COMPANY PROFILE

NIGP Consulting provides professional procurement consulting and staff support services to public sector entities. Our services include procurement transformation and modernization, strategic assessments, policy and procedure development, program analysis & development, compliance & auditing services, process mapping, spend management, KPI and data analytics, advisory services, staff augmentation, and other related services.

CORE COMPETENCIES

- **Procurement Support Services** – Wide variety of support services including embedded contractor/staff augmentation to help entities with day-to-day procurement work and advisory services providing general procurement advice and guidance.
- **Procurement Help Desk** – Flexible, on-demand help, providing rapid access to procurement experts.
- **Procurement Transformation** – Holistic assessment of an entity's current procurement state with a goal of identifying areas for improvement and assistance with implementation.
- **Policy and Procedure Reviews, Updates, or Creation** – Expert assessment of local legislation and any existing policies and procedures to identify revisions that align with best practices, encourage improved performance, and maximize procurement's effectiveness.
- **Strategic Procurement Assessments** – A comprehensive, enterprise-level assessment of the entity's current procurement environment focused on identifying efficiencies, mitigating risks, and driving improvement opportunities.
