PREFACE

The ***Lane College Fact Book*** is an annual publication of the Office of Institutional Research and Effectiveness. This document is an update of information which is designed to assist administrators, faculty, staff, and other College constituents with statistical references about the institution.

The data collected and reported through this report are considered the official data for the College. As with any statistical data, these contained in the ***Fact Book*** are a snapshot of a single point in time. Unless otherwise noted, the enrollment data are based on the 14th day of fall 2019 enrollment, and other data are based on the fiscal year July 1, 2018 - June 30, 2019, as these are the official reporting dates for the Integrated Postsecondary Educational Data System (IPEDS).

Every effort has been made to include within this publication the data most often requested. A decision had to be made early in the development of the ***Fact Book*** to limit the published data. We invite the users of this book to freely comment on what data they would like to have included in the future.

Your comments and suggestions will be appreciated as the Office of Institutional Research and Effectiveness attempts to produce a document that meets the needs of the College community. Please direct comments to the Office of Institutional Research and Effectiveness or e-mail klebby@lanecollege.edu
