IM Series Information Modules (For modular door stations)

IM SERIES INFORMATION MODULE FOR MODULAR SERIES DOOR STATIONS

The IM series information modules are designed to be used with Alpha Communications® / S.T.R.™ modular series door entry stations and annunciator stations.

The IM series information modules are used to allow a building number or other information to be displayed on the modular door station(s).

All IM information modules feature LED prism illumination and plug-in connector for easy wiring. LED illuminator shall power from 8-12VAC (40mA).

All IM information modules are 3.94"w x 3.94"h (100mm x 100mm), and are made to snap into the MT series modular panel trim frame(s).

To service the IM series modules, once installed, use the model 13510 key / tool unit.

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

Information module(s) shall be Alpha Communications® / S.T.R.™ IM series or approved equal. Information module module(s) shall snap into the corresponding MT series modular panel frame(s).

Information module module(s) shall feature LED prism illumination and plug-in connector for easy wiring. Illumination unit shall power from a separate 8-12VAC (40mA) power supply.

Contractor shall observe all local and national electrical and building codes.
