DATA ENGINEER (M/F/D)

at Maxon Computer GmbH in Friedrichsdorf (metropolitan area Frankfurt/Main, Germany), Maxon Computer Inc. in Montreal (Canada), Irvine or Newbury Park (both California, USA), Portland (Oregon, USA)

WHO WE ARE:

Maxon is a developer of professional 2D/3D digital content creation solutions. Our powerful and intuitive software products help creators in 2D and 3D design, motion graphics, visual effects and visualization to supercharge their creative workflows. Maxon's innovative portfolio includes the award-winning 3D modeling, simulation and animation suite Cinema 4D, the acclaimed lineup of Red Giant tools for editing, motion design and filmmaking, and the high-end production Redshift rendering solutions.

Maxon is looking for a Data Engineer to help us build a state-of-the-art analytics stack.

WHAT YOU WILL DO:

As Data Engineer you'll change the world by helping us to make better and informed decisions. You'll be joining a team of engineers and analysts to work on the implementation of our analytics pipeline. In general, this involves collection, processing, storage and presentation of data.

WHAT WE ARE LOOKING FOR:

- You are proficient in programming with Python, or similar scripting languages, to implement and automate processes
- You have experience with C++ to integrate the analytics pipeline with our products
- You know modern database technologies and understand their areas of application
- You have experience in using web technologies to design and implement well-thought-out APIs
- You know how to use tools or visualization frameworks (i.e. PowerBI) to present data
- You are fluent in written and spoken English and are able to clearly communicate ideas and technical knowledge (C2 level)
- You are a dependable team player who enjoys working in an international team
- You should be self-motivated and comfortable working independently on complex tasks
- Nice-to-have: You are comfortable working on Linux systems as the main host platform for processes and services
- Nice-to-have: You have experience with cloud computing platforms (i.e. Spark), and the underlying cloud platforms in general

WHAT WE OFFER:

You will be given a permanent full-time contract with perspective at our headquarter in Friedrichsdorf (just north of Frankfurt/Main), Germany, or at our offices in Montreal (Canada), Newport Beach, Newbury Park (both California, USA) or Portland (Oregon, USA). You will be part of a highly motivated international team of specialists and will work in an environment that offers a wide range of individual development possibilities. Interested in joining our team? Then send us your electronic CV (.pdf), expected salary, and your earliest starting date. We're looking forward to hearing from you!

Maxon is proud to be an equal opportunity workplace.
