

Tanzania Impact Trip

June 19-30, 2026

Dates may change depending on airfare

About

Food for His Children (FFHC) was founded by a Hosanna-deployed pastor and now serves over 600 families and 2,000 children living in extreme poverty in remote Tanzanian villages. Its mission is to eradicate extreme poverty by equipping parents to provide food, medical care, and education for their children, protect them from human trafficking, and empower families to become all God created them to be. FFHC fulfills this mission by providing a dairy goat and holistic support services that help families build sustainable livelihoods.

This trip is designed for families with children ages 10 and older who are ready for a meaningful, hands-on ministry experience. Hosanna families will partner with Food for His Children to connect with Tanzanian families in their homes and communities—participating in daily activities, engaging in ministry, and praying together to grow closer to Jesus. Team members will meet with FFHC children to hear their stories, pray with them, and help document their dreams and goals. Additional opportunities may include helping host a youth conference, assisting with simple construction or farming projects at the FFHC Farm and Innovation Center, and visiting a local school, hospital, and clinic.

All trip participants will consult medical professionals for their medical needs to participate on this trip (vaccinations, physical demands, medications, etc.). Trip Leaders will provide some general guidelines for consideration with medical professionals.

Location Impact Trip

June 19-30, 2026

Dates may change depending on airfare
