1986-1988: Allied

Ankawa in the Old City

Programme

The continuing rehabilitation of the old city in order to perpetuate the Old Town and preserve its architectural heritage. To this end, a total of 37 buildings have been renovated.

Hebron City is located in the heart of southern Palestine, 35 km south of Jerusalem. It is considered to be the second oldest city in Palestine. It was noted in the Bible and it is also mentioned in the Koran several times. The Old City of Hebron is the heart of the Palestinian community, an area of traditional architecture and a cultural center. Unfortunately, the Old City of Hebron has been under occupation for more than 60 years.

Hebron Rehabilitation Committee was founded by a presidential directive of H.E. Yasser Arafat in 1981. The objective was to secure the Old City to continue its historical and cultural significance. The committee's main task is to ensure the security and safety of the inhabitants of the Old City while preserving its architectural heritage.

The main objective of the Committee is to bring back life to the Old City as well as to preserve its culture through an architectural and cultural project. The Cordoba Foundation has been working on rehabilitation in the Old City.
