HORWIN

Intelligent Electric Vehicle

Breathtaking, inspiring, revolutionary or just fantastic is the original intention for Horwin to create a brand new and yet unprecedented driving machine. Most of the team members are motorcycle enthusiasts, industrial experts or even professional racers from Germany, Austria, China and Brazil. Horwin motorcycles are state of the art when it comes to emobility. After years of research & development, as well as cooperation with big players from all over the world, an electric motorcycle was eventually created. we are proud of join in the great intelligent electrical vehicle industrial and change the world trip mode to green!
