SMARTPLAN
Emergency Response Plans

SMARTPLAN™ is the complete emergency planning solution. It's a streamlined technology platform backed by a team of experts to develop and manage all your Emergency Response Plans (ERPs), designed to meet the challenges of most facilities. It is a proven solution for creating and accessing compliant Emergency Response Plans and other emergency plan types.

SMARTPLAN emergency response plans are designed to comply with EPA and other applicable regulatory requirements and meet key strategic and tactical emergency management objectives.

We can help when:

+ You are required to have plans responding to various types of emergencies **to protect life, property, and the environment**.
+ ERPs need to **integrate with other plan types**.
+ You need plans to specify **how to communicate with employees during an emergency**, including the use of alarms, public address systems, and two-way radios.

Expertise

Plan Development Experts — Response plans covering more than 50,000 miles of pipelines and more than 1,000 facilities in more than 40 states.

Audit-Ready — SMARTPLAN Emergency Response Plans have successfully passed audits and agency reviews.

Experience with Various Facility Types — Customization for various facility types, including Oil and Gas Terminals, Pipelines, Refineries, Chemical Plants, Hospitals, and Schools.

INDUSTRIES WE SERVE

PLANS HOSTED ON A SCALABLE AND SECURE WEB-BASED SOLUTION

Companies that manage their Emergency Response Plans and other plans with our SMARTPLAN™ solution can verify compliance and make updates through a unified platform. Backed by a team of experts to develop your plans, the system standardizes best practices across plans and locations while configured for site-specific details.

STREAMLINE PLAN UPDATES AND MANAGEMENT

+ **Always Available** — Simplify plan maintenance with up-to-date plans available from anywhere—no more reliance on binders.

+ **Smart Plans** — Plans contain automated cross-references to essential information required by regulatory agencies. Eliminates content discrepancies and "version confusion."

+ **Manage More with Fewer Resources** — Our web-based system reduces maintenance costs with update-once / deploy-everywhere convenience. Larger operations and multi-location facilities enjoy even greater savings.

+ **Integrated & Efficient** — Share notifications and key data across multiple plan types, significantly reducing maintenance efforts.

"Our organization has been using SMARTPLAN for over 10 years. The user-friendly interface allows our team members to make streamlined bulk changes across plan templates and provides efficiency during regulatory plan reviews. The technical support and customer service team have always been timely in fulfilling our requests and answering questions."
