

SNT333S Switching Power Supply (QwikBUS™ Series)

SNT333S SWITCHING POWER SUPPLY

The Alpha Communications® / S.T.R.™ SNT333S Switching Power Supply is used only with the 2-wire QwikBUS™ series intercom and/or video-intercom systems. The SNT333S provides the regulated 24VDC power needed to control the SP333 QwikBUS™ intelligent controller.

Each SNT333S gets its power from a customer supplied power cord, and will operate on an input of 100 to 240VAC.

Each 2-wire QwikBUS™ system requires a minimum of one SNT333S Switching Power Supply.

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The Switching Power Supply unit(s) shall be Alpha Communications® / S.T.R.™ QwikBUS™ model SNT333S, or approved equal. The SNT333S shall be built into a rugged high impact ABS plastic case, and shall be powered a contractor supplied power cord. Contractor shall furnish the proper C333-2 connecting cable to connect to the SP333 intelligent controller and to the model T1240 (12VAC) power transformer.

Low voltage wiring shall be used and positive screw terminal and plug-in connectors shall be provided for installation wiring. The SNT333S shall be mountable right to the surface of the wall or in a customer-supplied junction box cabinet (model# CEC152 or equivalent).

Contractor shall observe all local and national electrical and building codes.

FEATURES

- Easily Installs Right on Finished Wall Surface or in Optional Junction Box (model# CEC152 or equivalent)
- Operates on Safe Low-Voltage Class II Wiring
- Positive Screw Terminal and Plug-in Connectors

SPECIFICATIONS

Dimensions:	Height: 3.75" (96mm) Width: 1.34" (35mm) Depth: 2.30" (59mm) from mounting surface
Construction:	High impact ABS plastic case (typically White or Grey)
Connections:	Positive screw terminal and plug-in connectors
Mounting:	Surface-mounted (usually installed near the SP333S intelligent controller and other system central equipment).
Temp. Range:	0°C - 50°C
