Oil

Refineries

Utilities

Manufacturing

Education

Retail

JENSEN HUGHES

PLANS HOSTED ON A SCALABLE AND SECURE WEB-BASED SOLUTION

Companies that manage their FRP and other plans with our web-based SMARTPLAN solution can verify compliance and facility response readiness through a unified platform. The system standardizes best practices across plans and locations while configured for site-specific details.

STREAMLINE PLAN UPDATES AND MANAGEMENT

- + **Always Available** — Simplify plan maintenance with up-to-date plans always available from anywhere. No more reliance on binders.
- + **Smart Plans** — Contains automated cross-references to essential information required by regulatory agencies.
- + **Manage More with Fewer Resources** — Our web-based system reduces maintenance costs with update-once/deploy-everywhere convenience. Larger operations and multi-location facilities enjoy even greater savings.
- + **Integrated & Efficient** — Share notifications and key data across multiple plan types, significantly reducing maintenance efforts.

“Our organization has been using SMARTPLAN for over 10 years. The user-friendly interface allows our team members to make streamlined bulk changes across plan templates and provides efficiency during regulatory plan reviews. The technical support and customer service team have always been timely in fulfilling our requests and answering questions.”
