

SMARTPLAN

Spill Prevention, Control and Countermeasure Plans

SMARTPLAN™ delivers a streamlined technology solution backed by a team of experts to develop and manage Spill Prevention, Control and Countermeasure Plans (SPCCs) and ensure compliance with EPA regulations.

We can help when:

- + You have had a **federal or state review or inspection** and need to address compliance deficiencies.
- + **Staff lacks expertise** or Professional Engineer (PE) certification or are stretched thin.
- + You want to **identify Waters of the US (WOTUS)** applicability.

EXPERTISE

Plan Development Experts — Response plans covering more than 50,000 miles of pipelines and more than 1,000 facilities in more than 40 states.

Audit-Ready — SMARTPLAN SPCC plans have successfully passed audits and agency reviews.

Scale to Your Needs — We develop site-specific SPCC plans for many onshore facilities, including production and non-production.

INDUSTRIES WE SERVE

Oil

Refineries

Utilities

Manufacturing

Automobile

Education

Retail

JENSEN HUGHES

PLANS HOSTED ON A SCALABLE AND SECURE WEB-BASED SOLUTION

Companies that manage their SPCC and other plans with our SMARTPLAN™ solution can verify compliance through a unified platform. Backed by a team of experts to develop your plans, the system standardizes best practices across plans and locations while configured for site-specific details.

STREAMLINE PLAN UPDATES AND MANAGEMENT

- + **Always Available** — Simplify plan maintenance with up-to-date plans always available from anywhere. No more reliance on binders.
- + **Smart Plans** — Plans contain automated cross-references to essential information required by regulatory agencies. Eliminates content discrepancies and “version confusion.”
- + **Manage More with Fewer Resources** — Our web-based system reduces maintenance costs with update-once/deploy-everywhere convenience. Larger operations and multi-location facilities enjoy even greater savings.
- + **Integrated & Efficient** — Share notifications and key data across multiple plan types, significantly reducing maintenance efforts.

“Our organization has been using SMARTPLAN for over 10 years. The user-friendly interface allows our team members to make streamlined bulk changes across plan templates and provides efficiency during regulatory plan reviews. The technical support and customer service team have always been timely in fulfilling our requests and answering questions.”
