Distribution payments are not guaranteed and may be modified at the Company's discretion. The amount of distributions JLLIPT may make is uncertain. JLLIPT may pay distributions from sources other than operational cash flow, including, without limitation, the sale of assets, borrowings, or offering proceeds. The advisor may defer reimbursements and fees otherwise due, in order to pay these distributions, and when these amounts are paid back to the advisor, that will result in a decrease in cash flow from operations. Our inception to date cash flows from operating activities, along with inception to date net gains from investment realizations, have funded 100% of our distributions to JLLIPT stockholders and OP unitholders through March 31, 2026.

Fees and expenses reduce cash available for distribution. Data as of March 31, 2026.

Past performance is historical and not a guarantee of future results.

¹ Total assets at fair value are reported at pro-rata share for a properties with joint ownership.

² Includes Private Real Estate Credit investments.

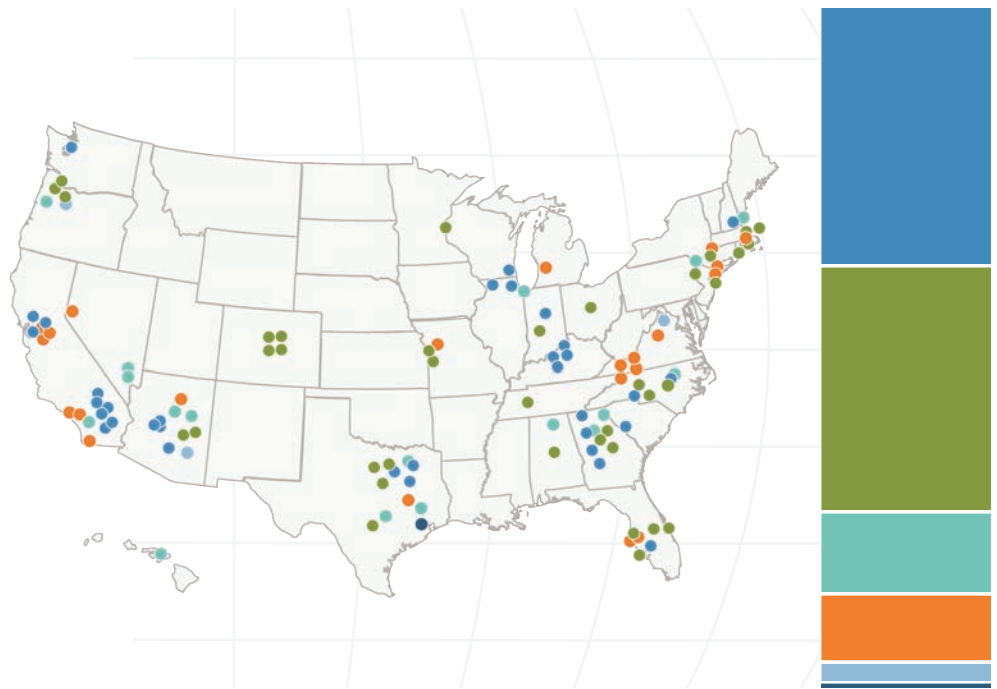

³ Distribution payments are not guaranteed and may be funded from sources other than cash flow from operations, including, without limitation, borrowings, the sale of assets, debt investment repayments, return of capital or offering proceeds, and advances or the deferral of fees and expenses. The annualized distribution rate shown reflects the current quarter's distribution annualized and divided by the prior quarter's net asset value, which is inclusive of all fees and expenses. Our inception to date cash flows from operating activities, along with inception to date net gains from investment realizations, have funded 100% of our distributions to JLLIPT stockholders and OP unitholders through March 31, 2026. The payment of future distributions is subject to the discretion of JLLIPT's board of directors and applicable legal restrictions, therefore there can be no assurance as to the amount or timing of any such future distributions.

NAV CALCULATION AND RECONCILIATION

This sales material contains references to our NAV. NAV is calculated in accordance with the valuation guidelines approved by our board of directors. NAV is not a measure used under generally accepted accounting principles in the United States ("GAAP"), and you should not consider NAV to be equivalent to stockholders' equity or any other GAAP measure. As of December 31, 2025, our NAV per share was \$11.24, \$11.25, \$11.27, \$11.23, and \$11.23 per Class M-I, Class M, Class A-I, Class A, and Class N shares, respectively, and total stockholders' equity per share was \$6.43, \$6.43, \$6.44, \$6.42, and \$6.42 per Class M-I, Class M, Class A-I, Class A, and Class N shares, respectively. For a full reconciliation of NAV to stockholders' equity, please see the "Management's Discussion and Analysis of Financial Condition and Results of Operation—Net Asset Value" section of our annual and quarterly reports filed with the SEC, which are available at <http://jllipt.com/sec-flings>. For information on how we calculate NAV, see the "Net Asset Value Calculation and Valuation Guidelines" section of our prospectus. This literature must be read in conjunction with the prospectus in order to fully understand all of the implications and risks of the offering of securities to which the prospectus relates. A copy of the prospectus must be made available to you in connection with any offering. No offering is made except by a prospectus filed with the Department of Law of the State of New York. Neither the Securities and Exchange Commission, the Attorney General of the State of New York nor any other state securities regulator has approved or disapproved of our common stock, determined if the prospectus is truthful or complete, or passed on or endorsed the merits of this offering. SHARE REPURCHASE PLAN

During the quarter ended March 31, 2026, we redeemed 8,025,322 shares for a total of approximately \$90,202,000 pursuant to our share repurchase plan. Shares are not eligible for repurchase for the first year after purchase except upon death or disability of the stockholder. Shares issued pursuant to our distribution reinvestment plan are not subject to the one-year holding period. Eligible share repurchases during the period from April 1, 2026 through June 30, 2026 are limited to approximately \$116,923,000 which is 5% of the NAV of all classes of shares as of the last business day of the previous calendar quarter. Since there is no public trading market for shares of our common stock, repurchases of shares by us after a one-year minimum holding period will likely be the only way to dispose of your shares. After a required one-year holding period, we limit the amount of shares that may be repurchased under our repurchase plan to approximately 5% of our net asset value (NAV) per quarter and 20% of our NAV per annum. Because

our assets will consist primarily of properties that generally cannot be readily liquidated, we may not have sufficient liquid resources to satisfy repurchase requests. Further, our board of directors may modify or suspend our repurchase plan if it deems such action to be in the best interest of our stockholders. As a result, our shares have limited liquidity and at times may be illiquid.

¹ Total assets at fair value are reported at pro-rata share for properties with joint ownership.

² NAV includes company and minority owners equity interests.

³ Company Leverage Ratio is calculated as the Company's share of total liabilities (excluding future stockholder servicing fees) divided by the Company's share of the fair value of assets.

⁴ Includes Private Real Estate Credit investments.

⁵ Average remaining lease term excludes our apartment properties as these leases are generally one year in term.

⁶ Source: JLL Income Property Trust as of March 31, 2026. Past performance is historical and not a guarantee of future results. Performance returns reflect reinvested distributions and changes in the NAV per share. All returns are net of fees. Since inception returns and standard deviation reflect annualized data since October 1, 2012 for Class A and as of July 1, 2014 for M-I shares. Class M-I shares have no selling commission or stockholder servicing fee. Class M shares have no selling commission and a 0.30% stockholder servicing fee. Class A-I shares have up to 1.5% selling commission and a 0.30% stockholder servicing fee. Class A shares have up to 3.0% selling commission and a 0.85% stockholder servicing fee. A fixed fee that accrues daily in an amount equal to 1/365th of 1.25% of the NAV for each share class. A performance fee is calculated for each share class as 10% of the total return in excess of 7% annum on a calendar-year basis.

⁷ Class M and A shares went effective with the SEC on October 1, 2012 at an initial offering price of \$10.00 per share. The inception date for Class M-I and A-I shares was July 1, 2014. Since inception returns are annualized.

⁸ Standard Deviation reflects annualized standard deviation since October 1, 2012 for Class M and A Shares and since July 1, 2014 for M-I and A-I Shares. Standard Deviation measures the variation of returns around the average return from the investment over a given period of time. The higher the standard deviation, the greater the variance/volatility of the investment returns.

⁹ NAV is reported based on the fair value of assets less liabilities. Our daily NAV can be found on our website at www.jllipt.com and our toll-free line, (855) 652-0277.

SUMMARY OF RISK FACTORS

You should read the prospectus carefully for a description of the risks associated with an investment in JLL Income Property Trust ("JLLIPT"). Some of these risks include but are not limited to the following:

- Since there is no public trading market for shares of our common stock, repurchases of shares by us after a one-year minimum holding period will likely be the only way to dispose of your shares. After a required one-year holding period, JLLIPT limits the amount of shares that may be repurchased under our repurchase plan to approximately 5% of our net asset value ("NAV") per quarter and 20% of our NAV per annum. Because our assets will consist primarily of properties that generally cannot be readily liquidated, JLLIPT may not have sufficient liquid resources to satisfy repurchase requests. Further, our board of directors may modify or suspend our repurchase plan if it deems such action to be in the best interest of our stockholders. As a result, our shares have limited liquidity and at times may be illiquid.
- The purchase and redemption price for shares of our common stock will be based on the NAV of each class of common stock and will not be based on any public trading market. Because valuation of properties is inherently subjective, our NAV may not accurately reflect the actual price at which our assets could be liquidated on any given day.
- JLLIPT is dependent on our advisor to conduct our operations. JLLIPT will pay substantial fees to our advisor, which increases your risk of loss. JLLIPT has a history of operating losses and cannot assure you that JLLIPT will achieve profitability. Our advisor will face conflicts of interest as a result of, among other things, time constraints, allocation of investment opportunities, and the fact that the fees it will receive for services rendered to us will be based on our NAV, which it is responsible for calculating.
- The amount of distributions JLLIPT makes is uncertain and there is no assurance that future distributions will be made. JLLIPT may pay distributions from sources other than cash flow from operations, including, without limitation, the sale of assets, borrowings, return of capital, or offering proceeds. Our use of leverage increases the risk of your investment. If JLLIPT fails to maintain our status as a REIT, and no relief provisions apply, JLLIPT would be subject to serious adverse tax consequences that would cause a significant reduction in our cash available for distribution to our stockholders and potentially have a negative impact on our NAV.
- While JLLIPT's investment strategy is to invest in stabilized real estate properties diversified by sector with a focus on providing current income to investors, an investment in JLLIPT is not an investment in fixed income. Fixed income has material differences from an investment in a non-traded REIT, including those related to vehicle structure, investment objectives and restrictions, risks, fluctuation of principal, safety, guarantees or insurance, fees and expenses, liquidity, and tax treatment.
- Investing in real estate assets involves certain risks, including but not limited to: tenants' inability to pay rent; increases in interest rates and lack of availability of financing; tenant turnover and vacancies; and changes in supply of or demand for similar properties in a given market.
- You should carefully review the "Risk Factors" section of our prospectus for a discussion of the risks and uncertainties that we believe are material to our business, operating results, prospects and financial condition. Except as otherwise required by federal securities laws, we do not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
- This sales material must be read in conjunction with the prospectus in order to fully understand all the implications and risks of the offering of securities to which it relates. This sales material is neither an offer to sell nor a solicitation of an offer to buy securities. An offering is made only by the prospectus.
- Investors could lose all or a substantial amount of their investment. Alternative investments are appropriate only for eligible, long-term investors who are willing to forgo liquidity and put capital at risk for an indefinite period of time.
- This material is not to be reproduced or distributed to any other persons (other than professional advisors of the investors or prospective investors, as applicable, receiving this material) and is intended solely for the use of the persons to whom it has been delivered.

FORWARD-LOOKING STATEMENT DISCLOSURE

This literature contains forward-looking statements within the meaning of federal securities laws and regulations. These forward-looking statements are identified by their use of terms such as "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "plan," "predict," "project," "should," "will," and other similar terms, including references to assumptions and forecasts of future results. Forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, and other factors that may cause the actual results to differ materially from those anticipated at the time the forward-looking statements are made. These risks, uncertainties, and contingencies include, but are not limited to, the following: our ability to effectively raise capital in our offering; uncertainties relating to changes in general economic and real estate conditions; uncertainties relating to the implementation of our investment strategy; and other risk factors as outlined in our prospectus and periodic reports filed with the Securities and Exchange Commission. Although JLLIPT believes the expectations reflected in such forward-looking statements are based upon reasonable assumptions, we can give no assurance that the expectations will be attained or that any deviation will not be material. JLLIPT undertakes no obligation to update any forward-looking statement contained herein to conform the statement to actual results or changes in our expectations.
