ABOUT US

ZAPplication (ZAPP) provides art festival and fair administrators with a series of tools to digitally collect and jury applications, manage booth payments, and communicate with applicants while promoting the event to over 70,000 active artists that are registered on ZAPP. Using ZAPP saves organizations time and effort with an easy-to-use, digital platform.

OUR HISTORY

In 2004, our parent organization, Creative West, developed ZAPplication in consultation with the National Association of Independent Artists (NAIA) and eight major art shows across the United States. ZAPP has been managed by Creative West ever since, with profits helping to fund arts advocacy efforts across the western region.

OUR MISSION

Created through the collaboration of artists and art festivals, ZAPplication connects creatives to art festivals and fairs across the United States through a digital festival management system.
