Job Order Contracting (JOC) is a subset of construction procurement and typically used for smaller construction procurements. The use of Job Order Contracting is growing as entities are trying to find ways to achieve growth and maintenance goals while staying within budget and time constraints. To successfully implement a JOC, procurement needs to establish a JOC program. Procurement must also communicate with suppliers about JOC opportunities and manage contracts to ensure compliance with contract terms.

Increasingly, governmental entities are embracing technology and IT infrastructure solutions in their desire to interact more strategically and beneficially with the communities they support. As a result, procurement professionals are expected to procure and negotiate contracts and agreements with more complex terms and conditions. Performing these tasks, however, requires the procurement professional to evaluate a multitude of topic-specific factors that affect stakeholders and the governmental entity alike. Promoting an overview of technology procurements, NIGP's Technology Procurement Specialty Certificate provides learners with an introduction to terminology, research practices and opinions, solicitation methods, strategies for risk identification, and common mistakes procurement professionals encounter when negotiating and managing awarded IT contracts. This Specialty Certificate introduces and promotes IT best practices by identifying concepts, common risks and issues, and the precise role of the procurement function and public procurement professional in governmental entities, empowering procurement professional to achieve a legal, flexible, and fair agreements or contracts with confidence.

MEMBER RECOGNITIONS—SPOTLIGHT MEMBER

CHERYL RAIFORD

SENIOR BUYER, CITY OF LEESBURG

What year did you join the Chapter? I joined the chapter in 2020.

How long have you worked in the procurement profession? I will have worked in the procurement profession for two years in October 2022.

What is the most interesting, unusual, or challenging purchase in which you have been involved? I visited with another co-worker who planned for an onsite visit. In my first year in Procurement, I witnessed a department who invited everyone to look at rescue tools. This included the office staff. Everyone present were not involved in the rescue efforts and there was no reason for the additional staff. There were too many people and the vendor took

over the meeting. His demonstrations allowed the department to look at other machinery which was not on the bid list. This experience assisted me into inviting **ONLY** the needed parties to a demonstration.

What professional certifications do you hold? Business Specialist Certification. Currently, pursuing certification in Project Management at Columbia of Alabama University. After I have reached this goal, I will pursue my Masters and Doctorate Degree in Business. Additional obtained education degrees are AS and BASOM. (LSSC)

What is your number one goal (career or personal)? My number one goal is to leave a legacy as a testament to my life, Spirit—genuine and honest; education—you are never too old to learn; independency—don't wait for someone else to give you something, if you can get or do it yourself; dreams—turn them into realities.

What is your favorite hobby? Creating (floral arrangements, embellishing shoes, crotchet, sewing, and planting and watching it grow.

Share a little-known fact about yourself. I've been married for 20 years to Mark. I am an only child. I love God and learning new things. I am a people person and a servant. I am humorous. Mortuary science and modeling were apart of my early desires of employment, but accounting and business management later became my passions. My nickname is Sunshine in the professional arena. I seemed to have inspired others with my smile. I look forward to having a business to help those to help themselves.

Leading with emotional intelligence

This session deepened my awareness of Emotional Intelligence. I could channel and express my emotions and engage in interpersonal relationships effectively and empathetically. The session helped me be aware of my feelings and actions and be socially conscious of others. Through the lecture and conversation engagement, I discovered how I could transform how I communicate verbally and non-verbally. What I learned I can apply to my personal and professional relations.

LEARNING OBJECTIVES

After the session. I am be able to:

- Improve Emotional Intelligence by increasing social- and self-awareness.
- Resolve interpersonal conflicts constructively.
- Implement powerful techniques for active and empathetic listening when giving & receiving feedback.

Thank you to Angela Thomas for providing screen shots!

Annmarie Wise

The NIGP VCOM sessions were very informative and interest. My favorite session was the Communication, Collaboration & Active Listening session. In this session, I learned how to communicate better, how to improve my listening skills, plan what I am going to say, be open minded and pay attention to what the other person is saying to me.

Fatima F Calkins, CPPO, CPPB

I feel less stress knowing that there are so many procurement professionals undergoing the same interactive difficulties that I am and to also learn ways to overcome them. I was able to connect with professionals closer to my age and express the implications that it brings to be the youngest person in the office.

It was a very healing experience to be able to talk about issues we normally just push aside or are not even aware are there.

Positive Relationships

 those people in our lives who support and care for us and we care for them in healthy and positive ways.

Purpose

 helps us to shape our mindset and attitude towards others and toward our experiences. It allows us to recognize that we belong or serve something bigger than ourselves.

I attended the following sessions: Emotional Intelligence, Managing Your Time and Energy, Resiliency & Adaptability & Communication, Collaboration & Active Listening. I enjoyed the presenters, the breakout rooms and the interactive style of the presentations. Although all of the presentations were well done, my favorite class was Resiliency & Adaptability. I found Kisha Dixon to be entertaining and she kept my attention throughout her presentation.

Thank you for the opportunity to join the conference. Overall, I learned a lot of new things and was re-educated on the skills I have learned in my career.

Jennífer Cox

I would like to state that this was an inspiring and refreshing conference. The topics and presenters were engaging, perspicacious, and had powerful messages and tools.

Kathy Salduttí

The skills and tricks I gained from these classes will assist me in growing as a more mindful, less stressed and overall better Procurement Professional. The tools and tips will also aide me in my personal life. Thank you again for this wonderful scholarship opportunity! I truly appreciate the opportunity.

Meghan Chestnut

I attended the following sessions: Emotional Intelligence, Critical Thinking, Presentation Skills & Communication, Collaboration & Active Listening. I thought the presenters were well versed in their presented material and all had good interactive presentations. I had, at some point in my learning career prior classes on each of these topics, but as new I nformation/skillsets are continually needed, a refresher on past topics is always welcome. I was particularly interested in the Emotional Intelligence and how it relates to how we react to certain 'triggers' and the Amygdala Hijack. I was reminded in the Communications, Collaboration & Active Listening the 5 levels of listening and some good tips on improving listening skills.

Overall, this was a very worthwhile conference. I am appreciative that I was able to attend!

Jíll Poolman, CPPO, CPPB, FCCM

7 WAYS TO BUILD RESILIENCE

- 1. Develop and maintain strong relationships
- 2. Change how you respond to situations
- 3. Turn setbacks into opportunities for growth
- 4. Develop a positive outlook
- 5. Maintain a healthy perspective
- 6. Take care of yourself
- 7. Find ways to help others
- 8. Give yourself grace

I enjoyed the NIGP VCON sessions that I attended. I particularly liked "Managing your time and Energy". It was not your typical time management class. I think there was a lot of practical ideas that could immediately be put into practice. I also liked the fact that the presenters frequently referred to things we had learned in the other sessions which tied the classes together.

Kathy Williams, NIGP-CPP, CPPO, CPPB, MBA

Listening Continuum 5. Empathic Listening 4. Attentive Listening 3. Selective Listening 2. Pretend Listening (Patronizing) 1. Ignoring Within One's Own Frame of Reference

Use an attention grabber such as a humor, a startling statistic, poetry, a visual, a quote or personal story.

Soft skills are important in every job position, but by being procurement professionals we have to deal with end users, vendors, legal counsels, other agencies, coworkers, and our own personal life. Every one of us has something they can work at to be a better person and buyer.

We have to engage in critically thinking when dealing with difficult situations and various tradesmen. We have to give presentations during bid-related meetings in a way that attractively highlights the importance of compliance and ethics to committees and vendors.

Our emotional intelligence has to be up to par with the amount of stress and pressure that is placed on us. Time and circumstance are always changing, so resilience and adaptability are key in order to continuously do our work the best possible way.

Given all of this, we obviously have to know how to manage our time efficiently, while keeping our focus. That is why the efforts NIGP made to provide these sessions to us is so greatly appreciated and necessary!

Heidee Santiago-Rullán

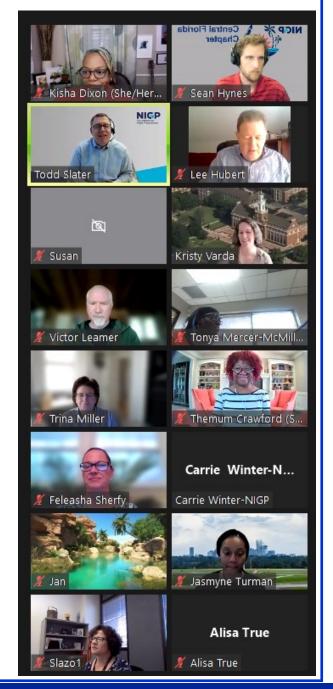

Thank you

Central Florida Chapter of NIGP!

Kisha Dixon presentation was excellent. She was very engaging and helpful. The way how the instructor deliver and pace the course was excellent.

I enjoyed the instructor and the content of the Emotional Intelligence presentation (Topics about Self-Awareness, Social Awareness, Self-Management, and Relationship Management). The two days with her were very interactive.

Rasha Al Khalil

Many thanks to the chapter for the opportunity to attend NIGP's VCON this year. It was a great event with incredibly useful information. The need to develop soft skills in the workplace is on the rise and NIGP really created a fantastic lineup. Kisha Dixon gave us a lesson on why critical thinking takes effort and why we should not always use our lizard brain, Lee Hubert provided effective ways of effectively managing time and finding more of it in the day, and Themum Crawford explained why emotional intelligence is essential to workplace satisfaction.

NIGP will be continuing to offer learning labs focused on these and other soft skills. I recommend checking out the following trainings: Introduction to Critical Thinking, Communicating Collaboratively, Leaders and Work-Life Balance, Time Value of Money and Risk, and Effectively <a href="Managing Project Stakeholders.

FAPPO

I attended FAPPO's 2022 Annual Conference and presented "Software Procurement" to approximately 70 procurement professionals. The Conference was amazing! From the opening plenary sessions, lunch with vendors, and the vendor trade show! It was wonderful to network with the vendors and with purchasing professionals from all over the State! Thanks to the FAPPO volunteers making this event so great this year! #fappo #fappo2022

Negotiations in 2022 are a whole new ball game. Because of commodity price increases, logistics and transportation issues, the pandemic, and climate change issues, procurement professionals must approach negotiations with a different mindset and skillset.

The ability to negotiate is important in any field, however, it's especially critical in today's market.

The New Normal

Many suppliers are now avoiding fixed price contracts, contracts tied to indices, most-favored-nations clauses, etc. This enlightening Headliner discusses the current new normal in today's market and the impact on negotiations for contracts, along with suggested solutions and approaches.

What You Can Expect

This three-hour session is presented by two panels—one comprised of suppliers, and one comprised of procurement professionals. Both panels discuss the challenges they face in today's market and how these challenges affect issues, actions, and strategies at the negotiation table.

Some tips when determining which choice to upload your certifications for recertification:

There are two areas to place your certificates. The first is the Continuing Education Pre-Qualified these are ONLY NIGP or NASPO courses or training. It is important to note that not all courses/ trainings offered by NASPO or NIGP may listed. If the course or training from NIGP or NASPO is not listed then you will need to list it in the CE – Not Prequalified section. Also, when entering CEs in the CE – Not Prequalified section, courses/trainings should be entered individually, do not combine all CEs as one entry. It will not be accepted in that manner.

General Information

Completing your application for recertification is easier than ever. The entire application can be done online where you will find everything you need to complete your application. And don't forget, we are standing by to help you every step of the way.

UPPCC Guidance and Applicant Responsibility

The UPPCC has developed a detailed guide to help you through the recertification process. The UPPCC Guide to Recertification includes further details about the requirements, acceptable forms of documentation, program policies and procedures. It is the responsibility of the applicant to read this recertification guide carefully before applying and refer to it whenever you have a question.

Instructions

Section by section instructions are provided in this online application to serve as general guidance only and should not be interpreted as all-inclusive or as a substitution for the detailed information and requirements found in the UPPCC Guide to Recertification. You will have the ability to access the Recertification Guide for reference in all pages of this application.

Core Sections of the Application

Procurement Experience
Continuing Education – Prequalified
Continuing Education – Not Prequalifed
Professional Contributions

All others will be entered under the Non-Prequalified .

If anyone has any questions or assistance please don't hesitate to reach out.
