

Attachment 02 SCOPE OF WORK

This scope of work describes the Deliverables being sought through this RFP and the scope of what the proposer is expected to offer through a Master Agreement resulting from this RFP. The scope of work is intended to provide the proposer with sufficient basic information to submit a proposal. It is not intended to limit a proposal's content or exclude any relevant or essential data.

*****ALL ITEMS ARE RESPONDED TO POINT BY POINT HERE IN THIS DOCUMENT AS INDICATED IN Q&A's HOWEVER EACH ONE IS ALSO EXPANDED UPON IN FULL DETAIL AS REQUIRED WITHIN THE CATEGORY DOCUMENTS.*****

I. General Requirements	Buddi Response
Proposer shall provide including but not limited to: hardware solutions such as physical monitoring devices, as well as information technology and service solutions including but not limited to: software as a service ("SaaS"), hardware and software installation services, product and information technology training, and monitoring solutions ("Products and Services").	Buddi understands and meets this expectation. Smart Tag®, Smart Beacon, Secure Band & Accessories along with with Web Based Eagle Software and optional APP's. Training is always available in several formats. Buddi has provided detailed submissions in Categories 1, 2, 3 and 4 in response to this bid. Along with additional detailed information on the software.
Participating Entity reserves the right to opt-out of proposer provided support services if those services are already performed or may be performed by Participating Entity during the Master Agreement term. Master Agreement Exhibit C. Service Level Agreement and Maintenance and Support ("Exhibit C") is a required response document that must accompany proposer's Master Agreement review submittal. While Exhibit C. establishes minimum service levels, Participating Entity reserves the right to further specify, require and negotiate any and all service levels deemed necessary by the Participating Entity by way of the Participating Entity's Participating Addendum.	Buddi understands and agrees with this statement. Support services are standard an optional service part of comprehensive Buddi solution. However, if Participating Entity's wish to opt out that can be arranged. Buddi understands that service levels are part of the Master Agreement but Participating Entity's can negotiate separate service levels. Support is available 24/7/365 at no additional cost. Buddi has included our SLA (Exhibit C) and Master Agreement review.
At the discretion of each Participating Entity, the Participating Entity reserves the right to buy, lease and/or rent physical Products and/or devices. Proposer shall offer an in-house, private-label or third-party finance solutions as a result of this pricing model. Please refer to the Exhibit B. Price Schedule ("Exhibit B.") for more information based on the Categories of Need detailed below.	Buddi will comply with this requirement and has attached a document attesting to such by appropriate executives for the purpose of this proposal.
Proposer shall provide all Products and Services that	Buddi understands and agrees with this statement.

**Request for Proposals for
ELECTRONIC MONITORING PRODUCTS AND SERVICES**

Solicitation Number 22PSX0021

they receive an award for and may subcontract with their distributor network to fulfill Master Agreement obligations. If such an arrangement is reached, then the awarded proposer's sub-proposers shall be required to meet all contractual obligations codified within the resulting Master Agreement.	
The Lead State may require virtual and/or in person demonstration(s) of any Products or Services proposed at the sole expense of the proposer.	Buddi understands and agrees with this requirement. We are prepared to conduct virtual and/or in person demonstrations as needed.
II. Categories of Needs	
Proposer shall provide Products and Services in at a minimum of one or more of the following Categories of Need, in accordance with proposer's award:	
<u>A. Category 1: Radio Frequency Monitoring ("RFM"):</u> Electronic monitoring service is used for home detention. Product User wears a proposer-provided body-attached ankle bracelet transmitter that communicates by radio frequency with a home receiver. The home receiver transmits data to the vendor's monitoring center by landline telephone or by cellular communication. Monitoring center reports curfew violations and equipment status alerts to the designated agency officer or program manager by email, text message, or manual voice message pursuant to established protocols.	Buddi has, and will provide, information on this product and related services in Response Requirement 1 – Technical Proposal – Category 1.
<u>B. Category 2: Alcohol Monitoring ("AM"):</u> Electronic monitoring is performed through a proposer-provided home breath analysis unit connected by landline or cellular network to the proposer's monitoring center. Product User's identity is confirmed through a voice or imaging recognition system and test results are transmitted to the proposer's monitoring center by landline or cellular communication. Test results and equipment status alerts are sent to the designated agency officer or program manager by email, text message, or manual voice message pursuant to established protocols.	Buddi has, and will provide, information on this product and related services in Response Requirement 1 – Technical Proposal – Category 2.

**Request for Proposals for
ELECTRONIC MONITORING PRODUCTS AND SERVICES**

Issued by the State of Connecticut
Solicitation Number 22PSX0021

<u>C. Category 3: GPS Satellite Monitoring (“GPSM”):</u> An electronic monitoring program is provided through a body-attached one-piece device or a multi-device system that provides location tracking and cellular data and voice communication to the proposer’s monitoring center. On a scheduled (active, hybrid or passive) basis, tracking data is communicated to the proposer’s monitoring center who then communicates violations and equipment status alerts via email, text message, or manual voice message to the Product User and/or the Participating Entity’s designated officer or program manager pursuant to established protocols.	Buddi has, and will provide, information on this product and related services in Response Requirement 1 – Technical Proposal – Category 3.
<u>D. Optional: Category 4. Value-Added Technology and Services:</u> 1. Alternative yet innovative use cases may be awarded under Category 4. depending on proposer response(s) and proposed information technology solution(s) and service(s). Some areas of interest include smartphone technology, victim notification services, and/or cross-jurisdiction tracking. Alternative solutions are defined as those Products and Services not included in the Categories of Need. This optional response category will be awarded at the Lead State’s discretion.	Buddi has several, and will provide, information on these products and related services in Response Requirement 1 – Technical Proposal – Category 4.
2. The Lead State reserves the right to request additional information from the proposer as needed to verify, substantiate, or otherwise approve each alternative solution and/or Product and Service proposed.	Buddi understands and agrees with this statement. We will produce the requested information as needed.
III. Master Agreement Objectives	
Proposer shall meet or exceed the following objectives:	
A. Provide leadership, innovation and expertise required to assist each Participating Entity in implementing Products and Services in accordance with the RFP requirements and those requirements of each Participating Addendum.	Buddi meets and in many cases will exceed this objective. Attachment 04-Master agreement is included in the submission.
B. Provide certified, accredited and/or otherwise credentialed account management staff required to perform the implementation and subsequent support of all Products and Services awarded as a result of this RFP.	Buddi meets and in many cases will exceed this objective. Attachment 04-Master agreement is included in the submission.
C. Provide the best possible value for state-of-the-art Products and Services. Proposer’s Products	Buddi meets and in many cases will exceed this objective. Attachment 04-Master agreement is included in the

**Request for Proposals for
ELECTRONIC MONITORING PRODUCTS AND SERVICES**

Issued by the **State of Connecticut**
Solicitation Number 22PSX0021

and Services must maintain community safety and provide consistent, accurate, real-time data, while respecting Product User's civil rights and privacy guaranteed under federal and state law.	submission.
D. Maintain properly functioning Products and Services, including but not limited to: physical electronic monitoring hardware devices, including protection against malfunction and tampering, to ensure protection of User(s) and communities.	Buddi meets and in many cases will exceed this objective. Attachment 04-Master agreement is included in the submission.
E. Maximize accuracy of data, to meet the needs of User(s) and reduce the workload of monitoring on Participating Entity staff including but not limited to; probation officers.	Buddi meets and in many cases will exceed this objective. Attachment 04-Master agreement is included in the submission.
F. Ensure accountability and responsiveness to error or malfunction of Products and Services, including prompt repair or replacement of faulty Products and Services at no additional cost to Participating Entity and/or Product User(s).	Buddi meets and in many cases will exceed this objective. Attachment 04-Master agreement is included in the submission.
G. Support the rehabilitation of individuals in the criminal justice system, by ensuring that Products and Services are minimally obstructive to Product Users' daily lives and do not interfere with the Product User's ability to seek including but not limited to; employment or education.	Buddi meets and in many cases will exceed this objective. Attachment 04-Master agreement is included in the submission. These are described in detail in Response Requirement 1 – Technical Proposal categories 1,2, and 3.
H. Maintain strict procedures for the proper collection, storage, and use of sensitive personal data, including but not limited to RF, AM, GSM data and that data of any alternative category 4. Product and/or Service proposed.	Buddi meets and in many cases will exceed this objective. Attachment 04-Master agreement is included in the submission. These are described in detail in Response Requirement 1 – Technical Proposal categories 1,2, and 3.
I. Comply with NISP 800-53 and/or a security standard that meets and/or exceeds NIST 800-53.	Buddi meets this requirement. More details can be found at https://aws.amazon.com/compliance/nist/ Buddi utilizes Amazon Web Services to house our data. Buddi therefore complies with the NIST 800-53 framework through its use of AWS.
J. Provide proof of compliance with NIST 800-53 and/or a security standard that meets and/or exceeds NIST 800-53.	Buddi meets this requirement. More details can be found at https://aws.amazon.com/compliance/nist/ Buddi utilizes Amazon Web Services to house our data. Buddi therefore complies with the NIST 800-53 framework through its use of AWS.
K. Ensure transparency for Users and Product Users 'about what data is collected and how that	Buddi meets and in many cases will exceed this objective. Attachment 04-Master agreement is included in the

**Request for Proposals for
ELECTRONIC MONITORING PRODUCTS AND SERVICES**

Issued by the **State of Connecticut**
Solicitation Number 22PSX0021

data is utilized by the proposer. Proposer must demonstrate how it will use RF, AM, GPSM data and data of any alternative category 4. Product or Service proposed.	submission.
L. Uphold Participating Entity specific rules, policies, and requirements for the use of Products and Services, including immediate responsiveness to Participate Entity's Product and/or Service orders to install or remove Products and Services.	Buddi meets and in many cases will exceed this objective. Attachment 04-Master agreement is included in the submission.
M. Information Technology Solution(s) and Support Services: Provide information technology software solution(s) including but not limited to SaaS solutions, inclusive of all required maintenance, support and training for Users and Product Users.	Buddi meets and in many cases will exceed this objective. Attachment 04-Master agreement is included in the submission.
IV. Master Agreement Deliverables	
A. Product and Service Specifications:	
Proposer shall only propose new equipment that has been properly registered and certified under the Federal Communication Commission ("FCC") rules and regulations, as applicable. All equipment must be new, clean, damage free, and in operative order. Remanufactured or refurbished devices are not permitted under the resulting Master Agreement. Furthermore, the proposer shall identify all anticipated products, technologies, services scheduled for discontinuation and/or scheduled end-of-life that are anticipated during the initial term of the Master Agreement.	Buddi agrees to this requirement. Additional details listed in Category documents section 3.
Proposer shall ensure all Products and Services proposed incorporate best-in class functionality related to charging capabilities, connectivity flexibility (not just Wi-Fi), tampering resistance, Product User fit and feel, and water resistance. Proposer shall provide Product and Service upgrades as they become available at no additional charge to the Purchasing Entity.	Buddi exceeds these objectives. Additional details listed in Category documents section 3.
Per including but not limited to; the standards set by the Federal Department of Justice on electronic surveillance and/or monitoring, all Products and Services proposed under this RFP shall meet the following requirements:	

**Request for Proposals for
ELECTRONIC MONITORING PRODUCTS AND SERVICES**

Issued by the **State of Connecticut**
Solicitation Number 22PSX0021

1. Operate in active, passive and hybrid modes.	Buddi meets this objective. Additional details listed in Category documents section 3.
2. Be capable of being worn on the Product User's ankle.	Buddi meets this objective. Additional details listed in Category documents section 3.
3. Be lightweight and small.	Buddi exceeds this objective. Additional details listed in Category documents section 3.
4. Be sealed and water resistant.	Buddi exceeds this objective. Additional details listed in Category documents section 3.
5. Be hypoallergenic and must not pose a safety risk or hazard to the Product User wearing the unit or to Participating Entity personnel.	Buddi exceeds this objective. Additional details listed in Category documents section 3.
6. Be easily attached to and removed from the Product User by Participating Entity personnel in less than ten (10) minutes.	Buddi exceeds this objective. Additional details listed in Category documents section 3.
7. Be durable and shock-proof.	Buddi meets this objective. Additional details listed in Category documents section 3.
8. Connect to the proposer's server(s) through a cellular network.	Buddi meets this objective. Additional details listed in Category documents section 3.
9. Be configurable to utilize multiple cellular towers within the Participating Entity for optimum Product User location tracking.	Buddi meets this objective. Additional details listed in Category documents section 3.
10. Recognize wi-fi availability and roaming on cellular networks other than that of the primary cellular service provider.	Buddi exceeds this objective. Additional details listed in Category documents section 3.
11. Be supplied with a rechargeable battery that operates on standard 110-volt household current and can maintain a charge for a minimum of 16 hours.	Buddi exceeds this objective. Additional details listed in Category documents section 3.
12. Be supplied with the functionality for Participating Entity personnel to communicate with the Product User through the Product and/or Service which may include but may not be limited to; by voice, text, tone, vibration, light emitting diode, liquid crystal display.)	Buddi exceeds this objective. Additional details listed in Category documents section 3.
13. Be supplied with a backup location system in the event a GPS signal is not present.	Buddi exceeds this objective. Additional details listed in Category documents section 3.
14. Accurately restrict a Product User to the geofenced area(s) established by the Participating Entity which may include but not be limited to a range of 35 to 150 linear feet of	Buddi exceeds this objective. Additional details listed in Category documents section 3.

**Request for Proposals for
ELECTRONIC MONITORING PRODUCTS AND SERVICES**

Issued by the **State of Connecticut**
Solicitation Number 22PSX0021

the Product User's home and/or residence and be able to report the location of a Product User outside any structure and/or building.	
15. Accurately track time on an internal clock that is automatically set with periodic time checking to verify accuracy.	Buddi meets this objective. Additional details listed in Category documents section 3.
16. Collect and store GPS location points at a frequency not less than once every minute.	Buddi exceeds this objective. Additional details listed in Category documents section 3.
V. Proposer Responsibilities and Tasks	
A. Proposer acknowledges that Participating Entity has the right to specify, require, and negotiate any and all proposer specific Products and Services including Licensed Software and/or additional requirements the Participating Entity requires through a Participating Addendum.	Buddi understands and agrees with this statement.
B. Product and Service Delivery and Performance Requirement: Proposer must provide delivery and service continuity of all Products and Services proposed and awarded under the Master Agreement to all fifty states, as well as the District of Columbia and U.S. territories. In addition, proposer's "brick and mortar" locations inclusive of all data centers must be based in the United States.	Buddi understands, agrees with, and will meet this objective. Additional details listed in Category documents section 1 Q9.0.
C. Staffing and Project Management Requirements:	
1. Proposer must appoint Key Contractor Personnel, at no additional cost for the term of the Master Agreement. Key Contractor Personnel shall be the primary point-of-contact for all account-based customer service needs of the Participating Entity including but not limited to the scheduling of onsite visits, coordination of User training. Product User training, service request(s) and issue resolution.	Buddi understands, agrees with, and will meet this objective. Additional details listed in Category documents section 1 Q10.
2. Proposer shall provide an adequate level of staffing required to fully and consistently provide all Products and Services and accommodate fluctuations in Participating Entity need. Proposer shall ensure that all proposer staff are fully trained, qualified, and licensed in order to comply with any Participating Entity specific requirements including background check policies. Proposer staff shall adhere to background checks at no additional expense to the Participating Entity.	Buddi understands, agrees with, and will meet this objective. Additional details listed in Category documents section 1 Q10.
D. Proposer shall comply with federal, state, and	Buddi understands, agrees with, and will meet this objective. Additional details

**Request for Proposals for
ELECTRONIC MONITORING PRODUCTS AND SERVICES**

Issued by the **State of Connecticut**
Solicitation Number 22PSX0021

local laws and those regulations required by the Participating Entity.	listed in Category documents section 1 Q11.
E. For each awarded Category of Need including Category 4. If awarded, proposer must incorporate any new federal, state, or local regulations into their Products and Services at no additional expense to the Participating Entity.	Buddi understands, agrees with, and will meet this objective. Additional details listed in Category documents section 1 Q11.
VI. Service Levels Agreements:	
Participating Entity may negotiate their own Service Level Agreements ("SLAs") per Exhibit C. At a minimum, proposer shall meet the following requirements including but not limited to:	
A. Exhibit C. Service Level Agreement and Maintenance and Support	Buddi understands, agrees with, and will meet this objective. Additional details listed in Category documents section 4.
B. Performance Objectives	Buddi understands, agrees with, and will meet this objective. Additional details listed in Category documents section 4.
Performance objectives will inform collection of data, reporting of outcome metrics, and monitoring of trends in performance. The performance metrics below are distinct from service level agreements, which are described in the scope of work. Final metrics to track proposer performance, along with the methods by which key data will be collected and reviewed, will be agreed upon through Participating Addendum between Participating Entity and awarded Contractor. Metrics may include measures to track activities conducted, efficiency, service quality, outcomes, and equity. Metrics may be reviewed by Participating Entity, or by third-party entities in partnership with Participating Entity, to monitor and audit performance, safety, and adherence to data security protocols. Participating Entity may address additional metrics in their respective Participating Addendum. Significant metrics to be collected by the awarded Contractor, reviewed by the Participating Entity, and used to evaluate the awarded proposer's performance may include:	
1. Number of Product and/or Service malfunctions per day, week, and month, along with descriptions of the nature and cause of malfunctions and associated plans to avoid future errors.	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.
2. Speed of proposer's resolution of malfunctions, errors, or other Product and Service maintenance requests.	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.
3. Frequency of regular servicing and upkeep maintenance for devices, and adherence to any maintenance plan created by Participating Entities and proposer.	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.

**Request for Proposals for
ELECTRONIC MONITORING PRODUCTS AND SERVICES**

Issued by the **State of Connecticut**
Solicitation Number 22PSX0021

4. Adherence to court-ordered schedules for installation and removal of Products and Services.	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.
5. Compliance with reporting deadlines and timelines agreed upon by Participating Entity and proposer.	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.
6. Results of Participating Entity specific government evaluation forms documenting proposer performance.	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.
7. Participating Entity satisfaction with training materials and presentations.	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.
8. Participating Entity satisfaction with 24/7 help desk services at monitoring centers	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.
VII. Additional Requirements for Products and Services:	
A. Service Continuity for Viable Products and Services Still In Use: Upon request from Purchasing Entity, proposer shall provide servicing and provide servicing agreements on Products and/or Services that were bought out right, leased and/or rented through the State of Washington Master Agreement provided the following conditions be met:	
1. Product(s) and/or Services have not reached the end of useful life as determined by either the manufacturer, and/or the Participating Entity;	N/A
2. The awarded proposer under the Master Agreement resulting from this RFP was awarded under the State of Washington's Master Agreement proposer's Master Agreement with the State of Washington. In such instances, Products and/or Services including rates will be subject to the terms and conditions of the new Master Agreement including the Exhibit B. Price Schedule.	N/A
B. Service Requests from Participating Entity and/or Product User:	
1. Proposer shall respond to Product and Service request(s) from the User and Product User per the Participating Entity's Participating Addendum.	Buddi will comply
2. Product User damage as defined as Product User misuse, neglect or abuse of an installed Product and/or Service will not be covered by proposer, and proposer may bill the Purchasing Entity and/or Product User, at a fee schedule negotiated per the Participating Entity's Participating Addendum.	Buddi will comply

**Request for Proposals for
ELECTRONIC MONITORING PRODUCTS AND SERVICES**

Issued by the **State of Connecticut**
Solicitation Number 22PSX0021

C. Maintenance, Support and Servicing Agreements For Products and Services:	
1. Participating Entity may negotiate and incorporate into its Participating Addendum, Product maintenance, support and/or servicing agreements for any Products and/or Services purchased outright, leased and/or rented by the Participating Entity.	Buddi will comply. Additional details listed in Category documents section 4.
2. Unless otherwise determined by the Participating Entity, pricing shall be based on a flat rate monthly fee which at a minimum includes but is not limited to; proposer time and materials, and preventative maintenance. The term of such an agreement cannot exceed the useful life of the Product(s) and/or Services rendered as determined by either the Product and/or Service manufacturer and/or the Participating Entity.	Buddi will comply. Additional details listed in Category documents section 4.
D. Maintenance, Support and Servicing Technicians, Preventative Maintenance and Repair Parts and Service Logs:	
1. Proposer shall provide an adequate quantity of maintenance, support and servicing technicians ("Service Technicians") to accommodate the diverse needs and fluctuation in volume of service requests within each respective Participating Entity.	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.
2. Service Technicians shall be trained by the Original Equipment Manufacturer ("OEM") and obtain and retain for the Term of the Participating Addendum, licensed and/or certified per the manufacturer.	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.
3. Preventative Maintenance & Repair Parts, if applicable:	
Proposer shall:	
i. Perform all preventative maintenance services at the Product manufacturer's directed intervals, or as specified by a Participating Addendum.	Buddi will comply. Additional details listed in Category documents section 4.
ii. Guarantee the availability of repair parts for a minimum of five (5) years after the Participating Entity's acceptance of any Product(s).	Buddi will comply with this requirement and has attached a document attesting to such by appropriate executives for the purpose of this proposal.
iii. Ensure all Product components, spare parts, and ancillary equipment that is supplied under the Master Agreement, must conform to manufacturer specifications including for use interfacing with proposed information technology solution(s).	Buddi will comply, this is a standard business practice for Buddi.
iv. Be responsible for ensuring that any repair parts are operable and installed in accordance with manufacturer specifications.	Buddi will comply, this is a standard business practice for Buddi.
v. Ensure repair parts are new.	Buddi will comply with this requirement and has attached a document attesting to such by appropriate executives for the purpose of this proposal.

**Request for Proposals for
ELECTRONIC MONITORING PRODUCTS AND SERVICES**

Issued by the **State of Connecticut**
Solicitation Number 22PSX0021

4. Service Logs:	
Proposer shall:	
i. Maintain a digital service log that describes any preventative maintenance and/or repair services performed by Service Technicians and track any additional information as warranted by the Participating Entity.	Buddi will comply Additional details listed in Category documents section 4.
ii. Provide digital service log(s) and/or requested information from the Participating Entity within three (3) calendar days of written request.	Buddi will comply. Additional details listed in Category documents section 4.
E. Product and Service Delivery Specifications:	
1. Proposer may be required to provide a shipping quote prior to order placement from a Participating Entity.	Buddi will comply. Additional details listed in Category documents section 4.
2. Proposer must ship Product(s) within three (3) calendar days from the date of Participating Entity request, and all shipments must be Freight on Board ("FOB") Destination, unless otherwise specified by the Participating Entity.	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.
3. Proposer must also be able to ship Product(s) overnight in emergency cases as deemed necessary by the Participating Entity and pursuant to the timeframes specified in the Participating Entity's Participating Addendum.	Buddi will comply, this is a standard business practice for Buddi. Additional details listed in Category documents section 4.
F. Monitoring Services and Requirements for Products and Services:	
1. Proposer shall maintain secure central monitoring center(s) with an uninterruptible power supply, within the United States. Proposer's monitoring center(s) shall be equipped with redundant internet and telephone connectivity, as well as all other equipment required for performance of all monitoring activities required pursuant to the proposed and awarded Products and Services under the Master Agreement.	Buddi will comply. Additional details listed in Category documents section 4.
2. In order to monitor Product User activity including activities in violation as defined by each respective Participating Entity's Participating Addendum, monitoring Service(s) must be staffed and operate continuously, twenty-four (24) hours per day, seven (7) days per week, and three hundred sixty five (365) days per year ("24/7/365").	Buddi will comply. Additional details listed in Category documents section 4.
3. At a minimum, proposer shall perform data backup on a daily basis to prevent data loss due to power failure	Buddi will comply with this requirement and has attached a document attesting to such by appropriate executives for the

**Request for Proposals for
ELECTRONIC MONITORING PRODUCTS AND SERVICES**

Issued by the **State of Connecticut**
Solicitation Number 22PSX0021

	purpose of this proposal.
4. Proposer shall provide monitoring Service(s) and indicate proposed availability, scheduling, system uptimes, downtimes, and performance metrics and any other information pursuant to the Exhibit C. redline submittal.	Buddi will comply. Additional details listed in Category documents section 4.
5. Proposer's monitoring staff shall be OEM trained staff and include staff that can effectively and efficiently deliver technical assistance to the Users and Participating Entity staff and when applicable, to the Product User.	Buddi will comply. Additional details listed in Category documents section 4.
i. Proposer's monitoring center operations staff must be fully trained in all proposed Products and Services including software platforms, and fulfill the requirements codified in each Participating Addendum with respect to monitoring Services.	Buddi will comply. Additional details listed in Category documents section 4.
6. Proposer shall allow unlimited access to and an unlimited number of service requests by the Participating Entity regarding Product User inquiries and/or service requests.	Buddi will comply. Additional details listed in Category documents section 4.
7. Proposer shall maintain and retain Product User data including but not limited to: term of home/residential detention, curfew, schedule modification, Product assignment and configuration, violations, Product status, and any other data sets required by the Participating Entity.	Buddi will comply. Additional details listed in Category documents section 4.
8. Proposer shall provide customizable methods and parameters of violation notification to the Users and shall accommodate changes and customization at the Participating Entity's request. At a minimum, methods for notification of Users and Product Users shall include immediate and next calendar day notifications via secure email, phone voice message, and cellular text message.	Buddi will comply. Additional details listed in Category documents section 4.
9. Product User Monitoring and Activity Reports	
ii. Proposer shall provide digital activity reports for all Products and Services deployed by the Participating Entity. Participating Addendums will specify exact activity report content but at a minimum include, but not be limited to, the following:	
a. Product User missed calls and/or notifications	Buddi will comply. Additional details listed in Category documents section 4.
b. Product User non-compliance with pre-determined	Buddi will comply. Additional details

Issued by the **State of Connecticut**
Solicitation Number 22PSX0021

Product User curfews	listed in Category documents section 4.
c. Product User location	Buddi will comply. Additional details listed in Category documents section 4.
d. Malfunctions of Product User equipment	Buddi will comply. Additional details listed in Category documents section 4.
e. Product User tampering with the Product transmitter or receivers and any other components	Buddi will comply. Additional details listed in Category documents section 4.
f. Detection of Product's low power or battery	Buddi will comply. Additional details listed in Category documents section 4.
g. Inclusion, exclusion, and zone violations upon occurrence.	Buddi will comply. Additional details listed in Category documents section 4.
i. Proposer reports shall be accessible from any web-enabled computer, and proposer shall provide login credentials for Users. Printing, and downloading of activity reports both scheduled and on-demand, should be in a standard format (Word, Excel, PDF) unless otherwise specified by the Participating Entity.	Buddi will comply. Additional details listed in Category documents section 4.
ii. Proposer's proposed monitoring information technology solution must have the ability for the referring Users to enroll, terminate, modify, generate reports, add notes and otherwise perform Product User case activities by fax, email, and/or telephone.	Buddi will comply. Additional details listed in Category documents section 4.
10. Monitoring Service Requirements:	
i. If Proposer is authorized by a Participating Entity to invoicing a Product User directly, proposer must establish in writing with the Participating Entity the fee schedule including but not limited to any late fees. Proposer must comply with any Participating Entity's directive and timeline for installing or removing Products and Services.	Buddi will comply. Additional details listed in Category documents section 4.
ii. Upon written request of the Users and/or Product User, proposer must disclose information pertaining to how Product User data is collected and utilized by the proposer and/or any subcontractor.	Buddi will comply. Additional details listed in Category documents section 4.
11. Training Requirements for Users and Product Users:	
i. Proposer shall provide a web-based, on-site, and/or on-line training option(s) for both Participating Entity authorized Users and Product Users for Category of Need awarded.	Buddi will comply. Additional details listed in Category documents section 4.
