This sales and advertising literature is neither an offer to sell nor a solicitation of an offer to buy securities. An offering is made only by the prospectus. **This literature must be read in conjunction with the prospectus in order to fully understand all of the implications and risks of the offering of securities to which the prospectus relates. A copy of the prospectus must be made available to you in connection with any offering.** No offering is made except by a prospectus filed with the Department of Law of the State of New York. Neither the Securities and Exchange Commission, the Attorney General of the State of New York nor any other state securities regulator has approved or disapproved of our common stock, determined if the prospectus is truthful or complete, or passed on or endorsed the merits of this offering. Any representation to the contrary is a criminal offense. A copy of the prospectus for JLL Income Property Trust (JLLIPT or IPT) offering can be obtained or viewed at [www.jllipt.com](http://www.jllipt.com). ## SUMMARY OF RISK FACTORS

You should read the prospectus carefully for a description of the risks associated with an investment in JLL Income Property Trust (“JLLIPT”). Some of these risks include but are not limited to the following:

- Since there is no public trading market for shares of our common stock, repurchases of shares by us after a one-year minimum holding period will likely be the only way to dispose of your shares. After a required one-year holding period, JLLIPT limits the amount of shares that may be repurchased under our repurchase plan to approximately 5% of our net asset value (NAV) per quarter and 20% of our NAV per annum. Because our assets will consist primarily of properties that generally cannot be readily liquidated, JLLIPT may not have sufficient liquid resources to satisfy repurchase requests. Further, our board of directors may modify or suspend our repurchase plan if it deems such action to be in the best interest of our stockholders. As a result, our shares have limited liquidity and at times may be illiquid.
- The purchase and redemption price for shares of our common stock will be based on the NAV of each class of common stock and will not be based on any public trading market. Because valuation of properties is inherently subjective, our NAV may not accurately reflect the actual price at which our assets could be liquidated on any given day.
- JLLIPT is dependent on our advisor to conduct our operations. JLLIPT will pay substantial fees to our advisor, which increases your risk of loss. JLLIPT has a history of operating losses and cannot assure you that JLLIPT will achieve profitability. Our advisor will face conflicts of interest as a result of, among other things, time constraints, allocation of investment opportunities, and the fact that the fees it will receive for services rendered to us will be based on our NAV, which it is responsible for calculating.
- The amount of distributions JLLIPT makes is uncertain and there is no assurance that future distributions will be made. JLLIPT may pay distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, or offering proceeds. Our use of leverage increases the risk of your investment. If JLLIPT fails to maintain our status as a REIT, and no relief provisions apply, JLLIPT would be subject to serious adverse tax consequences that would cause a significant reduction in our cash available for distribution to our stockholders and potentially have a negative impact on our NAV.
- While JLLIPT’s investment strategy is to invest in stabilized real estate properties diversified by sector with a focus on providing current income to investors, an investment in JLLIPT is not an investment in fixed income. Fixed income has material differences from an investment in a non-traded REIT, including those related to vehicle structure, investment objectives and restrictions, risks, fluctuation of principal, safety, guarantees or insurance, fees and expenses, liquidity and tax treatment.
- Investing in real estate assets involves certain risks, including but not limited to: tenants’ inability to pay rent; increases in interest rates and lack of availability of financing; tenant turnover and vacancies; and changes in supply of or demand for similar properties in a given market.
- You should carefully review the “Risk Factors” section of our prospectus for a discussion of the risks and uncertainties that we believe are material to our business, operating results, prospects and financial condition. Except as otherwise required by federal securities laws, we do not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
- This sales material must be read in conjunction with the prospectus in order to fully understand all the implications and risks of the offering of securities to which it relates. This sales material is neither an offer to sell nor a solicitation of an offer to buy securities. An offering is made only by the prospectus.
- Investors could lose all or a substantial amount of their investment. Alternative investments are appropriate only for eligible, long-term investors who are willing to forgo liquidity and put capital at risk for an indefinite period of time.
- This material is not to be reproduced or distributed to any other persons (other than professional advisors of the investors or prospective investors, as applicable, receiving this material) and is intended solely for the use of the persons to whom it has been delivered.

## FORWARD-LOOKING STATEMENT DISCLOSURE

This literature contains forward-looking statements within the meaning of federal securities laws and regulations. These forward-looking statements are identified by their use of terms such as “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “predict,” “project,” “should,” “will,” and other similar terms, including references to assumptions and forecasts of future results. Forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, and other factors that may cause the actual results to differ materially from those anticipated at the time the forward-looking statements are made. These risks, uncertainties, and contingencies include, but are not limited to, the following: our ability to effectively raise capital in our offering; uncertainties relating to changes in general economic and real estate conditions; uncertainties relating to the implementation of our investment strategy; and other risk factors as outlined in our prospectus and periodic reports filed with the Securities and Exchange Commission. Although JLLIPT believes the expectations reflected in such forward-looking statements are based upon reasonable assumptions, we can give no assurance that the expectations will be attained or that any deviation will not be material. JLLIPT undertakes no obligation to update any forward-looking statement contained herein to conform the statement to actual results or changes in our expectations.

**NUMBER OF HOMES**

Approximately 2,500

The portfolio consists of approximately 2,500 homes and is managed by Amherst Residential, the fourth largest investor and manager of single-family rental homes in the U.S.

**INVESTMENT RATIONALE**

- Amherst Residential is a vertically integrated platform with over \$10.4 billion in AUM and a portfolio of over 58,000 single-family homes.
- Average home value is roughly \$320,000 — highlighting the diversification benefits of single-family rentals. The portfolio is broadly diversified across major markets in different states with homes spread across multiple locations within these markets.
- LaSalle’s Research & Strategy team has identified single-family rentals as a “nearcore” property sector poised for accelerating institutional capital inflows along with an attractive risk-adjusted return profile. Given the superior long-term tenant demand growth outlook, our research projects long-term expected rent and NOI growth above all other institutional property type averages.
- The portfolio has experienced a 74% renewal rate, which compares favorably to the 50% turnover for traditional apartment renewal rates. This investment increases JLLIPT’s overall allocation to residential, a desired strategic overweight property sector.
