WE MIGRATE, MODERNIZE & MANAGE

CherryRoad is a recognized leader in migrating public sector clients from archaic legacy systems to modern-day SaaS/Cloud solutions.

·We have built a specific implementation methodology for public sector clients implementing Cloud applications.

This is in sharp contrast to other vendors who continue to use legacy implementation approaches that do not work in the Cloud.

CherryRoad has established a Cloud/SaaS Center for Excellence that offers a host of ongoing support services to you post-implementation. This includes a library of best practices, upgrade and new releases support, and specific tools to facilitate the legacy systems to Cloud migrations.

Some of our SaaS/Cloud clients include:

- Sonoma County
- City of Roseville
- City of Fort Worth
- State of Montana
- Utah Courts
- Contra Costa County
- City of San Jose
- North Dakota DHS

FULL-SERVICE CLOUD SOLUTION PROVIDER

CherryRoad offers you best-in-class cloud consulting, migration, implementation, cloud hosting, and managed services, including:

Software as a Service (SaaS) - Cloud-based Applications for back-office systems such as ERP, EPM, GRC, HCM, and SCM. These applications help you in integrating and modernizing Financials, HR, Procurement, and other strategic business functions. We also offer cloud-based meeting solutions for virtual Town Hall and school boards.

Infrastructure-as-a-Service (IaaS) - We host the hardware, software, servers, and storage in our Tier 3 data centers as well as manage applications, system maintenance, and backups. For example, some clients rely on our IaaS for Disaster Recovery.

Platform-as-a-Service (PaaS) - CherryRoad provides the hardware and software tools you will need for application development. Our PaaS reduces costs and increases speed of application development and roll-out.

CherryRoad Cloud Innovations

DIGITAL TOWN HALL

Secure, Cloud-based virtual meeting solution to enable government continuity.

DIGITAL SCHOOL BOARD

Cloud-based virtual classroom solution for schools, kids, and teachers.

DIGITAL ASSET CLOUD

Easy and Secure Way to Store and Share Documents and Digital Media.

PRISMATICA

Contract usage, admin fee reporting, and M/WBE Compliance automation.

TIMEKEEPER

Workforce time & attendance tool with geofencing, touchless entry, and secure systems.

SOME CLIENT LOVE

Over 500 State & Local Government Agencies Trust CherryRoad for their Software Modernization and Cloud Adoption Journey.

CITY OF ROSEVILLE

NAFEES COLEMAN
ERP PROJECT MANAGER

"We partnered with CherryRoad to implement Cloud ERP for the City. It will serve as the centralized source of data, empowering staff to minimize manual processes and have access to a broader set of data needed to make timely informed decisions."

SONOMA COUNTY

ERICK ROESER
AUDITOR-CONTROLLER

"Sonoma County strives for excellence in financial management and we are proud to work with CherryRoad. They are a leading SaaS implementer specializing in the public sector and the entire team is dedicated to our success."

NORTH DAKOTA DHS

DONNA AUKLAND
ASSISTANT CFO

"CherryRoad helped us transform our 18 years old business model of separate spreadsheets and multiple systems into a brand new, super-efficient workflow. CherryRoad team members took the time to listen and understand the current process, which enabled them to offer best practice workflows to benefit our entire budgeting process."
