Infinium HDFM Keyed Front Keyed Rear LC Duplex HDJ Adapter

Overview

Keyed connectivity solutions offer users security and network segregation to match cords to the proper channels during installation. The Keyed HDFM Module utilizes a unique keyed connector that mates with an equally keyed LC detail ensuring that only a matching key can be synced.

Features

- **Keyed LC:** Control access to networks preventing non keyed LC connectors from being inserted
- **Wide Module Color Choice:** Identify and segregate networks with choices between colors
- **Rear Loading:** Preferred mounting for panels
- **Sliding Lock:** Quick and easy installation in modular patch panels
- **Available in:** Black housing (-00 as shown) or Fog White housing (Remove -00)
