

acclAIM has redefined fiber architecture, replacing cassette-based solutions with direct connections, which eliminates extra components and cost. acclAIM delivers the lowest insertion loss available on the market, the most optical headroom, improved density, flexibility and system lifecycle.

The acclAIM™ Alignment Independent Multifiber (AIM) fiber interconnect system is designed to mate multiples of 8-fiber trunk cable connectors directly to arrays of twin-fiber patch cord connectors by means of a “conversion adapter”.

## Features & Benefits

### Approaching Infinite Scalability

Based on the simplified design, unparalleled performance, and flexibility of architecture, Infinium acclAIM has an almost limitless migration path

### Sustainable Migration

Due to the vast migration capability acclAIM enables sustainability through fewer components and drastically longer life cycles making the acclAIM network infrastructure solution a sustainable building asset for decades to come

### Direct Mating Breakout

acclAIM connectors mate directly to an array of twin fiber patch cords - Simplify Connectivity

### Go Live Faster

Easy to stock and short lead times for conversion adapters enable rapid or emergency deployment

### Flexible Density

Flex between Beyond-Ultra-High Density UHD+ and high Density HD

### Media Interface

10GBASE, 25GBASE, 40GBASE, 100GBASE, 400GBASE & Beyond

### Application Defined Polarity

Polarity can be adapted to nearly any link configuration; preplanned, on site, or on the fly  
 - No option to determine when ordering or designing

### No Gender Considerations

No pins, just direct connections

### Near Lossless

Insertion loss near zero

## Specifications

### General Info

|                   |           |            |               |
|-------------------|-----------|------------|---------------|
| Product Line      | Ortronics | UPC Number | 662875037910  |
| Country Of Origin | Mexico    | Type       | Adapter Panel |

### Dimensions
