

# Behavior Support Quick Guide with kit.

**Behaviors are communication. Use this simple process to understand the ‘why’ and track patterns in Kit for Teams.**

**Ask:** What need is the student communicating?

**Clarify** expectations and consistency.

**Check:** Does the student feel safe, seen, supported?

1

## Track Caseload Tasks with To-Dos

**What:** Use Kit To-Dos + Label “Behavior Support” to stay on top of behavior-related tasks across your caseload.

**Why:** Keeps follow-ups (like parent check-ins, para training, and team meetings) organized and visible.

2

## Document Student-Specific Incidents

**What:** Use Instruction Notes + Calculators in Kit to log what happened and the context for each student.

**Why:** Builds a consistent data trail so patterns are easy to spot and teams stay aligned.

3

## Review Data Weekly for Patterns

**What:** Do a quick scan of student instruction notes and caseload to-do tasks each week.

**Why:** Helps you see triggers and trends, so you can adjust supports proactively.

**Quick Win:** Spend 5 minutes a day logging.

**By the end of the week, you’ll see patterns that guide next steps.**
