**E17C COMPACT EXCAVATOR
US PRICE LIST**

Standard Equipment

ENGINE:

Kubota D902 3 Cyl. water-cooled, mechanical injection diesel
54.8 CID (0.898L)

Tier 4 Final

Glow plugs

Horsepower:

Gross 16.8 HP (12.5 Kw)@2,300 RPM

Maximum Engine Torque:

39.49 lb ft (53.54 Nm)@1900 RPM

Dry type air cleaner

OPERATOR PROTECTIVE STRUCTURE:

ROPS/FOPS:

Two post canopy design

Sound levels:

ISO 6396:2008 sound pressure level LpA=76dB(A)

Mechanical Suspension seat, with seat belt

Pilot operated joysticks for boom, arm bucket, and swing with adjustable wrist rests

Foot pedal for swing tower control

Gauges:

Engine Coolant Temperature and Fuel level

Indicator Lights:

Engine oil pressure, coolant temperature, battery

charge, low fuel warning, engine preheat, Air cleaner warning,

Hyd. quick coupler

lock, and high travel speed

ELECTRICAL:

12 Volt electrical starting system includes heavy-duty battery and starting motor

40 Amp Alternator

Battery Master Switch

Key Start

Anti-Theft-Engine starting passwords

Dual 12V power plug recepticals

Front working Light

Pre-wired telematics ready

BLADE:

Hydraulically controlled dozer blade with adjustable width

UNDERCARRIAGE:

Variable undercarriage (3'3" to 4'3")

Track pad width: 9" (230 mm)

Track length: 5'3" (1590 mm)

Gradeability: 30 degrees

Ground Clearance: 6.7" (170 mm)

TRACK DRIVE:

Two speed Auto shift travel

Fully hydrostatic drive system

Track tension adjustment(grease type)

Sealed and lubricated track

HYDRAULICS:

Control pattern selector valve

Hydraulic oil filter

Total Auxiliary Flow:

7.2 gpm @ 2,466 psi

(27.4 L/min @ 170 bar)

Main Pump: 2,990 PSI

Auxiliary piping capped at end of dipper

Proportional auxiliary hydraulic flow control

Selector valve for single or two way aux flow

Large capacity hydraulic oil cooler

Cylinder rod protection covers

-Dozer, Boom, Arm, & Bucket

UPPER:

Standard Arm: 3'2" (0.96 m)

Optional Long Arm: 3'8" (1.12 m)

Boom: 5'11" (1.8 m)

Boom Swing: 70° left / 54° right

Zero Tail Swing

MISCELLANEOUS:

Operating weight:

Canopy, short arm-3,750 lb (1700kg)

Canopy, Long arm with additional counterweight-3,950 lbs.(1790 kg)

Additional Counterweight - 180 lbs

WARRANTY - Base Warranty coverage:

2-Year/3,000-Hour Full Machine Limited

Warranty

SHIPPING POINT:

Port of Entry

SD 10181 CRAWLER TYPE				
9552610	Steel Tracks 450 MM Steel track chain with steel grousers/shoes. Select this track for the most aggressive traction in soils and if there is no concern for disrupting the appearance of ground conditions such as grass, asphalt or concrete. This track is intended for use on soils, but can be used on hard surfaces as well.			\$2,511.00
9552612	Steel w/Pads 400 MM Steel track chain with steel grousers/shoes and bolt on rubber track pads. Each rubber track pad can be individually replaced or removed independently from the steel grouser/shoe. Select this option to gain traction on hard surfaces such as asphalt or concrete and to help protect their surface finish with the rubber track pads attached. All of the rubber track pads can be removed to perform as an all steel track as desired.			\$4,588.00
9552613	Steel w/Pad Hole 400MM Steel track chain with steel grousers/shoes that have holes to accept bolt-on rubber track pads. Select this track for the most aggressive traction in soils and if there is no concern for disrupting the appearance of ground conditions such as grass, asphalt or concrete. For added traction on hard surfaces such as asphalt or concrete and to help protect their surface finish it is recommended to use bolt on rubber track pads.			\$2,381.00
9552710	Rubber Link Tracks 400MM Steel track chain with molded rubber grousers/shoes. These are also called hybrid tracks or roadliner tracks. Each grouser/shoe has a steel core completely molded in rubber and can be individually replaced since they are bolted to a steel chain. This track will offer the stability of a steel track with the surface protection of a rubber track pad.			\$12,968.00

C Series Compact Excavator KLAC Coupler Operation

KLAC (*pronounced Clack*) couplers provide a mechanical coupler for buckets or other attachments without the digging power loss of a pin grabber coupler.

The KLAC coupler allows operators to release the bucket using the KLAC tool, and maneuver the arm to remove the attachment.

Once the operator has lined up the pins to put the attachment on, curling the bucket will engage the Klac system, snapping into place, so the operator does not have to leave the seat a second time to secure the bucket or attachment.

KLAC couplers only accept KLAC buckets

Unlock Tool installed

Pull downward on tool to unlock

Bucket unlocked

KLAC Unlock Tool

The coupler will stay in the unlocked position until a new bucket is attached and it will automatically lock.

After unlocking the KLAC coupler, remove the tool and store it.

Pin grabber buckets cannot attach to a KLAC coupler. A KLAC base plate can be purchased so that non KLAC buckets can be attached using the KLAC coupler.

C Series Compact Excavator Mechanical Pin Grabber Coupler

The optional Mechanical Pin Grabber coupler allows the Quick disconnect / connect of pin-on buckets.

The coupler comes with a tool (blue arrow) to open and close the coupler.

To disconnect the bucket - roll the bucket out to the position shown to first remove the lock pin (red end).

Insert the tool in the coupler as shown and raise the tool toward the arm until the pin can be reinserted through the holes (red Arrow) holding the coupler in the unlocked position.

Once released, the operator will move the arm to maneuver the coupler out of the bucket or attachment.

Reverse the process to lock the coupler on the next bucket.

All buckets used must have a set of pins installed in the bucket. A dead pin kit for buckets is available through NH parts.

C Series Compact Excavator Hydraulic Pin Grabber Coupler

The hydraulic pin grabber allows the operator to use the hydraulic coupler switch in the cab to attach and un-attach pin grabber buckets and attachments without leaving the seat.

This option allows an operator to easily and quickly change attachments, and get back to work.

OPERATOR CONVENIENCE VS. BREAKOUT LOSS

	Least ←	Breakout Loss	→ Greatest
Least ↑	 Direct Pin-On		
Operator Convenience		 Klac Coupler	 Mechanical Pin Grabber
↓ Greatest			 Hydraulic Pin Grabber

Coupler Style Guide

		Use	Notes
Direct Pin-On		For use where bucket changes are infrequent, or where cost of labor is less impactful.	Direct Fit buckets provide the best breakout force.
Klac Coupler		For use where operator convenience and limited breakout losses are key factors.	The low profile of the Klac style coupler is designed to mitigate the loss of breakout force.
Mechanical Pin Grabber		For use where bucket (accessory) changes are frequent.	Breakout force is reduced due to increased length between hydraulic torque input and digging implement.
Hydraulic Pin Grabber		For use where bucket (accessory) changes are frequent and operator convenience is key factor.	Breakout force is reduced due to increased length between hydraulic torque input and digging implement.

C-SERIES MINI EXCAVATOR COUPLER/BUCKET COMPATIBILITY

MODEL	PART NO.	DESCRIPTION	B- SERIES BUCKETS	C-SERIES BUCKETS
E17C	48057609	Coupler, Mechanical Pin-Grabber	No	Yes
E26C/E30C	48057615	Coupler, Mechanical Pin-Grabber	No	Yes
	48094307	Coupler, Hydraulic Pin-Grabber	Yes	Yes
			(requires removal of spacer plates)	
E33C/E37C	48057623	Coupler, Mechanical Pin-Grabber	Yes	Yes
	48058013	Coupler, Hydraulic Pin-Grabber	Yes	Yes
E57C/E60C	48057630	Coupler, Mechanical Pin-Grabber	No	Yes
	48058014	Coupler, Hydraulic Pin-Grabber	No	Yes
	48082917	Universal Mechanical Coupler Adaptor to connect B Series bucket to C Series Machine	Yes	Yes

Average Lead-Times		
Unit/Attachment	Order to Port	Port to Dealer
Italy	50-70 days	15-20 days
Korea	50-70 days	15-20 days
Buckets, Couplers & Thumbs	30 days (average) / 60 day (promise)	

*Subject to change without notice. Based on availability of parts.

- Units shipping from Korea will take longer in-transit to East Coast ports. Units shipping from Italy will take longer in-transit to West Coast ports.

Attachment Quick Ship Rules
1-2 units – Depending upon inventory, first come, first served rule applies. - If only 1 available, 1 unit will ship, an order will be placed for 2nd unit with normal factory lead time FIFO schedule.
If 3 or more of same PN are ordered, the order will be treated as a stocking order - normal lead times FIFO in factory apply. - Exception is if inventory can be immediately backfilled < 1 week.
