Amara is a Buyer for a large agency in Florida and is working toward her NIGP-CPP re-certification this year.

While she has adapted to online learning since the pandemic, she thrives in an in-person environment and values the energy of face-to-face interactions.

This year, she's attending the NIGP Forum in person—not just for the learning experience, but also to connect with potential software suppliers for a major project she's leading. With several of her shortlisted vendors exhibiting at Forum, it's the perfect opportunity to meet them and explore solutions firsthand.

Jen is the Contracts Manager at her agency and manages everything on her own.

Professional development is a top priority for her, but attending a conference for an extended period is challenging without backup at her agency.

That's why she's thrilled that NIGP offers a virtual Forum option. It allows her to access valuable learning opportunities on her own schedule—without compromising her responsibilities.

John, the CPO at his agency in Kentucky, has been a longtime attendee of the NIGP Forum. He values reconnecting with peers, draws inspiration from the speakers, and always leaves with new connections and fresh ideas.

This year, after hiring four new team members, John is taking a strategic approach to professional development. While he plans to attend in person, he's having the rest of his team join virtually to make the most of their training budget—ensuring everyone gains valuable insights in a way that fits their needs.

Mateen was recently promoted to Sourcing Manager at his agency and just discovered NIGP Forum through his manager. He's eager to attend, but as a new dad, work travel is more challenging to plan around.

He's thrilled that a virtual option allows him to access all the valuable learning without added stress on his personal life.

Plus, with plans to earn his NIGP-CPP this year, attending virtually helps him maximize his training budget—ensuring he can cover all the professional development opportunities in his growth plan.
