FAQ: Resolution to Execute BECOME Aim

Updated - November 12, 2026

BEYOND QUESTIONS:

What is the BECOME Aim?

Through our Beyond vision, we will be more of who we are to go beyond where we've been. Over the next two years, Beyond investments will sustain our current ministry operations, expand the Jesus Pathway, support local and global partners, and invest in new locations and campus improvements.

The BECOME Aim, focused on campus improvements, is designed to eliminate barriers so individuals and families can easily find Hosanna campuses and, when they arrive, feel there is room for them. The improvements will foster welcome, connection, accessibility, and engagement for all and improve vibrancy and security of kids' spaces. These are important assets that God has entrusted us, as members, to steward well, and we want to prepare our campuses for future generations.

BECOME is about refreshing our environments, increasing visibility, improving accessibility, and continuing to create more vibrant, secure spaces for our children. We worked with our partner, Station 19 Architects, to create a plan for each campus that addresses unique needs and opportunities based on the community, the building's age, the location, and usage. See the chart on page 4 that details the projects on each campus.

Why are we doing this?

We are doing this now to remove barriers and make room for you to invite your family and friends into Jesus-centered, life-giving communities. And we are doing this for future generations. We have received these assets from those who have gone before us, and we want to invest in them for future generations.

RESOLUTION QUESTIONS:

What is the purpose of the resolution?

Hosanna's bylaws require member approval for several items, such as electing Vision Board members and granting spending authority. The resolution explains what the members are being asked to approve, and it is paired with a vote to approve or reject.

What are we being asked to vote on?

Members are being asked to increase the spending authority of the Vision Board beyond the $500,000 limit for the purpose of completing the Beyond Campus improvement projects (BECOME aim).

To advance these projects, there will be two resolutions for member approval - one this fall and one in 2027.

1. Resolution 1 - $13 million for campus improvements at Lakeville, Rosemount and Shakopee - open for vote November 29 - December 1, 2026.
   Hosanna 2026 Annual Meeting - Final Resolution Approving Beyond Campus Impr…

2. Resolution 2 - $2 million in seed money to relocate the Northfield campus. Resolution advanced for a vote in 2027 once we have identified a new location and plan for our existing location.

Who gets to vote?
Members of Hosanna ages 18 and older are eligible to vote. If you have questions about your membership status, contact info@hosannalc.org

What constitutes a passing vote?
According to section 3.7 of the Hosanna Bylaws, a majority of votes cast is a passing vote.

Why does the Vision Board need borrowing authority since we have the financial commitments through Beyond?
To begin these campus improvement projects, our general contractor requires that we have 100% of the resources available. We do not anticipate carrying a long-term loan for these projects, but a short term loan/ or line of credit may be necessary to satisfy the contractor and will be repaid as commitments are fulfilled.

Why isn't Northfield included in the resolution?

A separate vote and resolution regarding the Northfield campus will likely take place in 2027.

This separate process is necessary because we are still actively discussing, discerning, and researching our options. Additionally, a decision regarding the sale of the current building would also be part of this future resolution. Because we are exploring options, we do not yet have the complete information needed for our members to make an informed vote.

We will share further updates as more details become available.

Campus Improvement Specific Questions:

What was the process for identifying the projects?
The recommended campus improvements were developed through several steps and with input from a variety of groups. Led by the executive team, we first engaged our campus teams in robust discussions of needed campus improvements, and we brought these ideas to our Vision Board (representing members of each campus) in late spring of 2026. We hosted a

walk-through of each campus with Station 19, our architect, and campus pastors and in most cases, other staff. Through two follow-up meetings, including one with campus pastors, our architect presented two versions of master plans based upon our input and their own recommendations.

Where are we in the design process?
We are in the very early stages of design and confirming our plans for Phase I, which will be informed by available funds. Our current "conceptual" designs are directional in nature. There will be two to three more rounds of design to ensure we are aligning to our guiding principles and our budget.

What is the construction timeline?
Generally speaking, construction will not begin for at least six months after we know the funds we have available, which we will have a good sense of after November 22. This will allow for finalization of project scope, design, city approvals, and permitting before work commences.

Who are the architect and general contractor, and how were they selected?
Station 19 is our architect and Langer Construction is our general contractor. Hosanna has worked closely with both partners for decades, and they have worked together on many projects across dozens of organizations. We have had outstanding experience across all project dimensions - planning, design, communication, project management, value, and the quality of the final deliverables. We investigated other potential partners and received input from our Vision Board. Ultimately, our long-term relationship and their familiarity with Hosanna elevated them as our preferred partners.

Campus Improvement details for first resolution: Draft subject to change based upon final design and available resources. A second resolution will be advanced in 2027 for the relocation of the Northfield campus.

Campus	Improvement	General Description
Lakeville Regional hub for worship, discipleship, leadership development, events **$6M**	Kids Space	Renovate and improve children's ministry areas to create vibrant, secure, and welcoming spaces for children and families.
	Parking and Traffic Flow	Leverage existing maintenance plans and dollars to also redesign, expand parking and improve traffic flow in the East parking lot.
	Atrium	Update the Atrium, including the central HUB, flooring, and restrooms.
Rosemount Neighborhood feel in the 7th fastest-growing city in the country! **$3M**	Kids Space	Renovate and improve children's ministry areas to create vibrant, secure, and welcoming spaces for children and families.
	Exterior Visibility and Parking	Increase the building's visibility to the surrounding community and expand parking.

Campus	Improvement	General Description
	Atrium	Create a centralized HUB and open atrium for coffee and gatherings.
	Worship Center	Enhance the Worship Center with improved screens, lighting and more seating.
Shakopee From Gold's Gym to Hosanna church…Make permanent! **$4M**	Kids Space	Consolidate and renovate children's ministry areas to create vibrant, secure, and welcoming spaces for children and families.
	Atrium	Create a centralized HUB and gathering spaces in the Atrium.
	Main Entry	Relocate main entry to optimize visibility, signage and traffic flow to worship center.
	Worship Center	Reorient and expand the Worship Center. (Phase II)
