ELECTRONIC MONITORING PRODUCTS AND SERVICES

Issued by the State of Connecticut
Solicitation Number 22PSX0021

Exhibit B. Cost Proposal and Narrative for Category 4. Value-Added Technology and Services.

Value-Added Technology and Services:

1.0	In connection with your technical proposal response for category 4. Proposer shall provide a value and cost narrative for all value added technology and services proposed. This narrative must be accompanied by all proposed pricing.	Attenti is always looking for potential products that will help individuals safely and successfully reintegrate into their communities. As technology has advanced, we've incorporated newer technologies into our devices but also have added a few software applications and devices that will enable customers and participants to succeed. We proudly offer the following: 1. Mobile EM Manager – This app, available both for Android and iOS, increases efficiency and effectiveness in the field with personalized dashboards, case management, pursuit mode, device messaging, alerts, turn-by-turn navigation, and much more. • Based on the incredible capabilities within this application, Attenti is proud to offer this for free to all Participating Entities. 2. aCheck – This customizable check-in app uses biometric recognition technologies to ensure reliable participant monitoring. aCheck provides officers the means to efficiently communicate through several mediums and to supervise participants from the office and in the field. This app's main features include: video chat, text, facial video recognition, speech recognition, self-reporting, GPS location and zones, documentation upload, a calendar with reminders, and a community resource page. • Attenti offers aCheck for \$1 a day per participant. 3. Smartwatch – This discreet 24/7 monitoring device provides biometric check-ins through a camera on the device. The device reports on zones, violations, and tampers. It also includes communication functionality for approved individuals to aid in compliance. This takes the forms of both text and voice. • This device will be offered for \$2.25 a day per participant.
