

Clarity 10G angled high density patch panel with multiport modules (6 jacks in a group) utilizes a recessed angle design for a lower mounted profile. The Clarity 10G panel maximizes innovative methods for circuit isolation and supports the alien crosstalk of IEEE 10G and TIA Category 6 cabling specifications.

Features & Benefits

Recessed design with lower mounted profile: Directs cords more easily to vertical management.

Center tuned to Clarity 10G patch cords: More transparent mated union resulting in superior performance.

10 Gig compatible IDC towers: Designed to accept larger 10G cable conductors.

High density design: Maximizes rack utilization.

ETL channel tested to TIA T568B.2-10 (draft 5 Augmented Category 6) & characterized out 500MHz: Ensures component performance.

Universally wired 110 termination: Supports T568A and T568B installs.

Supplied rear cable management: Supports good cabling practices.

RoHS compliant: Lead free.

Specifications

General Info

Color	Black	UPC Number	662875611219
Country Of Origin	Mexico	Product Line	Legrand
Application Sector	Commercial/Industrial	Type	Panel

Additional Information

RoHS Conformant	Yes	Product Environmental Profile	Yes
Product Has Potential to Contribute to LEED	Yes
