16. CODES OF ETHICS AND CONDUCT

Scope

These policies address expected behaviors of members, event attendees, and suppliers that may be related to ethical conduct.

Guiding Principles

- The Institute believes, and it is a condition of membership, that ethical principles and behaviors should govern the conduct of every person employed by a public sector procurement or materials management organization.

- Ethics means a principle of right or good conduct or a body of such principles. This is achieved by acting in a manner that preserves the member’s trust with thoughtful, collaborative decision-making and actions that align with the goals, success and ideals of NIGP, and ensures fairness for the public good.

- The Institute expects all persons participating in NIGP activities shall do so without the fear or threat of harassment by other participants.
