MCLANAHAN PROMOTES WASTE LINE AND NEW MOBILE SOLUTIONS AT ISRI AND WASTE EXPO

Hollidaysburg, Pa., May 20, 2017 –McLanahan Corporation showcased pieces of equipment their established line of waste handling equipment, as well as their new McLanahan Mobile Solutions (MMS) line at two waste industry trade shows.

At ISRI, booth #3401, the company featured an Optical Sorter that was available for demonstrations throughout the show, which drew significant attention and inquiries, while additional waste handling equipment was showcased using 3-D models. McLanahan also featured photos and videos of the MMS line.

Just a few short weeks later at Waste Expo, McLanahan Corporation displayed its MMS Track Trommel to the waste industry for the first time. This machine is ideal for processing material that includes aggregates, waste fines, construction and demolition material, compost, topsoil, ash, and wood waste. The Optical Sorter was also displayed in the adjoining booth by our partner, Mayfran.

Visitors were able to speak with McLanahan sales and process experts from these lines of products at both the ISRI and Waste Expo shows.
