

# Ninja Excel Technical Requirements

## Access and Accessibility

The Platform is enabled and optimized for use through the following web browsers:

- Google Chrome, version 121 or higher
- Mozilla Firefox, version 122 or higher
- Microsoft Edge, version 122 or higher

For proper functioning, the User must meet the following minimum hardware and software requirements:

- Operating system compatible with the aforementioned browsers (Windows, macOS, or Linux)
- At least 16 GB of available hard drive space
- Intel Pentium 4 processor or later with SSE3 support
- Minimum 4 GB of RAM

Furthermore, the Platform requires a stable and continuous internet connection of at least 100 Mbps. It can be accessed via a wired network or through a mobile data service with an appropriate data plan. The Platform is not designed to function in offline mode.

## Permissions and Authorizations

For the proper functioning of the platform, establishing a connection with various web and email services is required. If internet access is conducted from a restricted network (corporate network, firewall, VPN, proxy), it is strictly necessary to apply the following whitelist rules:

Type	Sites	Function	Source
URL	*.ninjaexcel.com	Link to the Ninja Excel platform	Internal
URL	*.freshchat.com	Chat system	External
