

SMARTPLAN

Fire Pre Plans

SMARTPLAN™ is the complete emergency planning solution. It's a streamlined technology platform backed by a team of experts to develop and manage Fire Pre Plans, designed to meet the challenges faced by large industrial facilities. It is a solution that addresses the sheer number of plans required, and the complex needs of specific locations.

We can help when:

- + Plans require a deep understanding of **compliance and insurability requirements**.
- + **Expert hazard analysis** is required, and fire scenarios are challenging.
- + You need a solution to **rapidly provide local responders with usable visual and location-specific plans**.

EXPERTISE

Plan Development Experts — Response plans covering more than 50,000 miles of pipelines and more than 1,000 facilities in more than 40 states.

Audit-Ready — SMARTPLAN Fire Pre Plans have successfully passed audits and agency reviews.

Experience with Complex Facility Types — Customization for a variety of hazards, including atmospheric tanks, bullet and sphere tanks, process units, and buildings.

INDUSTRIES WE SERVE

JENSEN HUGHES

PLANS HOSTED ON A SCALABLE AND SECURE WEB-BASED SOLUTION

Companies that manage their Fire Pre Plans and other plans with our SMARTPLAN™ solution can verify compliance and make updates through a unified platform. Backed by a team of experts to develop your plans, the system standardizes best practices across plans and locations while configured for site-specific details.

STREAMLINE PLAN UPDATES AND MANAGEMENT

- + **Always Available** — Simplify plan maintenance with up-to-date plans always available from anywhere. No more reliance on binders.
- + **Smart Plans** — Plans contain automated cross-references to essential information required by regulatory agencies. Eliminates content discrepancies and “version confusion.”
- + **Manage More with Fewer Resources** — Our web-based system reduces maintenance costs with update-once/deploy-everywhere convenience. Larger operations and multi-location facilities enjoy even greater savings.
- + **Integrated + Efficient** — Share notifications and key data across multiple plan types, significantly reducing maintenance efforts.

“Our organization has been using SMARTPLAN for over 10 years. The user-friendly interface allows our team members to make streamlined bulk changes across plan templates and provides efficiency during regulatory plan reviews. The technical support and customer service team have always been timely in fulfilling our requests and answering questions.”
