EL632/GB2 Sound Module & Color Camera

NEXA GB2 SERIES ST. STEEL SPEAKER/MIC. MODULES (FOR MODULAR DOOR STATIONS)

The Nexa GB2 series St. Steel Speaker/Mic. modules are designed to be used with the Alpha Communications® / Golmar™ GB2 modular series door entry stations. There are three (3) configurations available from zero to two (2) push buttons per module, in addition to the speaker/microphone/camera window.

All Nexa GB2 series St. Steel Speaker/Mic. modules with pushbuttons feature Metal Pushbuttons, Nameholders and back-lit LED illumination.

All Nexa GB2 series St. Steel Speaker/Mic. modules are made to snap into the **NX6001**, **NX6002** and **NX6003** modular panel frame(s).

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

Speaker/Mic. module(s) shall be Alpha Communications® / Golmar™ Nexa GB2 St. Steel series or approved equal. Speaker/Mic. module(s) shall be modular type and shall be used in conjunction with the proper Nexa series modular St. Steel panel frame(s), and the **EL632/GB2** Sound Module and Color Camera. Contractor shall provide the proper number of 0, 1, or 2 pushbuttons as needed.

When equipped with pushbuttons, all Nexa GB2 St. Steel Speaker/Mic. module(s) shall feature Metal Pushbuttons, Nameholders and back-lit LED illumination.

Contractor shall observe all local and national electrical and building codes.
