

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

Master Agreement Number SPSD26-0563LS_FOR
for
Data Communications
between
the State of Montana
and
Fortinet, Inc.

This Master Agreement is entered into by the State of Montana ("Lead Entity") and the following contractor (each a "Party" and collectively the "Parties") as a result of Solicitation Number SPB-RFP-2025-0563LS (the "RFP") for the purpose of providing Data Communications through the RFXPremier cooperative purchasing program:

Fortinet, Inc. ("Contractor")
909 Kifer Rd
Sunnyvale, CA 94086

MASTER AGREEMENT CONTACTS

Contractor's contact for this Master Agreement is:

Amy Lee
US SLED Sales Operations - Contracts Team
leea@fortinet.com
757.705.6690

Lead Entity's contact for this Master Agreement is:

Lauren Spatzierath
Procurement Operations Manager
Lauren.Spatzierath@mt.gov
406.444.0118

TERM. This Master Agreement is effective as of the date of the last signature below, whichever is later, and will terminate on 09.30.2033 unless terminated sooner or extended or renewed in accordance with the terms set forth herein. Renewals totaling up to 3 years following the initial term may be exercised upon mutual agreement by the Parties.

ATTACHMENTS. This Master Agreement includes the following attachments:

- Attachment 1: Supplemental Materials
- Attachment 2: Scope of Work
- Attachment 3: Cost Proposal

Request for Proposals for
Data Communications

Issued by the State of Montana

Solicitation Number: SPB-RFP-2025-0563LS

SIGNATURE. The undersigned for each Party represents and warrants that this Master Agreement is a valid and legal agreement binding on the Party and enforceable in accordance with the Master Agreement’s terms and that the undersigned is duly authorized and has legal capacity to execute and deliver this Master Agreement and bind the Party hereto.

IN WITNESS WHEREOF, the Parties have executed this Master Agreement.

MASTER AGREEMENT

RFXPREMIER MASTER AGREEMENT TERMS AND CONDITIONS

1. Definitions

- 1.1 Acceptance** means acceptance of goods and services as set forth in Section 9 of this Master Agreement.
- 1.2 Contractor** means a party to this Master Agreement, whether a person or entity, that itself or through Fulfillment Partners delivers Products or performs Services under the terms set forth in this Master Agreement.
- 1.3 Eligible Entity** mean all states (as well as the District of Columbia and US territories), cities, counties, districts, other political subdivisions of any State, Institutions of Higher Education, K-12, quasi-governmental entities, service districts, healthcare institutions, transportation districts, tribes/tribal organizations, or nonprofit organizations.
- 1.4 Embedded Software** means one or more software applications which permanently reside on a computing device owned by the Purchasing Entity, and which are not otherwise subject to a term license. The Purchasing Entity's license to use such Software applications will be subject to the terms and conditions of Contractor Supporting Materials attached to the Order and incorporated in the Order by reference.
- 1.5 Fulfillment Partner** means a third-party contractor and authorized by Contractor, and approved by a Participating Entity under a Participating Addendum, or other means, who may to the extent authorized by Contractor, fulfill any of the requirements of this Master Agreement including but not limited to providing Products or Services under this Master Agreement and billing Purchasing Entity for such Products or Services. Contractor may, upon written notice to the Participating Entity, add or delete authorized Fulfillment Partners as necessary at any time during the contract term. Fulfillment Partner has no authority to amend this Master Agreement or to bind Contractor to additional terms and conditions.
- 1.6 Intellectual Property** means any and all patents, copyrights, service marks, trademarks, trade secrets, trade names, patentable inventions, or other similar proprietary rights, in tangible or intangible form, and all rights, title, and interest therein.
- 1.7 Lead Entity** means the Entity administering any resulting Master Agreement(s) who is a party to this Master Agreement.
- 1.8 Master Agreement** means the underlying agreement consisting of this Master Agreement and all related attachments executed by and between the Lead Entity, acting in cooperation with RFXPremier, and the Contractor, as now or hereafter amended.
- 1.9 RFXPremier** is a division of the Procurement Professionals Alliance ("PPA"). RFXPremier facilitates administration of the PPA cooperative group contracting consortium for the benefit of states (as well as the District of Columbia and US territories), cities, counties, districts, other political subdivisions of any State, Institutions of Higher Education, K-12, quasi-governmental entities, service districts, healthcare institutions, transportation districts, tribes/tribal organizations, or nonprofit organizations. RFXPremier is identified in the Master Agreement as

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

the recipient of reports and may perform contract administration functions relating to collecting and receiving reports, as well as other contract administration functions as assigned by the Lead Entity.

- 1.10 Order or Purchase Order** means any purchase order, sales order, or other document used by a Purchasing Entity to order the Products or Services as authorized under the Master Agreement and a Participating Addendum, if applicable, and accepted or processed by the Contractor's Fulfillment Partner. Each Order or Purchase Order includes and incorporates by reference the Master Agreement and Participating Addendum, if applicable. An accepted Order or Purchase Order may include Supporting Materials, provided that Supporting Materials are subject to the Order of Precedence listed in Section 3.1 - Order.
- 1.11 Participating Addendum** means a bilateral agreement executed by a Contractor and a Participating Entity incorporating this Master Agreement and any additional Participating Entity-specific language or other requirements (*e.g.*, ordering procedures specific to the Participating Entity, entity-specific terms and conditions, etc.).
- 1.12 Participating Entity** means a state (as well as the District of Columbia and US territories), city, county, district, other political subdivision of a State, Institution of Higher Education, K-12, or a nonprofit organization under the laws of some states properly authorized to enter into a Participating Addendum, that has executed a Participating Addendum.
- 1.13 Product or Products and Services** means any equipment, Software (including Embedded Software and Cloud Software), service, or other deliverable supplied or created by the Contractor pursuant to this Master Agreement. The term Product includes goods and services supplied or created by the Contractor pursuant to this Master Agreement.
- 1.14 Published Specifications** mean the applicable user manual, acceptable use policies, privacy and product data sheets, and other corresponding documents published by Contractor that are customarily available to end users of the Product(s).
- 1.15 Purchasing Entity** means a Participating Entity that 1) issues a Purchase Order against the Master Agreement or 2) executes a Participating Addendum and becomes financially committed to the purchase.
- 1.16 Supporting Materials** means materials and documents which the parties identify as incorporated in an Order or Purchase Order either by attachment or reference. Supporting Materials may include (as examples) product lists, hardware or software specifications, standard or negotiated service descriptions, data sheets and their supplements, supplementary terms, policies, and statements of work (SOWs), published warranties and service level agreements, user agreements, and license agreements, and may be available to Participating Entity in hard copy or by accessing a designated Contractor website.

2. Term of Master Agreement

- 2.1 Initial Term.** The initial term of this Master Agreement is for seven (7) years. The term of this Master Agreement may be amended beyond the initial term for three (3) additional years at the Lead Entity's discretion and by mutual agreement and upon review of requirements of Participating Entities, current market conditions, and Contractor performance. The additional years may be in increments of three (3) 12-month terms. This Master Agreement will not exceed ten (10) years total. The Lead Entity may, prior to execution, adjust the effective date or

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

duration of the initial term or renewal period of any Master Agreement for the purpose of making the Master Agreement coterminous with others.

- 2.2 Amendment Limitations.** The terms of this Master Agreement will not be waived, altered, modified, supplemented, or amended in any manner whatsoever without prior written agreement of the Lead Entity and Contractor.
- 2.3 Amendment Term.** The term of this Master Agreement may be amended to extend past the initial term and stated renewal periods for a reasonable period by assigning the Master Agreement to another third-party to assume the obligations of Lead Entity (the "New Lead Entity"), per section 14.4.2, if in the judgment of the New Lead Entity a follow-on competitive procurement will be unavoidably delayed (despite good faith efforts) beyond the planned date of execution of the follow-on master agreement. This subsection will not be deemed to limit the authority of a Lead Entity under the applicable laws, rules and regulations to otherwise negotiate contract extensions.

3. Order of Precedence

- 3.1 Order.** Any Order placed under this Master Agreement will consist of the following documents:
 - 3.1.1** A Participating Entity's Participating Addendum ("PA");
 - 3.1.2** RFxPremier Master Agreement, including all attachments thereto;
 - 3.1.3** A Purchase Order or Scope of Work/Specifications issued against the Master Agreement, or issued against a Participating Addendum;
 - 3.1.4** Supporting Materials accepted by a Purchasing Entity as part of an Order or Purchase Order;
 - 3.1.5** The Solicitation or, if separately executed after award, the Lead Entity's bilateral agreement that integrates applicable provisions;
 - 3.1.6** Contractor's response to the Solicitation, as revised (if permitted) and accepted by the Lead Entity.
- 3.2 Conflict.** These documents will be read to be consistent and complementary. Any conflict among these documents will be resolved by giving priority to these documents in the order listed above. Contractor Supporting Materials that apply to this Master Agreement are only those that are expressly accepted by the Purchasing Entity and must be in writing and attached to an Order or Purchase Order as an Exhibit or Attachment (including hyperlinks therein).
- 3.3 Participating Addenda.** Participating Addenda will not be construed to diminish, modify, or otherwise derogate any provisions in this Master Agreement between the Lead Entity and Contractor. The term of a Participating Addendum will not exceed the term of this Master Agreement, except when a Participating Entity determines an extension of its Participating Addendum is necessary to avoid a lapse in contract coverage and is permitted by law.

4. Participants and Scope

- 4.1 Eligibility for Participation.** Any Eligible Entity may utilize this Master Agreement as a Participating Entity or Purchasing Entity.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

-
- 4.2 Requirement for a Participating Addendum.** Contractor may not deliver Products under this Master Agreement until a Participating Addendum acceptable to the Participating Entity and Contractor is executed.
- 4.3 Applicability of Master Agreement.** The Master Agreement is applicable to any Order issued against it by a Purchasing Entity (and other Purchasing Entities covered by their Participating Addendum), except to the extent altered, modified, supplemented or amended by a Participating Addendum, subject to Section 3. For any Order submitted directly against the Master Agreement by a Purchasing Entity that is not subject to a Participating Addendum, such Order shall be subject to the terms of Contractor Supporting Materials by default agreed in writing otherwise by such Purchasing Entity and Contractor. For the purposes of illustration and not limitation, this authority may apply to unique delivery and invoicing requirements, confidentiality requirements, defaults on Orders, governing law and venue relating to Orders by a Purchasing Entity, indemnification, and insurance requirements. Statutory or constitutional requirements relating to availability of funds may require specific language in some Participating Addenda in order to comply with applicable law. The expectation is that these alterations, modifications, supplements, or amendments will be addressed in the Participating Addendum or, with the written consent of the Purchasing Entity and Contractor, may be included in the Purchase Order used by the Purchasing Entity to place the Order. For the avoidance of doubt, any contingencies, or additional or conflicting terms in a Purchase Order or Order are deemed rejected by Contractor unless Contractor has expressly agreed to such terms in signed writing. Mere acceptance or processing of a Purchase Order or Order containing such terms shall not constitute express consent.
- 4.4 Obligated Entities.** Obligations under this Master Agreement are limited to those Participating Entities who have signed a Participating Addendum and Purchasing Entities: i) within the scope of those Participating Addenda; or ii) who have issued a Purchase Order against the Master Agreement. Participating Entities permitted to participate may use an informal competitive process to determine which Master Agreements to participate in through execution of a Participating Addendum. Participating Entities incur no financial obligations on behalf of other Purchasing Entities.
- 4.5 [Reserved]**
- 4.6 Eligibility for a Participating Addendum or Order.** All eligible entities may sign their own Participating Addendum or Order. In all instances, the entity must ensure that they have the requisite procurement authority to execute a Participating Addendum.
- 4.7 Prohibition on Resale.** Subject to any specific conditions included in the solicitation or Contractor's proposal as accepted by the Lead Entity, or as explicitly permitted in a Participating Addendum, Purchasing Entities may not resell Products purchased under this Master Agreement. Absent any such condition or explicit permission, this limitation does not prohibit: payments by employees of a Purchasing Entity for Products; sales of Products to the general public as surplus property; and fees associated with inventory transactions with other governmental or nonprofit entities and consistent with a Purchasing Entity's laws and regulations. Any sale or transfer permitted by this subsection must be consistent with license rights granted for use of intellectual property.
- 4.8 Individual Customers.** Except as may otherwise be agreed to by the Purchasing Entity and Contractor, each Purchasing Entity shall follow the terms and conditions of the Master

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

Agreement and applicable Participating Addendum and will have the same rights and responsibilities for their purchases as the Lead Entity has in the Master Agreement and as the Participating Entity has in the Participating Addendum, including but not limited to any indemnity or right to recover any costs as such right is defined in the Master Agreement and applicable Participating Addendum for their purchases. Each Purchasing Entity will be responsible for its own charges, fees, and liabilities. The Contractor will apply the charges and invoice each Purchasing Entity individually.

- 4.9 Release of Information.** Throughout the duration of this Master Agreement, Contractor must secure from the Lead Entity prior approval for the release of information that pertains to the potential work or activities covered by the Master Agreement. This limitation does not preclude publication about the award of the Master Agreement or marketing activities consistent with any proposed and accepted marketing plan.
- 4.10 No Representations.** The Contractor shall not make any representations of RFXPremier, the Lead Entity, any Participating Entity, or any Purchasing Entity's opinion or position as to the quality or effectiveness of the services that are the subject of this Master Agreement without prior written consent.

5. RFXPremier Provisions

- 5.1 Applicability.** RFXPremier is not a party to the Master Agreement. The terms set forth in Section 5 are for the benefit of RFXPremier as a third-party beneficiary of this Master Agreement.

5.2 Administrative Fees

- 5.2.1 RFXPremier Fee.** Contractor shall pay to RFXPremier, or its assignee, a RFXPremier Administrative Fee of four tenths of one percent (0.4% or 0.004) no later than sixty (60) days following the end of each calendar quarter. The RFXPremier Administrative Fee must be submitted quarterly and is based on all sales of products and services under the Master Agreement (less any charges for taxes or shipping). The RFXPremier Administrative Fee is not negotiable. This fee is to be included as part of the pricing submitted with a vendor's response to the Lead Entity's solicitation. After the contract has been established for 18 months, RFXPremier may seek to negotiate a higher administrative fee with the Contractor.
- 5.2.2 Entity Imposed Fees.** Some Participating Entities may require an additional fee be paid by Contractor directly to the entity on purchases made on that entities Participating Addendum. For all such requests, the fee rate or amount, payment method, and schedule for such reports and payments will be incorporated into the applicable Participating Addendum. Unless agreed to in writing by the Participating Entity, **Contractor may not adjust the Master Agreement pricing to include the entity's fee for purchases made by Purchasing Entities on the Participating Addendum. No such agreement will affect the RFXPremier Administrative Fee percentage or the prices paid by Purchasing Entities outside the jurisdiction of the Participating Entity requesting the additional fee.**
- 5.2.3 Interest on Late Payment.** If the Contractor does not pay the RFXPremier Administrative Fee within sixty (60) days following the end of each calendar quarter as required by Section 5.2.1, then Contractor shall accrue interest on the unpaid amounts at the rate of 1% per month.
- 5.2.4 Administrative Fee Updates.** RFXPremier reserves the right to update the RFXPremier Administrative Fee. If the RFXPremier Administrative Fee is updated, any renewals

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

exercised shall be contingent upon Contractor's acceptance of the updated RFXPremier Administrative Fee.

5.3 RFXPremier Summary and Detailed Usage Reports

- 5.3.1 Sales Data Reporting.** In accordance with this section, Contractor shall report to RFXPremier all Orders under this Master Agreement for which Contractor has invoiced the ordering entity or individual, including Orders invoiced to Participating Entity or Purchasing Entity employees for personal use if such use is permitted by this Master Agreement and the applicable Participating Addendum ("Sales Data"). Timely and complete reporting of Sales Data is a material requirement of this Master Agreement. Reporting requirements, including those related to the format, contents, frequency, or delivery of reports, may be updated by RFXPremier with reasonable notice to Contractor and without amendment to this Master Agreement. RFXPremier shall have exclusive ownership of any media on which reports are submitted and shall have a perpetual, irrevocable, non-exclusive, royalty free, and transferable right to display, modify, copy, and otherwise use reports, data, and information provided under this section.
- 5.3.2 Summary Sales Data.** "Summary Sales Data" is Sales Data reported as cumulative totals by state. Contractor shall, using the reporting tool or template provided by RFXPremier, report Summary Sales Data to RFXPremier for each calendar quarter no later than thirty (30) days following the end of the quarter. If Contractor has no reportable Sales Data for the quarter, Contractor shall submit a zero-sales report.
- 5.3.3 Detailed Sales Data.** "Detailed Sales Data" is Sales Data that includes for each Order all information required by the Solicitation or by RFXPremier, including customer information, Order information, and line-item details. Contractor shall, using the reporting tool or template provided by RFXPremier, report Detailed Sales Data to RFXPremier for each calendar quarter no later than thirty (30) days following the end of the quarter. Detailed Sales Data shall be reported in the format provided in the Solicitation or provided by RFXPremier. The total sales volume of reported Detailed Sales Data shall be consistent with the total sales volume of reported Summary Sales Data.
- 5.3.4 Sales Data Crosswalks.** Upon reasonable request by RFXPremier, Contractor shall provide to RFXPremier tables of customer and Product information and specific attributes thereof for the purpose of standardizing and analyzing reported Sales Data ("Crosswalks"). Customer Crosswalks must include a list of existing and potential Purchasing Entities and identify for each the appropriate customer type as defined by RFXPremier. Product Crosswalks must include Contractor's part number or SKU for each Product in Offeror's catalog and identify for each the appropriate Master Agreement category (and subcategory, if applicable), manufacturer part number, product description, eight-digit UNSPSC Class Level commodity code, and (if applicable) EPEAT value and Energy Star rating. Crosswalk requirements and fields may be updated by RFXPremier with reasonable notice to Contractor and without amendment to this Master Agreement. Contractor shall work in good faith with RFXPremier to keep Crosswalks updated as Contractor's customer lists and product catalog change.
- 5.3.5 Executive Summary.** Contractor shall, upon reasonable request by RFXPremier, provide RFXPremier with an executive summary that includes but is not limited to a list of states with an active Participating Addendum, states with which Contractor is in negotiations,

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

and any Participating Addendum roll-out or implementation activities and issues. RFXPremier and Contractor will determine the format and content of the executive summary.

5.4 RFXPremier Cooperative Program Marketing, Training, and Performance Review

- 5.4.1 Staff Education.** Contractor shall work cooperatively with RFXPremier personnel. Contractor shall present plans to RFXPremier for the education of Contractor's contract administrator(s) and sales/marketing workforce regarding the Master Agreement contract, including the competitive nature of RFXPremier procurements, the master agreement and participating addendum process, and the manner in which eligible entities can participate in the Master Agreement.
- 5.4.2 Onboarding Plan.** Upon request by RFXPremier, Contractor shall, as Participating Addendums are executed, provide plans to launch the program for the Participating Entity. Plans will include time frames to launch the agreement and confirmation that the Contractor's website has been updated to properly reflect the scope and terms of the Master Agreement as available to the Participating Entity and eligible Purchasing Entities.
- 5.4.3 Annual Contract Performance Review.** Contractor shall participate in an annual contract performance review with the Lead Entity and RFXPremier, which may at the discretion of the Lead Entity be held in person and which may include a discussion of marketing action plans, target strategies, marketing materials, Contractor reporting, and timeliness of payment of administration fees.
- 5.4.4 Use of RFXPremier Logo.** The RFXPremier and PPA logos may not be used by Contractor in sales and marketing until a separate logo use agreement is executed with PPA.
- 5.4.5 Obligation to Act in Good Faith.** The parties acknowledge that this Master Agreement and its terms and pricing have been negotiated for the benefit of the parties, RFXPremier, Participating Entities, and Purchasing Entities. Apart from a Participating Addendum or Order, Contractor shall not intentionally induce a potential Participating Entity or Purchasing Entity to enter into a separate agreement, the pricing and terms of which are derived from this Master Agreement, for the purpose of avoiding compliance with Contractor's obligations under Section 5. Nothing in this Section 5.4.5 shall prohibit Contractor from contracting with an entity with substantially similar pricing and terms if such pricing and terms are independently negotiated with the entity or are consistent with pricing and terms ordinarily offered by Contractor to public sector customers.

- 5.5 RFXPremier eMarketPlace.** RFXPremier Cooperative may provide an eMarketPlace solution for public entities to access a central online platform to view and/or purchase the goods, services, and solutions available from RFXPremier's cooperative Master Agreements. If RFXPremier offers such an eMarketPlace, Contractor agrees to cooperate in good faith with PPA, and any third party acting as an agent on behalf of PPA, to integrate Contractor's industry presence into the eMarketPlace. Specific terms of this integration shall be negotiated at the time of implementation of any eMarketPlace.

- 5.6 Cancellation.** In consultation with RFXPremier, the Lead Entity may, in its discretion, cancel the Master Agreement or not exercise an option to renew, when utilization of Contractor's Master Agreement does not warrant further administration of the Master Agreement. The Lead Entity may also exercise its right to not renew the Master Agreement if the Contractor fails to record or

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

report revenue for three consecutive quarters, upon 60-calendar day written notice to the Contractor. Cancellation based on nonuse or under-utilization will not occur sooner than two years after execution of the Master Agreement. This subsection does not limit the discretionary right of either the Lead Entity or Contractor to cancel the Master Agreement or terminate for default subject to the terms herein. This subsection also does not limit any right of the Lead Entity to cancel the Master Agreement under applicable laws.

- 5.7 Canadian Participation.** Subject to the approval of Contractor, any Canadian provincial government or provincially funded entity in Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador, Nova Scotia, Ontario, Prince Edward Island, Quebec, or Saskatchewan, and territorial government or territorial government funded entity in the Northwest Territories, Nunavut, or Yukon, including municipalities, universities, community colleges, school boards, health authorities, housing authorities, agencies, boards, commissions, and crown corporations, may be eligible to use Contractor's Master Agreement.
- 5.8 Additional Agreement with PPA.** Upon request by RFXPremier, awarded Contractor shall enter into a direct contractual relationship with PPA related to Contractor's obligations to RFXPremier under the terms of the Master Agreement, the terms of which shall be the same or similar (and not less favorable) than the terms set forth in the Master Agreement.

6. Pricing, Payment & Leasing

- 6.1 Pricing.** The prices contained in this Master Agreement or offered under this Master Agreement represent the not-to-exceed price to any Purchasing Entity.
- 6.1.1** All prices and rates must be guaranteed for the initial term of the Master Agreement.
- 6.1.2** Following the initial term of the Master Agreement, any request for a price or rate adjustment must be for an equal guarantee period and must be made at least 45 days prior to the effective date.
- 6.1.3** Requests for a price or rate adjustment must include sufficient documentation supporting the request. Any adjustment or amendment to the Master Agreement will not be effective unless approved in writing by the Lead Entity.
- 6.1.4** No retroactive adjustments to prices or rates will be allowed.
- 6.2 Payment.** Unless otherwise agreed upon in a Participating Addendum or Order, Payment after Acceptance will be made within thirty (30) days following the date the entire order is delivered or the date a correct invoice is received, whichever is later. After 45 days the Contractor may assess overdue account charges up to a maximum rate of one percent per month on the outstanding balance, unless a different late payment amount is specified in a Participating Addendum or Order, or otherwise prescribed by applicable law. Payments will be remitted in the manner specified in the Participating Addendum or Order. Payments may be made via a purchasing card with no additional charge.
- 6.3 Leasing or Alternative Financing Methods.** The procurement and other applicable laws of some Purchasing Entities may permit the use of leasing or alternative financing methods for the acquisition of Products under this Master Agreement. Where the terms and conditions are not otherwise prescribed in an applicable Participating Addendum, the terms and conditions for leasing or alternative financing methods are subject to negotiation between the Contractor and Purchasing Entity.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

7. Ordering

- 7.1 Order Numbers.** Master Agreement order and purchase order numbers must be clearly shown on all acknowledgments, packing slips, invoices, and on all correspondence.
- 7.2 Quotes.** Purchasing Entities may define entity-specific or project-specific requirements and informally compete the requirement among companies having a Master Agreement on an “as needed” basis. This procedure may also be used when requirements are aggregated or other firm commitments may be made to achieve reductions in pricing. This procedure may be modified in Participating Addenda and adapted to the Purchasing Entity’s rules and policies. The Purchasing Entity may in its sole discretion determine which contracted vendors (including Fulfillment Partners) should be solicited for a quote. The Purchasing Entity may select the quote that it considers most advantageous, cost, and other factors considered.
- 7.3 Applicable Rules.** Each Purchasing Entity will identify and utilize its own appropriate purchasing procedure and documentation. Contractor is and Contractor Fulfillment Partners, as applicable, are expected to become familiar with the Purchasing Entity’s rules, policies, and procedures regarding the ordering of supplies and/or services contemplated by this Master Agreement.
- 7.4 Required Documentation.** Contractor shall not begin work without a valid Purchase Order or other appropriate commitment document under the law of the Purchasing Entity.
- 7.5 Term of Purchase.** Orders may be placed with Contractor or Contractor Fulfillment Partners and accepted or rejected by Contractor or Contractor Fulfillment Partners during the term of the Master Agreement and Participating Addendum. All Orders must be consistent with the terms of this Master Agreement and applicable Participating Addendum.
 - 7.5.1** Orders must be placed pursuant to this Master Agreement prior to the termination date thereof, but may have a delivery date or performance period up to 120 days past the then-current termination date of this Master Agreement.
 - 7.5.2** Notwithstanding the previous, Orders must also comply with the terms of the applicable Participating Addendum, which may further restrict the period during which Orders may be placed or delivered.
 - 7.5.3** Provided that Purchasing Entities pay for ordered goods or services performed, the financial obligations of Purchasing Entities payable after the current applicable fiscal year are contingent upon entity funds for that purpose being appropriated, budgeted, and otherwise made available.
 - 7.5.4** Notwithstanding the expiration, cancellation or termination of this Master Agreement, Contractor shall perform in accordance with the terms of any Orders than outstanding at the time of such expiration or termination. Contractor shall not honor any Orders placed after the expiration, cancellation, or termination of this Master Agreement, or in any manner inconsistent with this Master Agreement’s terms.
 - 7.5.5** Orders for any separate indefinite quantity, task order, or other form of indefinite delivery order arrangement priced against this Master Agreement may not be placed after the expiration or termination of this Master Agreement, notwithstanding the term of any such indefinite delivery order agreement.
- 7.6 Order Form Requirements.** All Orders pursuant to this Master Agreement, at a minimum, must include:

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

- 7.6.1** The services or supplies being delivered;
- 7.6.2** A shipping address and other delivery requirements, if any;
- 7.6.3** A billing address;
- 7.6.4** Purchasing Entity contact information;
- 7.6.5** Pricing consistent with this Master Agreement and applicable Participating Addendum and as may be adjusted by agreement of the Purchasing Entity and Contractor;
- 7.6.6** A not-to-exceed total for the products or services being ordered; and
- 7.6.7** The Master Agreement number or the applicable Participating Addendum number, provided the Participating Addendum references the Master Agreement number.

7.7 Communication. All communications concerning administration of Orders placed must be furnished solely to the authorized purchasing agent within the Purchasing Entity's purchasing office, or to such other individual identified in writing in the Order.

7.8 Contract Provisions for Orders Utilizing Federal Funds. Pursuant to Appendix II to 2 Code of Federal Regulations (CFR) Part 200, Contract Provisions for Non-Federal Entity Contracts Under Federal Awards, Orders funded with federal funds may have additional contractual requirements or certifications that must be satisfied at the time the Order is placed or upon delivery. These federal requirements may be proposed by Participating Entities in Participating Addenda and Purchasing Entities for incorporation in Orders placed under this Master Agreement.

8. Shipping and Delivery

8.1 Shipping Terms. Unless otherwise agreed upon in a Participating Addendum or Order, all deliveries will be F.O.B. destination, freight pre-paid, with all transportation and handling charges paid by the Contractor or Fulfillment Partner.

8.1.1 Notwithstanding the above, responsibility and liability for loss or damage will remain the Contractor's until final inspection and acceptance when responsibility will pass to the Purchasing Entity except as to latent defects, fraud, and Contractor's warranty obligations.

8.2 Minimum Shipping. The minimum shipment amount, if any, must be contained in the Master Agreement. Any order for less than the specified amount is to be shipped with the freight prepaid and added as a separate item on the invoice. Any portion of an Order to be shipped without transportation charges that is back ordered will be shipped without charge.

8.3 Inside Deliveries. To the extent applicable, all deliveries will be "Inside Deliveries" as designated by a representative of the Purchasing Entity placing the Order. Inside Delivery refers to a delivery to a location other than a loading dock, front lobby, or reception area. Specific delivery instructions will be noted on the order form or Purchase Order. Costs to repair any damage to the building interior (*e.g.*, scratched walls, damage to the freight elevator, etc.) caused by Contractor or Contractor's carrier will be the responsibility of the Contractor. Immediately upon becoming aware of such damage, Contractor shall notify the Purchasing Entity placing the Order.

8.4 Packaging. All products must be delivered in the manufacturer's standard package. Costs must include all packing and/or crating charges. Cases must be of durable construction, in good condition, properly labeled and suitable in every respect for storage and handling of contents.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

Each shipping carton must be marked with the commodity, brand, quantity, item code number and the Purchasing Entity's Purchase Order number.

9. Inspection and Acceptance

- 9.1 Laws and Regulations.** Any and all Products offered and furnished must comply fully with all applicable Federal, State, and local laws and regulations.
- 9.2 Applicability.** Unless otherwise specified in the Master Agreement, Participating Addendum, or ordering document, the terms of this Section 9 will apply. This section is not intended to limit rights and remedies under the applicable commercial code.
- 9.3 Inspection.** All Products are subject to inspection at reasonable times and places before Acceptance. Contractor shall provide right of access to the Lead Entity, or to any other authorized agent or official of the Lead Entity or other Participating or Purchasing Entity, at reasonable times, to monitor and evaluate performance, compliance, and/or quality assurance requirements under this Master Agreement.
 - 9.3.1** Products that do not meet specifications may be rejected. Failure to reject upon receipt, however, does not relieve the contractor of liability for material (nonconformity that substantially impairs value) latent or hidden defects subsequently revealed when goods are put to use.
 - 9.3.2** Acceptance of such goods may be revoked in accordance with the provisions of the applicable commercial code, and the Contractor is liable for any resulting expense incurred by the Purchasing Entity related to the preparation and shipping of Product rejected and returned, or for which Acceptance is revoked.
- 9.4 Failure to Conform.** Unless otherwise agreed upon in a Participating Addendum or Order, if any services do not conform to contract requirements as agreed, the Purchasing Entity may require the Contractor to perform the services again in conformity with contract requirements as agreed, at no increase in Order amount. When defects cannot be corrected by re- performance, the Purchasing Entity may require the Contractor to take necessary action to ensure that future performance conforms to contract requirements and reduce the contract price to reflect the reduced value of services performed. Please also refer to Section 9.5 Acceptance and Section 10 Warranty.
- 9.5 Acceptance Testing.** Purchasing Entity may establish a process, in keeping with industry standards, to ascertain whether the Product meets the standard of performance or specifications prior to Acceptance by the Purchasing Entity.
 - 9.5.1** The Acceptance Testing period will be thirty (30) calendar days, unless otherwise specified, starting from the day after the Product is delivered or, if installed by Contractor, the day after the Product is installed and Contractor certifies that the Product is ready for Acceptance Testing.
 - 9.5.2** If the Product does not meet the standard of performance or specifications during the initial period of Acceptance Testing, Purchasing Entity may, at its discretion, continue Acceptance Testing on a day-to-day basis until the standard of performance is met.
 - 9.5.3** Upon rejection, the Contractor will have fifteen (15) calendar days to cure. If after the cure period, the Product still has not met the standard of performance or specifications, the Purchasing Entity may, at its option: (a) declare Contractor to be in breach and

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

terminate the Order; (b) demand replacement Product from Contractor at no additional cost to Purchasing Entity; or, (c) continue the cure period for an additional time period agreed upon by the Purchasing Entity and the Contractor.

9.5.4 Contractor shall pay all costs related to the preparation and shipping of Product returned pursuant to the section.

9.5.5 No Product will be deemed Accepted and no charges will be paid until the standard of performance or specification is met.

10. Warranty

10.1 Applicability. Unless otherwise specified in the Master Agreement, Participating Addendum, or ordering document, the terms of this Section 10 will apply.

10.2 Warranty of Products. The Contractor warrants for a period of one year from the date of Acceptance that: (a) the Product performs according to all specific claims that the Contractor made in its response to the solicitation, (b) the Product is suitable for the ordinary purposes for which such Product is used, (c) the Product is suitable for any special purposes identified in the solicitation or for which the Purchasing Entity has relied on the Contractor's skill or judgment, (d) the Product is designed and manufactured in a commercially reasonable manner, and (e) the Product is free of defects, (f) the Product is free and clear of any liens or encumbrances, Contractor has full legal title to the Goods, and that no other person or entity has any right, title, or interest in the Goods which the rights granted to the Participating Entity, (g) the Product complies with all applicable health and safety standards, including Occupational Safety and Health Administration (OSHA) health and safety standards.

10.3 Warranty of Services. The Contractor warrants that the Services provided conform to the Contract requirements, including all descriptions, specifications and attachments made a part of this Contract. The Participating Entity's acceptance of Services provided by Contractor shall not relieve Contractor from its obligations under this warranty. In addition to its other remedies under this Contract, at law, or in equity, State may require Contractor to promptly correct, at Contractor's expense, any Services failing to meet Contractor's warranty herein. Services corrected by Contractor shall be subject to all the provisions of this Contract in the manner and to the same extent as Services originally furnished.

10.4 Breach of Warranty. Upon breach of a warranty, the Contractor will repair or replace (at no charge to the Purchasing Entity) the Product or Service whose nonconformance is discovered and made known to the Contractor. If the repaired and/or replaced Product or Service proves to be inadequate, or fails of its essential purpose, the Contractor will refund the full amount of any payments that have been made.

10.5 Rights Reserved. The rights and remedies of the parties under a warranty are in addition to any other rights and remedies of the parties provided by law or equity, including, without limitation, actual damages, and, as applicable and awarded under the law, to a prevailing party, reasonable attorneys' fees and costs.

10.6 Warranty Period Start Date. The warranty period will begin upon Acceptance, as set forth in Section 10.

11. Product Title

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

- 11.1 Conveyance of Title.** Upon Acceptance by the Purchasing Entity, Contractor's Fulfillment Partner (when an Order is fulfilled by Contractor's Fulfillment Partner) shall convey to Purchasing Entity title to the Product, except for any portion of the Product which is provided subject to a nonexclusive subscription license, or is Embedded Software, free and clear of all liens, encumbrances, or other security interests. Notwithstanding any other provision no license is granted other than as consistent with Contractor's Supporting Materials.
- 11.2 Embedded Software.** If there is a transfer of title to the Product as contemplated in Section 11.1 (Conveyance of Title) above, such transfer must include a license to use any Embedded Software in the Product which shall be subject to the terms of Contractor's Supporting Materials. If Purchasing Entity subsequently transfers title of the Product to another entity, Purchasing Entity shall have the right to transfer the license to use the Embedded Software with the transfer of Product title. A subsequent transfer of this software license will be at no additional cost or charge to either Purchasing Entity or Purchasing Entity's transferee. Notwithstanding the foregoing, any sale or transfer permitted by this subsection must be consistent with license rights granted for the use of the Embedded Software.
- 11.3 License of Pre-Existing Intellectual Property.** Except for any portion of the Product which is provided subject to a nonexclusive subscription license or which is Embedded Software, Contractor grants to the Purchasing Entity a nonexclusive, perpetual, royalty-free, license to use, translate, reproduce, transfer with any sale of tangible media or Product, perform, display, and dispose of the Intellectual Property associated with such Product, and its derivatives, used or delivered under this Master Agreement with respect to such Product, but not created under it ("Pre-existing Intellectual Property"). Contractor grants to Purchasing Entity a license to Software pursuant to the license terms and restrictions set forth in Contractor's Supporting Materials. The license shall be subject to owner and 3rd party rights in Pre-existing Intellectual Property, which are expressly reserved in accordance with Contractor's Supporting Materials. The Contractor shall be responsible for ensuring that this license is consistent with any third-party rights in the Pre-existing Intellectual Property. Notwithstanding the foregoing, any sale or transfer permitted by this section or Section 11.1 (Conveyance of Title) must be consistent with license rights granted for the use of the Software.
- 11.4** Unless otherwise specified in the Master Agreement, Participating Addendum, or ordering document, the terms of this Section 11 will apply.
- 11.5** No Ownership in Contractor Software. Notwithstanding anything to the contrary, in no event shall Purchasing Entity receive ownership or title rights to any Contractor Software or cloud services.
- 11.6** Purchasing Entity Data. Except in an aggregated and anonymized format that does not identify the Purchasing Entity or individual users, Purchasing Entity retains full right and title to its data.

12. Indemnification

- 12.1 General Indemnification.** The Contractor shall defend, indemnify and hold harmless PPA, RFXPremier, the Lead Entity, Participating Entities, and Purchasing Entities, along with their officers and employees ("Indemnified Party"), from and against third-party claims, damages or causes of action including reasonable attorneys' fees and related costs for any death, injury, or damage to tangible property to the extent arising from any act, error, or omission of the Contractor, its employees or subcontractors or volunteers, at any tier, relating to performance

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

under this Master Agreement. If the Contractor fails to pursue the defense or settlement of the third-party claim, the Indemnified Party may assume the defense or settlement of the third-party claim and the Contractor shall be liable for all costs and expenses, including reasonable attorneys' fees and related costs, incurred by the Indemnified Party in relation to the third-party claim as finally awarded by a court of competent jurisdiction or as mutually agreed in a settlement approved by both the Indemnified Party and Contractor.

The foregoing indemnification obligations are conditioned upon the Indemnified Party promptly notifying the Contractor in writing of the claim, suit, or proceeding for which the Contractor is obligated under this Subsection, cooperating with, assisting, and providing information to the Contractor as reasonably required, and granting the Contractor the exclusive right to defend or settle such claim, suit or proceeding; provided that any such settlement or compromise includes a release of the Indemnified Party from all liability arising out of such claim, suit or proceeding.

12.2 Intellectual Property Indemnification. The Contractor shall defend, indemnify and hold harmless PPA, RFXPremier, the Lead Entity, Participating Entities, Purchasing Entities, along with their officers and employees ("Indemnified Party"), from and against claims, damages or causes of action including reasonable attorneys' fees and related costs as incurred arising out of the claim that the Product or its use infringes Intellectual Property rights of another person or entity ("Intellectual Property Claim").

12.2.1 The Contractor's obligations under this Section 12.2 will not extend to any Intellectual Property Claim based on:

- 12.2.1.1** a combination of the Product or Service with any other product, system, or method, unless the other product, system, or method is (a) provided by the Contractor or the Contractor's subsidiaries or affiliates; (b) specified by the Contractor to work with the Product or Service; (c) reasonably required to use the Product or Service in its intended manner, and the infringement could not have been avoided by substituting another reasonably available product, system or method capable of performing the same function; or (d) reasonably expected to be used in combination with the Product or Service and Contractor is aware of the possibility of such use, excluding in any event use of the Products in a manner other than which it was designed or in a manner other than as specified by Contractor; or
- 12.2.1.2** Contractor's compliance with any designs, specifications, requirements, or instructions by any Indemnified Party or a third party on Indemnified Party's behalf; or
- 12.2.1.3** the alteration or modification of the Contractor's Product by anyone other than Contractor or Contractor's Fulfillment Partner; or
- 12.2.1.4** the amount or duration of use made of Contractor's Product or Services offered by Indemnified Party to external or internal Purchasing Entity, or revenue earned by the Indemnified Party; or
- 12.2.1.5** use of a Product not in accordance with or in violation of this Agreement or the Published Specifications; or

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

-
- 12.2.1.6** failure to use: (a) the most recent version of a Product or Service; or (b) an equally compatible and functionally equivalent non-infringing version of a Product or Service provided by Contractor to address such an Intellectual Property Claim.
- 12.2.2** The Indemnified Party shall notify the Contractor within a reasonable time after receiving notice of an Intellectual Property Claim. If the Indemnified Party fails to provide reasonable notice, and that failure prejudices Contractor's ability to defend, settle, or respond to the claim, then Contractor's obligation to defend, indemnify, or hold harmless the Indemnified Party with respect to that Intellectual Property Claim will be reduced to the extent Contractor has been prejudiced. In addition, such failure to provide reasonable notice shall relieve Contractor of any obligation to reimburse for Indemnified Party's attorneys' fees incurred prior to notification. If the Contractor promptly and reasonably investigates and defends any Intellectual Property Claim, it shall have control over the defense and settlement of the Intellectual Property Claim. However, the Indemnified Party must consent in writing for any money damages or obligations for which it may be responsible.
- 12.2.3** The Indemnified Party shall furnish, at the Contractor's reasonable request and expense, information and assistance necessary for such defense. If the Contractor fails to pursue the defense or settlement of the Intellectual Property Claim, the Indemnified Party may assume the defense or settlement of the Intellectual Property Claim and the Contractor shall be liable for all costs and expenses, including reasonable attorneys' fees and related costs, incurred by the Indemnified Party in relation to the Intellectual Property Claim as finally awarded by a court of competent jurisdiction or as mutually agreed in a settlement approved by both the Indemnified Party and Contractor.
- 12.2.4** Unless otherwise set forth herein or in a Participating Addendum, Order, or Contractor Supporting Materials incorporated in an Order, Section 12.2 is not subject to any limitations of liability in this Master Agreement or in any other document executed in conjunction with this Master Agreement.
- 12.2.5** If such an Intellectual Property Claim has occurred, or in the Contractor's opinion is likely to occur, the Contractor shall either procure for the Participating Entity the right to continue using the materials or Products or Services or replace or modify materials or Products or Services to make them non-infringing and functionally equivalent. If an option satisfactory to the Participating Entity is not reasonably available, the Participating Entity shall return the materials or Products to the Contractor and stop using the infringing Services, upon written request of the Contractor and at the Contractor's expense, and Contractor shall refund to the Indemnified Party the remaining net book value of the Contractor's Product and a prorated amount for the remaining Services. The refund shall be determined in accordance with generally accepted accounting principles.

12.3 Limitation of Liability

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

-
- 12.3.1 General Limitation of Liability.** Except as provided in Section 12.3.2, notwithstanding anything else herein, all liability of Contractor and its suppliers to any Purchasing Entity or Participating Entity (and any Purchasing Entity under the Participating Entity) for claims arising under this Master Agreement, the applicable Participating Addendum, or otherwise shall be limited to the greater of (i) five million dollars (\$5,000,000.00) or (ii) the money paid to Contractor by the Participating Entity under this Master Agreement in the twelve (12) month period prior to the event or circumstances that first gave rise to such liability. This limitation of liability is cumulative and not per incident.
- 12.3.2 Exception to General Limitation of Liability.** The limitation of liability in Section 12.3.1 does not apply to: (i) liability for damage or loss caused by injury to persons or tangible property; (ii) Contractor's liabilities and obligations under Section 12.2; (iii) any loss or claim to the extent the loss or claim is covered by a policy of insurance maintained by Contractor or required by this Master Agreement to be maintained by Contractor; or (iv) matters for which liability cannot be excluded or limited under applicable law.
- 12.3.3 Limitation on Indirect Damages.** To the extent permitted by applicable law, except as provided in Section 12.3.4, neither Party shall be liable for any special, indirect, incidental, punitive, exemplary, reliance, or consequential damages of any kind (including but not limited to loss of business, goodwill, data, profits, or use or for the cost of procuring substitute products, services or other goods), arising out of or relating to the Products or Services to which this Agreement relates, regardless of the theory of liability and whether or not each Party was advised of the possibility of such damage or loss.
- 12.3.4 Exception to Limitation on Indirect Damages.** Contractor's liability for a breach of system security or unauthorized disclosure of Confidential Information are not subject to the limitation on indirect damages in Section 12.3.3. Notwithstanding the foregoing, in no event shall Contractor be liable for greater than ten million dollars (\$10,000,000), in the aggregate, for indirect damages related to breach of system security or unauthorized disclosure of Confidential Information under this Master Agreement.

13. Insurance

- 13.1 Term.** Unless otherwise agreed to between Contractor and Participating Entity, Contractor shall acquire maintain such insurance from an insurance carrier or carriers licensed to conduct business in each Participating Entity's state and having a rating of A-, Class VII or better, in the most recently published edition of A.M. Best's Insurance Reports. Failure to buy and maintain the required insurance may result in this Master Agreement's termination or, at a Participating Entity's option, result in termination of its Participating Addendum.
- 13.2 Class.** Contractor shall acquire such insurance from an insurance carrier or carriers licensed to conduct business in each Participating Entity's state and having a rating of A-, Class VII or better, in the most recently published edition of A.M. Best's Insurance Reports. Failure to buy and

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

maintain the required insurance may result in this Master Agreement's termination or, at a Participating Entity's option, result in termination of its Participating Addendum.

- 13.3 Coverage.** Unless otherwise agreed to between Contractor and Participating Entity, coverage must be written on an occurrence basis. The minimum acceptable limits will be as indicated below:

13.3.1 Contractor shall maintain Commercial General Liability insurance covering premises operations, independent contractors, products and completed operations, blanket contractual liability, personal injury (including death), advertising liability, and property damage, with a limit of not less than \$1 million per occurrence and \$2 million general aggregate. If Contractor does not maintain such insurance covering independent contractors, Contractor shall ensure its subcontractors' insurance satisfies this requirement;

13.3.2 Contractor must comply with any applicable State Workers Compensation or Employers Liability Insurance requirements.

- 13.4 Notice of Cancellation.** Contractor shall pay premiums on all insurance policies. Unless otherwise agreed to between Contractor and Participating Entity, Contractor or Contractor's insurer shall provide notice to a Participating Entity within 30 days after Contractor is first aware of expiration, cancellation or nonrenewal of such policy or is first aware that cancellation is threatened or expiration, nonrenewal or expiration otherwise may occur.

- 13.5 Notice of Endorsement.** Contractor shall provide to the Lead Entity a written endorsement to the Contractor's general liability insurance policy or other insurance industry standard documentary evidence acceptable to the Lead Entity that (1) provides that written notice of cancellation will be delivered in accordance with the policy provisions, and (2) provides that the Contractor's liability insurance policy will be primary, with any liability insurance of any Participating Entity as secondary and noncontributory.

- 13.6 Participating Entities.** Unless otherwise agreed to between Contractor and Participating Entity, Contractor shall provide to Participating Entities the same insurance obligations and documentation as those specified in Section 13, except the endorsement or documentation is provided to the applicable Participating Entity.

- 13.7 Furnishing of Certificates.** Unless otherwise agreed to between Contractor and Participating Entity, Contractor shall furnish to the Lead Entity copies of certificates of insurance for all required insurance applicable to this Master Agreement in a form sufficient to show required coverage within thirty (30) calendar days of the execution of this Master Agreement and prior to performing any work. Copies of renewal certificates of all required insurance will be furnished within thirty (30) days after any renewal date to the applicable state Participating Entity. Failure to provide evidence of coverage may, at the sole option of the Lead Entity, or any Participating Entity, result in this Master Agreement's termination or the termination of any Participating Addendum.

- 13.8 Disclaimer.** Insurance coverage and limits will not limit Contractor's liability and obligations under this Master Agreement, any Participating Addendum, or any Purchase Order.

14. General Provisions

14.1 Records Administration and Audit

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

-
- 14.1.1** The Contractor shall maintain books, records, documents, and other evidence pertaining to this Master Agreement and Orders placed by Purchasing Entities under it to the extent and in such detail as will adequately reflect performance and administration of payments and fees. Contractor shall permit the Lead Entity, a Participating Entity, a Purchasing Entity, the federal government (including its grant awarding entities and the U.S. Comptroller General), and any other duly authorized agent of a governmental agency, to audit, inspect, examine, copy and/or transcribe Contractor's books, documents, papers and records directly pertinent to this Master Agreement or orders placed by a Purchasing Entity under it for the purpose of making audits, examinations, excerpts, and transcriptions. The Lead Entity may terminate this Master Agreement, without incurring any liability, for the Contractor's refusal to allow access as required by this section. This right will survive for a period of six (6) years following termination of this Agreement or final payment for any order placed by a Purchasing Entity against this Master Agreement, whichever is later, or such longer period as is required by the Purchasing Entity's state statutes, to assure compliance with the terms hereof or to evaluate performance hereunder.
- 14.1.2** Without limiting any other remedy available to any governmental entity, the Contractor shall reimburse the applicable Lead Entity, Participating Entity, or Purchasing Entity for any overpayments inconsistent with the terms of the Master Agreement or Orders or underpayment of fees found as a result of the examination of the Contractor's records.
- 14.1.3** The rights and obligations herein exist in addition to any quality assurance obligation in the Master Agreement that requires the Contractor to self-audit contract obligations and that permits the Lead Entity to review compliance with those obligations.
- 14.2 Confidentiality, Non-Disclosure, and Injunctive Relief**
- 14.2.1 Confidentiality.** Contractor acknowledges that it and its employees or agents may, in the course of providing a Product under this Master Agreement, be exposed to or acquire information that is confidential to Purchasing Entity or Purchasing Entity's clients.
- 14.2.1.1** Any and all information of any form that is marked as confidential or would by its nature be deemed confidential obtained by Contractor or its employees or agents in the performance of this Master Agreement, including but not necessarily limited to (1) any Purchasing Entity's records, (2) personnel records, and (3) information concerning individuals, is confidential information of Purchasing Entity ("Confidential Information").
- 14.2.1.2** Any reports or other documents or items (including software) provided to the Purchasing Entity that result from the use of the Confidential Information by Contractor shall be treated in the same manner as the Confidential Information.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

14.2.1.3 Confidential Information does not include information that (1) is or becomes (other than by disclosure by Contractor) publicly known; (2) is furnished by Purchasing Entity to others without restrictions similar to those imposed by this Master Agreement; (3) is rightfully in Contractor's possession without the obligation of nondisclosure prior to the time of its disclosure under this Master Agreement; (4) is obtained from a source other than Purchasing Entity without the obligation of confidentiality, (5) is disclosed with the written consent of Purchasing Entity; or (6) is independently developed by employees, agents or subcontractors of Contractor who can be shown to have had no access to the Confidential Information.

14.2.2 Non-Disclosure. Contractor shall hold Confidential Information in confidence, using at least the industry standard of confidentiality, and shall not copy, reproduce, sell, assign, license, market, transfer or otherwise dispose of, give, or disclose Confidential Information to third parties or use Confidential Information for any purposes whatsoever other than what is necessary to the performance of Orders placed under this Master Agreement.

14.2.2.1 Contractor shall advise each of its employees and agents of their obligations to keep Confidential Information confidential. Contractor shall use commercially reasonable efforts to assist Purchasing Entity in identifying and preventing any unauthorized use or disclosure of any Confidential Information.

14.2.2.2 Without limiting the generality of the foregoing, Contractor shall advise Purchasing Entity, applicable Participating Entity, and the Lead Entity without undue delay if Contractor learns or has substantial reason to believe that any person who has had access to Confidential Information has violated or intends to violate the terms of Section 14.2 of this Master Agreement, and Contractor shall at its expense cooperate with Purchasing Entity in Purchasing Entity's efforts to seek injunctive or other equitable relief in the name of Purchasing Entity against any such person.

14.2.2.3 Except as directed by Purchasing Entity, Contractor will not at any time during or after the term of this Master Agreement disclose, directly or indirectly, any Confidential Information to any person, except in accordance with this Master Agreement, and that upon termination of this Master Agreement or at Purchasing Entity's request, Contractor shall destroy or turn over to Purchasing Entity all documents, papers, and other matter in Contractor's possession that embody Confidential Information. In the event it is not possible or practicable to return such information, Contractor may, at Purchasing Entity's option, destroy such Confidential Information utilizing industry standard processes, or shall maintain possession of such Confidential Information and maintain its confidentiality for as long as necessary.

14.2.2.4 If applicable law, regulation, or document retention policy prevents Contractor from destroying or returning all or part of the Confidential

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

Information, Contractor will maintain the security and confidentiality of all such retained Confidential Information. Notwithstanding the foregoing, Contractor may keep one copy of such Confidential Information necessary for quality assurance, audits, and evidence of the performance of this Master Agreement.

14.2.2.5 Contractor may publicize the Contract term, scope and price without prior written approval. However, Contractor may not use the Montana State seal, any State logo, or claim any State endorsement as to the Contract without prior written approval by the State of Montana.

14.2.3 **Injunctive Relief.** Contractor acknowledges that Contractor's breach of Section 14.2 may cause irreparable injury to the Purchasing Entity that cannot be adequately compensated in monetary damages. Accordingly, Purchasing Entity may seek and obtain injunctive relief against the breach or threatened breach of the foregoing undertakings, in addition to any other legal remedies that may be available. Contractor acknowledges and agrees that the covenants contained herein are necessary for the protection of the legitimate business interests of Purchasing Entity and are reasonable in scope and content.

14.2.4 **Purchasing Entity Law.** These provisions will be applicable only to extent they are not in conflict with the applicable public disclosure laws of any Purchasing Entity.

14.2.5 **RFxPremier.** Subject to public information laws, the rights granted to Purchasing Entities and Contractor's obligations under this section will also extend to RFxPremier's Confidential Information, including but not limited to Participating Addenda, Orders or transaction data relating to Orders under this Master Agreement that identify the entity/customer, Order dates, line-item descriptions and volumes, and prices/rates. This provision does not apply to disclosure to the Lead Entity, a Participating Entity, or any governmental entity exercising an audit, inspection, or examination pursuant to this Master Agreement. To the extent permitted by law, Contractor shall notify the Lead Entity of the identity of any entity seeking access to the Confidential Information described in this subsection.

14.2.6 **Public Information.** This Master Agreement and all related documents are subject to disclosure pursuant to the Lead Entity's public information laws. Under Montana public information laws, this Contract, referenced documents, including pricing documents, are all deemed public information.

14.2.7 **Contractor Confidential Information.** Contractor Confidential information shall mean information in any form, disclosed or made available by Contractor that meets the applicable jurisdiction's definition of confidential, proprietary, or otherwise non-public information. Contractor Confidential Information shall not include any information that: (i) was rightfully in the receiving party's possession prior to Contractor's disclosure without any obligation to maintain its confidentiality; (ii) was independently developed by the receiving party or its Partners without the use of or reference to Contractor Confidential Information; (iii) is now, or hereafter becomes, publicly available other than through disclosure by the receiving party in breach of this Master Agreement or any Participating Addendum; (iv) is identified by the

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

Contractor to receiving party as no longer confidential or (v) is, or is included in this Master Agreement. Contractor Confidential Information shall be afforded the same protections as Confidential Information under Section 14.2; provided, however, that nothing herein shall prohibit Lead State, any Participating Entity, or any Purchasing Entity from disclosing any Contractor Confidential Information to the extent required by applicable law (including, for clarity, applicable freedom of information laws), provided that, to the extent permitted by applicable law, the Lead State, Participating Entity, or Purchasing Entity as applicable, shall give Contractor reasonable notice and a reasonable opportunity to protect its interests in the Confidential Information prior to making such disclosure, and will reasonably cooperate with the disclosing Party in any such effort.

- 14.3 Third-Party Products.** Third Party Product is a good sold by the Contractor that is manufactured by another company. Third Party Products are intended to enhance or supplement a Contractor's own product line and are not intended to represent more than one-quarter (25%) of total sales under this Master Agreement. Terms and conditions and markup on Third Party Products shall be communicated with the Purchasing Entity.

Contractor must provide or facilitate the warranty service and maintenance for all Third-Party Products on the Master Agreement either directly or pass-through from the manufacturer. The Lead Entity may limit the sale of Third-Party Products during the life of the Master Agreement should Third-Party Product sales be determined to consistently exceed one-quarter (25%) of the total sales under this Master Agreement. Such limitations may take the form of any action the Lead Entity so chooses, up to and including non-renewal or cancellation of the Master Agreement.

14.4 Assignment/Subcontracts

- 14.4.1** Contractor shall not assign, sell, transfer, subcontract or sublet rights, or delegate responsibilities under this Master Agreement, in whole or in part, without the prior written approval of the Lead Entity. Notwithstanding the foregoing, Contractor may, with prior written consent from Participating Entities, which consent shall not be unreasonably withheld, enter into subcontracts with third parties as Fulfillment Partners. Fulfillment Partners are Subcontractors who may provide products and services under this Master Agreement at the price discounts established in this Master Agreement and bill Purchasers directly for such products and services. In addition, Contractor may, without permission, utilize subcontractors to perform Services sold under this Master Agreement and provide cloud-based Products and Services. Contractor may, upon written notice to the Participating Entity, add or delete authorized Fulfillment Partners as necessary, at any time during the term. For clarity, Fulfillment Partners have no authority to amend this Master Agreement or to bind Contractor to any additional terms or conditions.

- 14.4.2** The Lead Entity reserves the right to assign any rights or duties, including written assignment of contract administration duties, to RFxPremier and other third parties.

- 14.5 Changes in Contractor Representation.** The Contractor must, within thirty (30) calendar days, notify the Lead Entity in writing of any changes in the Contractor's key administrative personnel managing the Master Agreement. The Lead Entity reserves the right to approve or reasonably

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

- reject changes in key personnel, as identified in the Contractor's proposal. The Contractor shall propose replacement key personnel having substantially equal or better education, training, and experience as was possessed by the key person proposed and evaluated in the Contractor's proposal.
- 14.6 Independent Contractor.** Contractor is an independent contractor. Contractor has no authorization, express or implied, to bind the Lead Entity, other Participating Entities, or Purchasing Entities to any agreements, settlements, liability or understanding whatsoever, and shall not to hold itself out as agent except as expressly set forth herein or as expressly set forth in an applicable Participating Addendum or Order.
- 14.7 Termination.** Unless otherwise set forth herein, this Master Agreement may be terminated by either party upon sixty (60) days' written notice prior to the effective date of the termination. Further, any Participating Entity may terminate its participation upon thirty (30) days' written notice, unless otherwise limited or stated in an applicable Participating Addendum. Termination may be in whole or in part. Any termination under this provision will not affect Orders outstanding at the time of termination and the rights and obligations attending thereto, including any right of a Purchasing Entity to indemnification by the Contractor, rights of payment under any then-outstanding Orders in accordance with Section 7.5.3 herein, rights attending any warranty or default in performance in association with any Order, and requirements for records administration and audit. Termination of the Master Agreement due to Contractor default may be immediate.
- 14.8 Force Majeure.** Neither party to this Master Agreement shall be held responsible for delay or default caused by fire, riot, unusually severe weather, other acts of God, or acts of war which are beyond that party's reasonable control. Either party may terminate this Master Agreement upon determining such delay or default by the other party will reasonably prevent successful performance of the Master Agreement.
- 14.9 Defaults and Remedies**
- 14.9.1** The occurrence of any of the following events may be an event of default under this Master Agreement:
- 14.9.1.1** Nonperformance of material contractual requirements;
 - 14.9.1.2** A material breach of any material term or condition of this Master Agreement;
 - 14.9.1.3** Any certification, representation or warranty by Contractor in response to the solicitation or in this Master Agreement that proves to be untrue or materially misleading;
 - 14.9.1.4** Institution of proceedings under any bankruptcy, insolvency, reorganization or similar law, by or against Contractor, or the appointment of a receiver or similar officer for Contractor or any of its property, which is not vacated or fully stayed within thirty (30) calendar days after the institution or occurrence thereof; or
 - 14.9.1.5** Any material default specified in another section of this Master Agreement.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

-
- 14.9.2** Upon the occurrence of an event of default, the Lead Entity shall issue a written notice of default, identifying the nature of the default, and providing a period of time specified by the Lead Entity but in no event shorter than thirty (30) calendar days in which Contractor shall have an opportunity to cure the default. The Lead Entity shall not be required to provide advance written notice or a cure period and may immediately terminate this Master Agreement in whole or in part if the Lead Entity, in its sole discretion, determines that it is reasonably necessary to preserve public safety or prevent immediate public crisis. Time allowed for cure will not diminish or eliminate Contractor's liability for damages including liquidated damages to the extent provided for under this Master Agreement.
- 14.9.3** If Contractor is afforded an opportunity to cure and fails to cure the default within the period specified in the written notice of default, Contractor shall be in breach of its obligations under this Master Agreement and the Lead Entity shall have the right to exercise any or all of the following remedies:
- 14.9.3.1** Any remedy provided by law;
 - 14.9.3.2** Termination of this Master Agreement and any related Contracts or portions thereof;
 - 14.9.3.3** Suspension of Contractor's performance; and
 - 14.9.3.4** Withholding of payment until the default is remedied, if applicable to an Order under the Participating Addendum
 - 14.9.3.5** Suspension of Contractor's performance; and
 - 14.9.3.6** Withholding of payment until the default is remedied, if applicable to an Order under the Participating Addendum
- 14.9.4** Unless otherwise specified in the Participating Addendum, in the event of a default under a Participating Addendum, a Participating Entity shall provide a written notice of default as described in this section and shall have all of the rights and remedies under this paragraph regarding its participation in the Master Agreement, in addition to those set forth in its Participating Addendum. Unless otherwise specified in an Order, a Purchasing Entity shall provide written notice of default as described in this section and have all of the rights and remedies under this paragraph and any applicable Participating Addendum with respect to an Order placed by the Purchasing Entity. Nothing in these Master Agreement Terms and Conditions will be construed to limit the rights and remedies available to a Purchasing Entity under the applicable commercial code.
- 14.9.5** If this Master Agreement is not renewed at the end of this term, if the Master Agreement is otherwise terminated before project completion, or if particular work on a project is terminated for any reason, Contractor shall provide transition assistance for a reasonable, mutually agreed period of time after the expiration or termination of this Master Agreement or particular work under this Master Agreement. The purpose of this assistance is to allow for the expired or terminated portion of the services to continue without interruption or adverse effect, and to

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

facilitate the orderly transfer of such services to the Participating Entity or its designees. The parties agree that such transition assistance is governed by the terms and conditions of this Master Agreement, except for those terms or conditions that do not reasonably apply to such transition assistance. Participating Entity shall pay Contractor for any resources, Products, or Services utilized in performing such transition assistance at the most current Master Agreement rates. If the Participating Entity terminates a project or this Master Agreement for cause, then State may offset the cost of paying Contractor for the additional resources Contractor utilized in providing transition assistance with any damages the Participating Entity may have sustained as a result of Contractor's breach.

14.10 Waiver of Breach. Failure of the Contractor, Lead Entity, Participating Entity, or Purchasing Entity to declare a default or enforce any rights and remedies will not operate as a waiver under this Master Agreement, any Participating Addendum, or any Purchase Order. Any waiver by the Contractor, Lead Entity, Participating Entity, or Purchasing Entity must be in writing. Waiver by the Contractor, Lead Entity or Participating Entity of any default, right or remedy under this Master Agreement or Participating Addendum, or by Purchasing Entity with respect to any Purchase Order, or breach of any terms or requirements of this Master Agreement, a Participating Addendum, or Purchase Order will not be construed or operate as a waiver of any subsequent default or breach of such term or requirement, or of any other term or requirement under this Master Agreement, any Participating Addendum, or any Purchase Order.

14.11 Debarment. The Contractor certifies that neither it nor its principals are presently debarred, suspended, proposed for debarment, or declared ineligible from participation in public procurement or contracting by any governmental department or agency. This certification represents a recurring certification made at the time any Order is placed under this Master Agreement. If the Contractor cannot certify this statement, attach a written explanation for review by the Lead Entity.

14.12 No Waiver of Sovereign Immunity

14.12.1 In no event will this Master Agreement, any Participating Addendum or any contract or any Purchase Order issued thereunder, or any act of the Lead Entity, a Participating Entity, or a Purchasing Entity be a waiver of any form of defense or immunity, whether sovereign immunity, governmental immunity, immunity based on the Eleventh Amendment to the Constitution of the United States or otherwise, from any claim or from the jurisdiction of any court.

14.12.2 This section applies to a claim brought against the Participating Entities who are states only to the extent Congress has appropriately abrogated the state's sovereign immunity and is not consent by the state to be sued in federal court. This section is also not a waiver by the state of any form of immunity, including but not limited to sovereign immunity and immunity based on the Eleventh Amendment to the Constitution of the United States.

14.13 Governing Law and Venue

14.13.1 The procurement, evaluation, and award of the Master Agreement will be governed by and construed in accordance with the laws of the Lead Entity sponsoring and administering the procurement. The construction and effect of the Master

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

Agreement after award will be governed by the law of the state serving as Lead Entity. The construction and effect of any Participating Addendum or Order against the Master Agreement will be governed by and construed in accordance with the laws of the Participating Entity's or Purchasing Entity's state.

- 14.13.2** Unless otherwise specified in the RFP, the venue for any protest, claim, dispute or action relating to the procurement, evaluation, and award is in the state serving as Lead Entity. Venue for any claim, dispute or action concerning the terms of the Master Agreement will be in the state serving as Lead Entity. Venue for any claim, dispute, or action concerning any Order placed against the Master Agreement or the effect of a Participating Addendum will be in the Purchasing Entity's state.
- 14.13.3** If a claim is brought in a federal forum, then it must be brought and adjudicated solely and exclusively within the United States District Court for (in decreasing order of priority): the Lead Entity for claims relating to the procurement, evaluation, award, or contract performance or administration if the Lead Entity is a party; the state where the Participating Entity or Purchasing Entity is located if either is a named party.
- 14.14 Assignment of Antitrust Rights.** Contractor irrevocably assigns to a Participating Entity who is a state any claim for relief or cause of action which the Contractor now has or which may accrue to the Contractor in the future by reason of any violation of state or federal antitrust laws (15 U.S.C. § 1-15 or a Participating Entity's state antitrust provisions), as now in effect and as may be amended from time to time, in connection with any goods or services provided in that state for the purpose of carrying out the Contractor's obligations under this Master Agreement or Participating Addendum, including, at the Participating Entity's option, the right to control any such litigation on such claim for relief or cause of action to the extent the assignment is necessary for the Participating Entity to overcome a federal or state government's bar on indirect purchases.
- 14.15 Survivability.** Unless otherwise explicitly set forth in a Participating Addendum or Order, the terms of this Master Agreement as they apply to the Contractor, Participating Entities, and Purchasing Entities, including but not limited to pricing and the reporting of sales and payment of administrative fees to RFXPremier, shall survive expiration of this Master Agreement and shall continue to apply to all Participating Addenda and Orders until the expiration thereof.
- 14.16 Compliance with Law.** Both parties agree to comply with the laws and regulations applicable to their respective business and, with respect to Contractor, those laws and regulations applicable to its general provision of the Products and Services under this Master Agreement, without regard to any entity's particular use of such Products or Services.
- 14.17 Severability.** If any provision of this Master Agreement is deemed by a court or other tribunal of competent jurisdiction to be invalid or unenforceable, the remaining terms of this Master Agreement will remain in full force and effect, and the provision affected will be construed so as to be enforceable to the maximum extent permissible by law.
- 14.18 Entire Agreement.** This Master Agreement, along with any attachment or exhibit hereto, contains the entire understanding of the parties hereto with respect to the Master Agreement unless a term is modified in an Order or Participating Addendum with a Participating Entity. Except as otherwise expressly set out in this Master Agreement, any amendment of any

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Attachment 1

SUPPLEMENTAL MATERIALS

Fortinet Service Terms & Conditions

For FortiCare, FortiGuard and other Fortinet Service Offerings

THESE TERMS AND CONDITIONS APPLY TO THE PROVISION OF SERVICES BY FORTINET AND EXCLUSIVELY GOVERN THE LEGAL RELATIONSHIP BETWEEN YOU (THE "CUSTOMER") AND FORTINET. IT SETS FORTH THE LEGALLY BINDING RIGHTS AND OBLIGATIONS OF THE CUSTOMER IN RELATION TO FORTICARE SUPPORT OR FORTIGUARD SUBSCRIPTION SERVICES OR OTHER FORTINET SERVICE OFFERINGS. THE CUSTOMER CONSENTS TO BE BOUND BY THESE TERMS AND CONDITIONS (THE "AGREEMENT"). THE CUSTOMER REPRESENTS THAT IT IS A SOPHISTICATED ENTITY THAT HAS READ AND UNDERSTANDS THIS AGREEMENT AND HAS HAD SUFFICIENT OPPORTUNITY TO CONSULT WITH COUNSEL BEFORE AGREEING TO THE TERMS HEREIN. IF THE CUSTOMER DOES NOT AGREE TO THE TERMS, THE CUSTOMER SHOULD NOT ACCEPT THE AGREEMENT AND SHOULD CONTACT LEGAL@FORTINET.COM TO REQUEST CHANGES TO THE AGREEMENT. THE CUSTOMER AGREES THAT ANY OF THE FOLLOWING ACTIONS BY CUSTOMER REPRESENTATIVES REPRESENT THE CUSTOMER'S AUTHORIZED CONSENT TO BE BOUND BY THIS AGREEMENT: (I) RECEIVING, DOWNLOADING, DEPLOYING OR USING ANY SOFTWARE PROVIDED IN CONNECTION WITH FORTINET SERVICES, (II) RECEIVING, CONFIGURING, LOGGING IN, REGISTERING OR OTHERWISE USING OR BENEFITTING FROM THE SERVICES, OR (III) BY CLICKING ON THE "ACCEPT" BUTTON UPON REGISTRATION (ANY OF (I), (II), OR (III) SHALL CONSTITUTE "ACCEPTANCE" BY CUSTOMER). THE CUSTOMER HEREBY ACKNOWLEDGES AND AGREES THAT THE PERSON ENGAGING IN (I), (II), AND/OR (III) IS AUTHORIZED TO BIND THE CUSTOMER TO THE TERMS HEREIN. FOR CLARITY, NOTWITHSTANDING ANYTHING TO THE CONTRARY, IF CUSTOMER IS USING AN AUTOREGISTRATION TOOL OR HAS ENGAGED A FORTIPARTNER OR FORTINET TO REGISTER THE SERVICE CONTRACT ON ITS BEHALF, CUSTOMER ACKNOWLEDGES AND AGREES THAT ANY AND ALL UNITS REGISTERED USING SUCH TOOL SHALL BE SUBJECT TO THIS AGREEMENT.

Services are available independently or in connection with the purchase of Fortinet's commercial networking products and related equipment, including Hardware products with embedded Software, and stand-alone Software products sold and licensed to Customer pursuant to Fortinet's End User License Agreement ("EULA"), which EULA is available at <https://www.fortinet.com/content/dam/fortinet/assets/legal/EULA.pdf>, and Customer hereby agrees to the terms of the EULA.

This Agreement constitutes a legal agreement between the parties with respect to FortiCare and FortiGuard Subscription services or other Services, and shall supersede all prior representations, discussions, negotiations and agreements, whether written or oral. Notwithstanding anything to the contrary, Fortinet is only bound by, and Customer is only entitled to, services pursuant to official service descriptions that are authorized by Fortinet pursuant to this Agreement and are contractually binding on Fortinet pursuant to the terms herein.

1. DEFINITIONS

- 1.1. "Active Service Coverage Level" means the purchased level of Technical Support for which the Customer is entitled to receive, which is further defined in the applicable Service Description.
- 1.2. "Customer" means any entity or person that has purchased a Product or Service Contract from an authorized FortiPartner or Fortinet, for internal business purposes and not for further sale nor for providing chargeable services to third parties.
- 1.3. "Customer Service" means a function and associated ticket type within TAC handling mainly non-technical queries and registration issues.
- 1.4. "Documentation" means any customer support manuals, technical manuals, and/or "Help" files within the Services that relate to the Services and that Fortinet makes available to Customer in connection with this Agreement and/or through the Services.
- 1.5. "Enterprise Agreement Program" means account based Service as described in applicable Service Description and, pursuant to this Agreement, that provides multiple Service Contracts through prior agreement and subsequent purchase.
- 1.6. "FortiCare" means a time-based subscription to Technical Support Services, as defined in the applicable Service Description, and which are delivered by Fortinet on behalf of that FortiPartner.
- 1.7. "Fortinet" means Fortinet, Inc.
- 1.8. "FortiPartner" means a Fortinet authorized distributor or reseller of Fortinet Products and Services.
- 1.9. "Hardware" means a Fortinet appliance or chassis, excluding all software incorporated or bundled with such devices.
- 1.10. "Product Bundle" means Product sold with defined Services.
- 1.11. "Product" means any Hardware with associated Software including Product Bundles, or stand-alone Software which is covered by a Service Contract.
- 1.12. "Registration Date" means the date the Product or Service Contract or Renewal Service Contract is registered in the Support Portal. Service

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

activation takes place on registration of the Service Contract subject to Fortinet's then-current Service Activation Policy.

1.13. *"Renewal Service Contract"* means the continuation of a Service Contract for a defined service term which may be purchased for any Product that has been previously registered with a pre-existing Service Contract.

1.14. *"Service(s)"* when used individually means a subscription to one of Fortinet's service offerings (FortiCare, FortiGuard, etc.) or in plural when generally referring to Fortinet's service offering; Services are only available by purchasing a Service Contract

1.15. *"Service Activation Policy"* means Fortinet's Service Contract Activation and Grace Period Policy located at <https://www.fortinet.com/corporate/about-us/legal/service-contract-activation-grace-period-policy> which Fortinet may update from time to time in its discretion.

1.16. *"Service Contract"* means a term-based subscription to a Service which shall be registered with Fortinet and is provided pursuant to the Service Description, the Active Service Coverage Legal, Fortinet's standard service practices, and the terms of this Agreement.

1.17. *"Service Description"* means the applicable, then-current official Fortinet description of a Service.

1.18. *"Software"* means Fortinet computer software, Fortinet software subscription services and bug fixes, in each case provided by Fortinet either directly or from FortiPartner, whether purchased as embedded within the Hardware or as a standalone software product or operating software release or update service.

1.19. *"Support Portal"* means an on-line service portal designed to allow Customers to register and access their applicable purchased Services. For example, the Support Portal can be used to create Technical Tickets, access documentation, and obtain software releases. The Support Portal is available at <https://support.fortinet.com> or such other web address as may be communicated by Fortinet or, for FortiPartners at <https://partnerportal.fortinet.com>.

1.20. *"TAC"* means Fortinet's technical assistance center.

1.21. *"Technical Support"* means the provision of technical support assistance under FortiCare Services to resolve issues related to Products and Services and in accordance with the Active Service Coverage Level.

1.22. *"Technical Ticket"* means a Customer's request for Technical Support under a Service Contract, whereby Customer will provide a suitable description of the reason why Customer is seeking Technical Support and all technical details to allow Fortinet's support team to investigate Customer's request.

1.23. *"Upgrade Service Contract"* means a Service Contract which provides or amends an existing Service Contract with an additional service entitlement.

2. FORTICARE

2.1. Upon activation of a FortiCare Service Contract Fortinet shall use commercially reasonable efforts to provide the Customer with the following entitlements exclusively in connection with the Product unit(s) covered by the FortiCare Service Contract to the extent within the scope of its Service Contract: (a) access to the Support Portal; (b) access to the TAC for Customer Service assistance as well as resolution of Technical Tickets; (c) access to Software updates as available either automatically via the FortiGuard distribution network or at the Support Portal (maintenance and feature releases) exclusively for the Products covered by the FortiCare Service Contract; and (d) the replacement of Hardware determined by Fortinet to be defective. For more details refer to the FortiCare Service Descriptions.

Technical Support

2.1.1. Assistance by telephone or via the Support Portal or via web-chat in relation to troubleshooting of Product technical issues, as well as usage and configuration.

2.1.2. Access to the TAC in accordance with the Service Descriptions.

2.1.3. Access to the Support Portal for the Customer to create Technical Tickets, manage Product and Service assets, obtain Software updates, as well as providing access to Documentation including trouble-shooting information. Technical Tickets shall be processed by Fortinet in accordance with Sections 2.1.4 and 2.1.5.

2.1.4. Processing of Technical Tickets in accordance with the Technical Support procedures and support day/time limitations outlined in Fortinet's official applicable FortiCare service documents.

2.1.5. Workaround solutions, resolutions or Software maintenance releases to resolve Technical Tickets. The Customer acknowledges that Software and/or Hardware are never error-free and that, despite commercially reasonable efforts, Fortinet may be unable to provide answers to, or be unable to resolve, some requests for Software or Hardware support.

2.1.6. Maintenance releases and feature updates for Software. Customer may access such updates via password-protected web access. This is subject to one copy per Software release or signature file as appropriate and is subject to the EULA and exclusively for the Products covered by the FortiCare Service Contract.

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

2.1.7. Where Hardware replacement is deemed necessary and the defect is confirmed by Fortinet, Hardware replacement services, in accordance with the EULA and the Active Service Coverage Level.

Hardware Replacement

2.2. Hardware replacements are subject to the EULA.

2.3. Hardware replacements are shipped to the Customer with incoterm DAP (Delivery At Place) using a Fortinet carrier, freight prepaid by Fortinet, excluding any import duties, taxes or other fees.

2.4. Hardware replacement Service is subject to geographical restrictions.

2.5. Fortinet is not responsible for transportation or customs delays. Customer compliance with export controls and destination customs processes may condition shipment times.

Product Life Cycle

2.6. The type of Technical Support provided under FortiCare may vary depending on the Product's life cycle as determined by Fortinet. An up-to-date version of the Product life cycle shall either be stored on the Support Portal or available by contacting Fortinet.

2.7. For any Software that is in the "End of Support" phase, as defined in Fortinet's then-active Product life cycle policy as determined by Fortinet, Fortinet may provide Technical Support for Software issues at its sole discretion. Such Support Services are limited to advisory support and do not include new Software releases to address Software defects unless otherwise stated in the Active Service Coverage Level.

Exclusions

2.8. Fortinet is excused from performance in the following circumstances:

2.8.1. In the event of a request for on-site activity for FortiCare, or any request for step-by-step installation and configuration of a Product or creation of custom SQL reports. Note that Professional services may be available for purchase by Customer to provide such services.

2.8.2. Technical Support does not cover technical assistance with respect to the investigation or resolution of security incidents taking place in the Customer's environment.

2.8.3. In the event the Customer alters, damages or modifies the Product or any portion thereof.

2.8.4. For any problem caused by the following, except where directly caused by Fortinet: accident; transportation; neglect, abuse, misapplication, or misuse; alteration, modification, or enhancement of the Product; failure to provide a suitable installation environment for the Product; use of supplies or materials not meeting Product specifications; use of the Product for other than the specific purposes for which the Product is designed.

2.8.5. For the Product that is used on any systems other than the specified hardware platform for such Product as described in the Product's then-current datasheet. Fortinet shall have no liability for any changes in the Customer's hardware, which may be necessary to use the Product due to a workaround or maintenance release.

2.8.6. For any Hardware that is in the "End of Support" phase, as defined in Fortinet's then active Product life cycle policy as determined by Fortinet, unless otherwise stated in the Active Service Coverage Level.

2.8.7. For any Product that has not been publicly released.

2.8.8. For third-party devices (including, without limitation, hardware, software, infrastructure such as cabling) or problems associated with such elements.

2.8.9. Any usage of FortiGuard service updates that are not specifically authorized by Fortinet in writing including, without limitation, accessing signature packages for the purpose of duplication. For clarity, FortiGuard service updates are only provided for the Product that is covered by a FortiGuard Service Contract.

2.8.10. For issues related to hardware consumables, which may be physically installed within a Fortinet appliance, such as SFPs, SDD cards and solid state or hard disk drives, (if these are non-Fortinet supplied hardware and as a result of a technical analysis a fault or defect is traced to the use of non-Fortinet supplied hardware).

2.8.11. Non-Fortinet Support. To the extent Customer provides its own technical support or engages a non-approved third party to provide technical support, Fortinet is not responsible for such support, and Customer represents and warrants that all such technical support pursuant to this Section shall be performed in a satisfactory and commercially reasonable manner and will not infringe upon Fortinet's rights or the rights of any third party. Fortinet shall be relieved of its Technical Support obligations to the extent Customer's actions interfere with Fortinet's ability to meet its service obligations under the Active Service Coverage Level.

Customer Obligations

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

Customer is obligated and responsible for the following, and Fortinet's responsibilities and obligations shall be subject in full to Customer meeting its following obligations:

2.9. Properly activate and register Service Contracts and proper inclusion in such activation and registration the correct and full Customer name and location who is the beneficiary of such Support Contract against a specified Product unit or Support Portal account. Customer acknowledges that the Agreement applies in full when the registration of the Products and Services is made by the Customer indirectly through a FortiPartner or Fortinet Customer Services. For all Service Contracts provided as part of the Enterprise Agreement Program, Fortinet will automatically register such Service Contracts and the effective date will be as communicated by Fortinet to the Customer.

2.10. Ensure that the Product covered by FortiCare Service Contract is used for its intended purpose and maintained in line with the applicable Product datasheets and documentation, as well as to maintain an accurate location of the Product unit at all times.

2.11. Maintain Software at the current Software release and upgrade to the latest release of Software if it is required to resolve a reported technical issue.

2.12. Provide access at Customer's expense to the Product for troubleshooting purposes, subject to the Customer and Fortinet agreeing on appropriate security measures to prevent unauthorized access to Customer's network, provided, however, the ultimate responsibility for the security of the network lies with the Customer. Fortinet will not connect to the Customer's network without prior authorization and such connection will be solely to provide Technical Support. Customer has the right to monitor such access by Fortinet. Where (a) the Customer causes delay in providing connectivity in accordance with this Section or (b) Customer and Fortinet cannot agree on appropriate security measures to prevent unauthorized access to Customer's network in the performance of Technical Support, Fortinet will be excused from performing the Service and from any damages or other losses attributable to such delay or lack of Service provision.

2.13. Cooperate in full with Fortinet, provide Fortinet all relevant information, and make available knowledgeable technical staff to aid in troubleshooting and comply with Fortinet's Technical Support recommendations.

2.14. Return the replaced Hardware unit in accordance with Incoterm 2020 DAP (Delivery at Place) to the location specified in the return instructions provided by Fortinet within 30 days of the receipt of a replacement Hardware. Customer shall follow Fortinet's specifications for packaging and labeling of the defective Hardware unit, assume all costs associated with returning the defective Hardware unit (except for applicable import duties and taxes, if any) and provide insurance for all returned Hardware equipment. For clarity, Hardware returns that are improperly packaged will not be accepted by Fortinet and returned at the Customer's expense.

2.15. Ensure Service Contracts are transferred to any replacement Products. Customer acknowledges that this action is required to continue to receive FortiCare Services and accepts that there may be a delay of up to four hours to re-establish FortiGuard security services. Maintaining reasonable internal security policies and processes, such as related to internal passwords, its facilities, its administrator access to information and systems, and use of wireless access points.

2.16. Ensure Customer does not share any Customer, Customer employee, or any third party sensitive, confidential, or private information with Fortinet, except as permitted and to the extent necessary for Fortinet to meet its obligations under this Agreement, and, in the event such is shared, with clear notice to Fortinet of proper handling requirements for, and sensitivity of, such information.

3. FORTIGUARD

3.1. FortiGuard is a Service pursuant to which access to updates is provided, which updates may, for instance, mitigate to the risk of identified network security threats. These are developed in response to evolving internet activity and delivered via security threat databases, produced by machine intelligence and experts.

3.2. Customer is responsible for configuring the frequency of FortiGuard security updates, which may be available on either an automatic or manual basis.

3.3. The creation of Technical Tickets for issues related to FortiGuard requires an active FortiCare Service Contract covering the FortiGuard service.

4. EVALUATIONS.

For registration of any Software that Fortinet makes available for evaluation (together "Evaluation Software"), the following terms apply:

4.1. All Evaluation Software is licensed pursuant to the EULA referenced above.

4.2. Fortinet makes available a limited, revocable license to Evaluation Software solely for the purpose of testing and evaluation, and not for commercial use or use in production environments. Fortinet disclaims liability and shall not be responsible for the Customer's use of Evaluation Software in production environments.

4.3. Unless otherwise noted on the Evaluation Software entitlement, the Evaluation Software license is limited to sixty (60) days from the start date provided by Fortinet (solely for Section 4, "Term"). The Customer must cease use of the Evaluation Software upon expiration of the

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

Term. At Fortinet's discretion, a new Software license may be provided for additional Evaluation.

4.4. Fortinet retains all right, title, and interest in the Evaluation Software and all materials delivered in connection with such Evaluation Software, including without limitation, all changes and improvements made, requested, or suggested by Customer. All results of this evaluation and any feedback shall be deemed to be confidential information and trade secrets of Fortinet, and may not be disclosed by Customer to any third party without Fortinet's written consent. At Fortinet's request, Customer shall provide to Fortinet any results of the Evaluation.

4.5. Customer also hereby affirms that Customer will comply fully with all relevant import and export laws and regulations of the United States and any other country ("Export Laws") with respect to any use of Confidential Information including but not limited to export, re-export, ship, transfer to an embargoed country or other sanction by the United States namely Cuba, Iran, N. Korea, Syria, Sudan and the Crimea Region of Ukraine are prohibited; that Customer is allowed to legally conduct business with Fortinet, and you are not on any United States government restricted lists (such as the Denied Persons List, Entity List, Unverified List, or Consolidated Screening List) or similar lists from any government that may restrict your ability to legally conduct business with Fortinet.

5. SERVICE TERM, PAYMENT TERM, AND RENEWALS

5.1. Service Term. Each Service is covered individually by this Agreement, and expires in accordance with the terms contained in this Agreement or according to Fortinet's policies and the term of the Service Contract. Unless otherwise specified in the Service Description, Service Contracts are for a set duration and do not auto-renew. Where a particular Service either expires or is terminated, the Agreement remains in full force for all other Products and active Service Contracts. Service Contracts may apply only to a single unit of Product or Support Portal account(s) as described in the relevant service description. i.e. each unit of Product will require its own separate Service Contract to receive Service. Any use or attempt to use a Service Contract with a Product unit other than the Product unit covered by the Service Contract for which the Service Contract was originally purchased and registered or with a Support Portal account(s) other than the designated Support Portal account(s) covered by the Service Contract is considered a material breach of the Service Contract and will result in the termination of such Service Contract without refund of any fees paid by Customer and additional fees will be immediately due by Customer to Fortinet based on Fortinet's then-current list price for any incremental, additional Services beyond those authorized by the Service Contract.

5.2. Registration and renewal registration. Customer must register their Service Contract, Product Bundles and Products in accordance with the Service activation policies set forth at <https://www.fortinet.com/corporate/about-us/legal/service-contract-activation-grace-period-policy> which Fortinet may update from time to time in its discretion whereby the new Service activation policies as posted will apply at the time posted and going forward. Customer is fully responsible to ensure complete and accurate information is included in the registration of the Service Contract, including the correct and full name and location who is the beneficiary of such Support Contract against a specified Product unit or Support Portal Account. CERTAIN STANDALONE SERVICE CONTRACTS WHICH ARE NOT REGISTERED IN ACCORDANCE WITH THE SERVICE ACTIVATION POLICIES MAY BE FORFEITED AND FORTINET SHALL HAVE NO OBLIGATION TO THE CUSTOMER REGARDING THIS AGREEMENT OR ANY RELATED SUPPORT SERVICES. To the extent the Services experience any interruption due to Customer's failure to register a Renewal Service Contract, Fortinet shall not be responsible for providing Services during such interruption and will not be responsible for any losses or damages incurred by Customer or any third party attributable to this interruption in Services.

5.2.1. Notwithstanding anything to the contrary, Customer authorizes Fortinet to, in its sole discretion, automatically register any Renewal Service Contract, or Upgrade Service Contract for subsequent renewal periods for which a purchase order has been placed or upon invoicing. FOR CLARITY, REGISTRATION IS THE RESPONSIBILITY OF THE CUSTOMER AND FORTINET IS NOT OBLIGED TO REGISTER THE RENEWAL SERVICE CONTRACT OR THE UPGRADE SERVICE CONTRACT.

5.2.2. Registration for Enterprise Agreement Program. For all Service Contracts provided as part of the Enterprise Agreement Program, Fortinet will automatically register such Service Contracts and the effective date will be as communicated by Fortinet and accepted by the Customer on receipt of purchase order, therefore Section 5.2 will not apply.

5.2.3. Standalone Product without Service Contracts or Bundles. If Customer purchases Product without any Services or bundles, Customer must still register their Product in their Support Portal in order to receive benefits such as license, RMA and warranty coverage.

5.3. In order to maintain a continuous service period, the effective date of any Renewal Service Contract shall begin the next calendar day following the expiration date of the previous Service Contract. In the event that registration of a Renewal Service Contract is beyond one hundred eighty (180) calendar days following the expiration date of the previous Service Contract, such Renewal Service Contract effective start date will be the date that is one hundred eighty (180) calendar days prior to the actual Registration Date of the Renewal Service Contract.

6. PRIVACY AND SECURITY

6.1. Customer hereby consents to Fortinet's collection, use, protection and transfer of Customer's information as described in the Fortinet Privacy Policy on the Fortinet web site (<https://www.fortinet.com/corporate/about-us/privacy>) Fortinet may process and store Customer data in the United States or any other country in which Fortinet or its agents work or maintain facilities. Customer will take reasonable steps not to

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

disclose to Fortinet any personally identifiable, confidential or sensitive data, and Customer hereby consents to Fortinet's processing and storage of Customer data, acknowledging and agreeing that Fortinet is merely a data processor and Fortinet's Data Protection Addendum, which is hereby incorporated by reference (<https://trust.fortinet.com/product/default/data-protection-addendum>), will apply to personal data within its scope. Customer will not provide Fortinet with "protected health information" that is subject to the U.S. Health Insurance Portability and Accountability Act (HIPAA) unless (i) the relevant service is provided in connection with a Fortinet Product that is eligible for coverage under Fortinet's business associate agreement ("BAA") and Customer has entered into the BAA with Fortinet or (ii) Customer's configuration and use of the product to which the service relates are exempt from HIPAA BAA requirements under applicable guidance from the U.S. Department of Health and Human Services. Customer will comply with the Fortinet Data Terms (<https://www.fortinet.com/corporate/about-us/legal/data-terms>).

6.2. Customer consent and privacy. Fortinet recommends, and (where required by law) requires, the posting of legally sufficient notices to data subjects, consumers and other relevant individuals ("End Users") regarding the collection of End User data through the Services. IT IS CUSTOMER'S SOLE OBLIGATION TO COMPLY WITH ALL NATIONAL AND LOCAL LAWS REGARDING CONSUMER DATA PRIVACY AND PRIVACY DISCLOSURE LAWS.

6.3. Customer agrees, acknowledges, and warrants that it is responsible to ensure that all End Users agree and acknowledge, that Fortinet may be required by law to provide assistance to law enforcement, governmental agencies and other authorities. Accordingly, Customer agrees and shall procure that all End Users agree that:

6.3.1. Fortinet may implement and maintain an interception capability suitable to meet these regulatory requirements where Fortinet and/or FortiPartners are obliged by law to ensure or procure that such a capability is implemented and maintained;

6.3.2. Fortinet may implement and maintain a data retention capability for the Service to meet regulatory requirements where Fortinet and/or its FortiPartners are obliged by law to ensure or procure that data is retained; and

6.3.3. Fortinet may at times cooperate with law enforcement authorities and rights-holders in the investigation of any suspected or alleged illegal activity by Customer or End Users. If Fortinet is required to do so by law, this may include but is not limited to, disclosure of the Customer's or End Users' contact information to law enforcement authorities or rights-holders.

6.4. To the extent Customer receives administrative access IDs and passwords in connection with any accounts for the Services, Customer shall be solely responsible for maintaining its security, and shall be fully responsible for all activities which occur relating to access to the Services and use of any other features (including wireless access point(s), as applicable) under that administrative access ID and passwords. Customer agrees to notify Fortinet immediately of any actual or suspected unauthorized use of Customer's account or any other breach of security known by Customer.

6.5. Although some of our Services may provide certain notices or may seek certain consents from certain End Users, Fortinet does not provide legal advice, and Customer remains solely responsible and solely liable for independently (i) determining what notices and consents are legally required and (ii) providing such notices and obtaining such consents.

6.6. Service/support portal access and security. As part of the Services, Customer may receive administrative access ID's and passwords upon installation or registration. Customer shall be solely responsible for maintaining the security of its administration access information, and shall be fully responsible for, all activities which occur, relating to access to the Services under Customer's administrative access ID. Fortinet is not responsible for unexpected use of Services or data whether by ex-employees, compromised user passwords or any other misuse of Customer accounts. Upon termination of the Services, all data, including configuration data will be deleted, and Fortinet has no responsibility for such data.

6.7. Loss of data and accuracy of data. While Fortinet takes commercially reasonable and industry standard technical and organizational steps to ensure the security of the Services, it is not responsible for the accidental loss or destruction of any data any End User transmits using the applicable Service and Fortinet disclaims all liability of any kind in relation to the content or security of data that any End User sends or receives through the Service. Further, Fortinet does not guarantee the accuracy of the reports, which may be compromised by various network incidents that impact data collection and accuracy (e.g. network outages, hardware upgrades, and the like), and in no event does Fortinet guarantee security or privacy of the Customer's network or assets.

7. TERM AND TERMINATION

7.1. Term of Agreement. This Agreement becomes effective as of the Effective Date and shall remain in effect until either terminated or until Customer no longer maintains any active Service Contracts.

7.2. Term of Service Contracts. Subject to the other provisions herein, each Service Contract is valid for the length of time provided for in the Customer's purchased Service Contract which is viewable upon activation in the applicable Support Portal. and which starts as follows:

7.2.1. **For new Service Contracts or Product Bundles:** The Service Contract starts on the Registration Date

7.2.2. **For Renewal Service Contracts:**

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

- 7.2.2.1 If registered prior to the expiration date of the previous Service Contract, starting from the calendar day following the expiration date of the previous Service Contract; or
- 7.2.2.2 If not registered prior to the expiration of the previous Service Contract, starting from the actual Registration Date of the Renewal Service Contract or with the applicable start date being amended as described in Section 5.3;
- 7.2.3. **For Enterprise Agreement Program:** the applicable start date as communicated by Fortinet in the Enterprise Agreement Program acknowledgement executed by Customer.
- 7.3. Termination.

8. SOFTWARE RESTRICTIONS

8.1. Customer hereby agrees to the software restrictions in Fortinet's EULA and further agrees (i) not to or not to attempt to reverse engineer, disassemble, decompile or otherwise access, obtain or modify the source code, internal structure, Hardware design or organization of the Product or support updates or Software, or any part thereof, or to aid or to permit others to do so, except and only to the extent as expressly required by applicable law; (ii) not to remove any identification or notices of any proprietary or copyright restrictions from any Product or support updates or Software; (iii) not to copy the Product or support updates or Software, modify, translate or, unless otherwise agreed, develop any derivative works thereof or include any portion of the Software in any other software program; (iv) only to use the Product and support updates and Software for internal business purposes and in accordance with then active specification, and (v) to keep confidential any Software and support updates and not share them with third parties.

9. INDEMNIFICATION

10. WARRANTY

10.1. Service Warranties. Fortinet warrants that the Services are provided in a professional and workmanlike manner consistent with industry standards. Except as set forth herein otherwise, Fortinet provides its Services and Products on an "AS IS" basis. Neither Fortinet nor any of its officers, directors, employees, partners or agents, makes any representation, claim or warranty with respect to the Services or reports or data, whether express or implied, including without limitation, any warranty of quality, performance, non-infringement, merchantability, or fitness for a particular purpose, or any results generated from use of the Services or the reports. Fortinet makes no warranty that the Services will meet Customer's requirements, or that the Services will be uninterrupted, timely, or secure.

10.2. Fortinet will have no obligation to correct, and makes no warranty with respect to, errors caused by: (a) improper installation of the Software or Hardware; (b) changes that Customer has made to the Software or Hardware; (c) use of the Software or Hardware in a manner inconsistent with the documentation and instructions; (d) the combination of the Software or Hardware with hardware or software not approved by Fortinet; (e) malfunction, modification or relocation of Customer's Hardware or Software transferred to unapproved or unregistered devices; (f) Customer failure to use the Software and Services in accordance with local laws; or (g) business and/or service decisions based on reliance on the analysis or data aggregation results.

10.3. Product Warranties. The warranty limitations, restrictions on Customer and protections for Fortinet as contained in Fortinet's EULA are applicable. Except as expressly stated in its EULA, Fortinet does not provide any warranty whatsoever and nothing in this Agreement shall be construed as expanding or adding to the warranty set forth in the EULA. In the event of a conflict between this Agreement and the EULA, the EULA shall govern. Fortinet cannot guarantee that every question or problem raised in connection with the Services will be addressed or resolved, and in no event does Fortinet warranty or guaranty security and protection from all threats. EXCEPT FOR WARRANTIES CLEARLY AND EXPRESSLY STATED HEREIN, NOTWITHSTANDING ANYTHING TO THE CONTRARY, FORTINET MAKES, AND CUSTOMER RECEIVES, NO OTHER WARRANTIES OF ANY KIND, EXPRESS, IMPLIED OR STATUTORY, ARISING IN ANY WAY OUT OF, RELATED TO, OR UNDER THIS AGREEMENT OR THE PROVISION OF MATERIALS OR SERVICES HEREUNDER, AND, TO THE EXTENT PERMISSIBLE BY LAW, FORTINET SPECIFICALLY DISCLAIMS ANY IMPLIED WARRANTY OF SATISFACTORY QUALITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT OF THIRD PARTY RIGHTS.

11. LIMITATION OF LIABILITY

12. GENERAL PROVISIONS

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

12.1. Compliance with laws. Customer hereby agrees to comply with all applicable laws, such as data privacy and privacy disclosure laws. Fortinet's Products and Services may be subject to the United States Export Administration Regulations and other import and export laws. Diversion contrary to United States law and regulation is prohibited. Customer agrees to comply with, and ensure compliance with, all applicable laws that apply to the products as well as the Customer and destination restrictions issued by U.S. and other governments. As just one example, if Customer is a FortiPartner that provides Return Manufacturer Authorization services ("RMA"), Services or other Services on behalf of another entity or otherwise provides Product or Services, Customer shall ensure proper, required export licenses are obtained for all Product, whether newly-purchased or RMA, prior to exporting those appliances and prior to providing any Services related to those appliances, if such export license is required. In addition, for RMA units or other units registered in a FortiPartner's name, the FortiPartner is responsible for all export compliance. In addition, if Customer or the end-user on whose behalf Customer is providing RMA, Services or other Services is designated a Denied Party, Specially Designated National, on the Entity List, or otherwise subject to an export license requirement after this agreement, then Fortinet may terminate or suspend, in its sole discretion, any and all Services related to Product or Services exported without full compliance with applicable export laws. For additional information on U.S. export controls see www.bis.doc.gov. Fortinet assumes no responsibility or liability for Customer's or partners' failure to obtain any necessary import and export approvals. Customer represents that neither the United States Bureau of Industry and Security nor any other governmental agency has issued sanctions against Customer or otherwise suspended, revoked or denied Customer's export privileges. Customer agrees not to use or transfer the Products or Services for any use relating to nuclear, chemical or biological weapons, or missile technology, unless authorized by the United States Government by regulation or specific written license. Additionally, Customer agrees not to directly or indirectly export, import or transmit the Products or Services contrary to the laws or regulations of any other governmental entity that has jurisdiction over such export, import, transmission or use. Customer represents that Customer understands, and Customer hereby agrees to comply with, all requirements of the U.S. Foreign Corrupt Practices Act and all other applicable laws. Fortinet is not responsible for Service delays or outages or loss of data resulting from activities related to Fortinet's and its service partners compliance with export regulations and cooperation with applicable domestic or foreign regulatory agencies (e.g., delays caused by requirement to obtain required licenses). Customer agrees, acknowledges and warrants that it will take reasonable steps to ensure it will meet all legal requirements to assist law enforcement agencies.

12.2. Service Description; Updates. A description of the various Services is available on the Fortinet website, and on the applicable services portal. In its sole discretion Fortinet may make updates to its Service offerings from time to time. If Fortinet makes a material change to the Services, those changes will be reflected in the on-line service descriptions stored on the applicable portal. Fortinet may also make changes to this Agreement, including any linked documents, from time to time. Unless otherwise noted by Fortinet, material changes to the Agreement will become effective thirty (30) days after they are posted, except if the changes apply to new Service functionality in which case they will be effective immediately. If Customer does not agree to the revised Agreement, Customer must stop using the Services and promptly notify Fortinet in writing. In no event shall Fortinet be obligated to refund Customer or FortiPartners, any amounts previously paid.

12.3. Survival of terms. The terms contained herein which by their nature are intended to survive the termination of this Agreement shall do so.

12.4. Transferability. Customer may not assign or otherwise transfer this Agreement without written consent from Fortinet. Any attempted assignment or attempted transfer without Fortinet's consent shall be null and void and may result on the termination of this Agreement and related Service Contracts. Fortinet may assign its rights and obligation under this Agreement to a third party without consent from Customer.

12.5. Third-party providers. Fortinet reserves the right to subcontract its obligations herein to third-party organizations. Fortinet also reserves the right to change service subcontractors without notice.

12.6. Entire Agreement. The provisions of this Agreement constitute the entire agreement between the parties with respect to the subject matter hereof, and this Agreement supersedes all prior agreements or representations, oral or written, regarding such subject matter. With the exception of the EULA, this Agreement takes precedence over any conflicting provisions in a document a Fortinet portal website such as a service description or support portal terms. This Agreement may be modified or amended only in accordance with Section 12.2 herein. All notices from Customer to Fortinet must be made by opening a new Support Ticket through the Support Portal.

12.7. Confidential information. Customer may be exposed to certain information concerning the Products and Services including, without limitation, maintenance releases (regularly scheduled and released updates and upgrades to software), feature releases (enhancements released through Fortinet's Product planning practices or through Customer requests) and other Product, Service or business information, which is Fortinet's confidential or proprietary information (herein "Confidential Information"). The Customer agrees that, during and after the term of this Agreement, the Customer will not use or disclose to any third party any Confidential Information without the prior written consent of Fortinet, and Customer will use reasonable efforts to protect the confidentiality of such Confidential Information. The Customer may disclose the Confidential Information only to its employees as is reasonably necessary for the purposes for which such information was disclosed to Customer; provided that each such employee is under a written obligation of nondisclosure which protects the Confidential Information under terms substantially similar to those herein.

12.8. Governing Law, venue and settlement of controversies.

12.9. Ordering, Taxes, and Duty.

12.10. English language and interpretation. This Agreement is in the English language only, which language shall be controlling in all respects. Any versions of this Agreement in any other language will be for accommodation only and will not be binding upon either party. In construing or interpreting this Agreement, the word "or" shall not be construed as exclusive, and the word "including" shall not be limiting. The parties

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

agree that this Agreement shall be fairly interpreted in accordance with its terms without any strict construction in favor of or against either party and that ambiguities shall not be interpreted against the drafting party.

12.11. No waiver and severability. Failure by Fortinet to enforce any provision of this Agreement will not be deemed a waiver of future enforcement of that or any other provision. The exercise by either party of any remedy under this Agreement will be without prejudice to its other remedies under this Agreement or otherwise. If for any reason a court of competent jurisdiction or an agreed-upon arbitrator finds any provision of this Agreement, or portion thereof, to be unenforceable, that provision of the Agreement shall be enforced to the maximum extent permissible so as to affect the intent of the parties, and the remainder of this Agreement shall continue in full force and effect.

12.12. Force Majeure. Fortinet shall be excused from performance to the extent performance is rendered impossible by strike, fire, flood, extreme weather, disaster, act of war or terrorism, military operations, riots, insurrection or civil disorder, national or local emergency, famine, disease, epidemic or pandemics, governmental acts or orders or restrictions, failure of suppliers or any other reason where failure to perform is beyond Fortinet's reasonable control.

12.13. Future Functionality. Customer agrees that its purchases of Products or Services are not contingent on the delivery of any future functionality or features, or dependent on any oral or written public comments made by Fortinet regarding future functionality or features.

12.14. Relationship of the Parties. The parties are independent contractors. This Agreement does not create a partnership, franchise, joint venture, agency, fiduciary or employment relationship between the parties.

12.15. No Third-Party Beneficiaries. There are no third-party beneficiaries to this Agreement. For clarity, End Users are not third-party beneficiaries to this Agreement.

Fortinet Product License Agreement / EULA and Warranty Terms

Product License Agreement

The parties to this agreement ("AGREEMENT" or "EULA") are you and/or the entity on whose behalf you are acting (the "End User") and Fortinet, Inc. ("Fortinet"). END USER AGREES THAT ANY OF THE FOLLOWING ACTIONS BY END USER'S REPRESENTATIVE REPRESENTS END USER'S AUTHORIZED CONSENT TO BE BOUND BY THIS AGREEMENT: USE OR INSTALLATION OF FORTINET SOLUTION(S) AND ANY UPDATES THERETO, INCLUDING HARDWARE APPLIANCES, SOFTWARE AND FIRMWARE INCLUDED THEREIN BY FORTINET, AND STAND-ALONE SOFTWARE, INCLUDING SOFTWARE SUBSCRIPTIONS, CLOUD SOFTWARE, AND ON-PREM SOFTWARE, SOLD BY FORTINET (TOGETHER, THE "PRODUCTS"). END USER REPRESENTS THAT IT IS A SOPHISTICATED ENTITY THAT HAS READ AND UNDERSTANDS THIS AGREEMENT AND HAS HAD SUFFICIENT OPPORTUNITY TO CONSULT WITH COUNSEL BEFORE AGREEING TO THE TERMS HEREIN. END USER HEREBY ACKNOWLEDGES AND AGREES THAT THE PERSON ACCEPTING THE AGREEMENT IS AUTHORIZED TO BIND THE END USER TO THE TERMS HEREIN. IF END USER DOES NOT AGREE TO ALL OF THE TERMS OF THIS AGREEMENT, DO NOT START THE INSTALLATION PROCESS OR USE THE PRODUCTS. IF END USER DOES NOT AGREE TO THE TERMS OF THIS AGREEMENT, END USER MUST IMMEDIATELY, AND IN NO EVENT LATER THAN FIVE (5) CALENDAR DAYS AFTER END USER'S RECEIPT OF THE PRODUCT, NOTIFY FORTINET LEGAL AT LEGAL@FORTINET.COM OF REQUESTED EULA CHANGES.

1. License Grant.

This is a license agreement between End User and Fortinet, not a sales agreement. The term "Software", as used throughout this Agreement, includes all Fortinet and third party firmware and software provided to the End User with, or incorporated into, Fortinet hardware and any stand-alone software provided to End User by Fortinet, with the exception of any open source software contained in Fortinet's Products which is discussed in detail in section 16 below. Software as used herein also refers to any accompanying documentation, any updates and enhancements of the software or firmware provided to End User by Fortinet, at its option. Fortinet grants to End User a (a) non-transferable (except as provided in section 5 ("Transfer") and section 16 ("Open Source Software") below), (b) non-exclusive, (c) revocable (e.g. in the event of End User's failure to comply with these terms, in the event of termination, or in the event Fortinet is not properly paid for the applicable Product) license to use the Software in accordance with the terms set forth in this Agreement. Such use shall be solely for End User's internal business purposes unless agreed by Fortinet in writing. End User's use shall be subject to any further restrictions in Fortinet Documentation (including license metrics, term limitations, or restrictions). End User agrees that, except for the limited, specific license rights granted in this section 1, End User receives no license rights to the Software. "Documentation" means all Fortinet operating manuals, Fortinet user manuals, Fortinet product descriptions, Fortinet product specifications, and Fortinet technical manuals, and other Fortinet technical information relating to the Products.

2. Limitation on Use.

End User is prohibited, directly or indirectly, from and may not attempt to: (a) modify, translate, reverse engineer, decompile, decrypt, disassemble, create derivative works based on, sublicense, or distribute the Software; (b) rent or lease any rights in the

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

Software in any form to any third party or make the Software available or accessible to third parties in any other manner (except as expressly permitted for Channel Partners); (c) transfer, assign, or sublicense rights to any other person or entity (except as provided in section 5); (d) remove any proprietary notice, labels, or marks on the Software, Products, and containers; (e) disclose the results of any benchmarking or performance measurements from use of the Software; (f) interfere with a platform for use of the Software; (g) use the Software on a device not owned and controlled by End User; (h) share non-public features or content of the software with any third party; (i) access the Software in order to build a competitive product or service, to build a product using similar ideas, features, functions, or graphics of the Software, or to copy any ideas, features, functions, or graphics of the Software; or, (j) act as otherwise prohibited by the Documentation.

3. Proprietary Rights.

All proprietary rights (including copyrights, trade secret, patent, and other intellectual property rights), title, and interest in and to the Software and any Product, and any copy thereof, remain with Fortinet. End User acknowledges that no title to the Software or other intellectual property rights in the Software or other Products is transferred to End User and End User will not acquire any rights to the Software or other Products except for the specific limited license as expressly set forth in section 1 ("License Grant") above. End User expressly agrees and acknowledges that Fortinet owns, retains, and shall retain all intellectual property rights in and to, and End User has no intellectual property rights in and to, the Products and the Software other than the License Grant. End User agrees to keep confidential all Fortinet confidential information disclosed hereunder, not disclose such confidential information to third parties, and only to use such information for the purposes for which Fortinet disclosed it.

4. Term and Termination.

The term of the license is as set forth in the ordering documents, the Fortinet Documentation, or per Fortinet practices or policies (such as with evaluation or beta licenses or subscription or other term licenses).

5. Transfer.

Authorized resellers and authorized distributors of Fortinet ("Channel Partners") may transfer (not rent or lease unless specifically agreed to in writing by Fortinet) the Software to one End User on a permanent basis, provided that: (i) the Channel Partner ensures

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

that its customer (the end user) receives a copy of this Agreement, is bound by its terms and conditions, and, by selling the Product or Software, Channel Partner hereby agrees to enforce the terms in this Agreement against such end user, (ii) Channel Partner at all times will comply with all applicable United States export control laws and regulations, and (iii) Channel Partner agrees to refund any fees paid to Channel Partner by a third party who purchased Product(s) from Channel Partner but does not agree to the terms contained in this Agreement and therefore wishes to return the Product(s) as provided for in this Agreement (collectively, (i)-(iii) are the "Transfer Requirements"). Further, if End User attempts to transfer without being a Channel Partner authorized to do so, End User shall adhere to the Transfer Requirements. Notwithstanding anything to the contrary, Fortinet Channel Partners (a) are not agents of Fortinet and (b) are not authorized to bind Fortinet in any way. Fortinet's license, warranty, and support are only available for Products that End User purchased directly from Fortinet or from a Channel Partner. Products not purchased directly from Fortinet or from a Channel Partner may be blocked from registration.

6. Limited Warranty.

The warranty is only valid for Products that are properly registered on Fortinet's Support Website, <https://support.fortinet.com>, or such other website as provided by Fortinet. The warranty periods discussed below will start on the earlier of three events to occur: (i) registration of the Product, (ii) initial connection with Fortinet, or (iii) 60 days from the date of Fortinet's shipment (US/Canada) or 90 days from the date of shipment (outside of the US/Canada) ("Warranty Start Date"). It is the Fortinet Channel Partner's responsibility to make clear to the End User the date the product was originally shipped from Fortinet, and it is the End User's responsibility to understand the original ship date from the party from which the End User purchased the Product. All warranty claims must be submitted in writing to Fortinet before the expiration of the Hardware Warranty Period or Software Warranty Period as defined below, as applicable, or such claims are waived in full. Fortinet provides no warranty for beta, donation, or evaluation Products.

(A) Hardware. Fortinet warrants that the hardware portion of the Products ("Hardware") will be free from material defects in workmanship as compared to the Functional Specifications for three hundred sixty-five (365) days from the Warranty Start Date ("Hardware Warranty Period"), with the exception of FortiCamera models ending in "-C" or "-CA", which FortiCamera models shall have a warranty on the hardware portion of the Products for five (5) years from the Warranty Start Date.

(B) Software. Fortinet warrants that the Software as initially shipped by Fortinet will substantially conform to Fortinet's then-current Functional Specifications for the Software, for a period of ninety (90) days from the Warranty Start Date ("Software Warranty Period"), except for FortiToken, which shall be warranted for three hundred sixty-five (365) days from the Warranty Start Date.

(C) Limited Lifetime Warranty for Certain Products. In addition, the following Products have a longer Hardware warranty than set forth above, and these Products have a warranty for the Hardware that lasts for five (5) years following the Product announced end of order date for the Hardware: (1) FortiAP and (2) FortiSwitch (includes FortiSwitch-AX9000 series but excludes the FortiSwitch-5000 series, which has only a three hundred sixty five (365) day warranty from the Warranty Start Date).

Fortinet's sole obligation shall be to repair or offer replacement Hardware for the defective Hardware or replacement Software for the non-conforming Software at no charge to the original owner. This obligation is exclusive of transport fees, labor, de-installation, installation, reconfiguration, or return shipment and handling fees and costs, and Fortinet shall have no obligation related thereto. Such repair or replacement for Hardware will be rendered by Fortinet at an authorized Fortinet service facility as determined by Fortinet. The replacement Hardware need not be new nor of an identical make, model, or part. Fortinet may, in its discretion,

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

replace the defective Hardware (or any part thereof) with any reconditioned Product that Fortinet reasonably determines is substantially equivalent (or superior) in all material respects to the defective Hardware. The warranty period for the repaired or replacement Hardware shall be for the greater of the remaining Hardware Warranty Period or ninety days from the delivery of the repaired or replacement Hardware; and for Software, the warranty period for the repaired or replacement Software shall extend for an additional ninety (90) days after any warranty replacement software is delivered. If Fortinet determines in its reasonable discretion that a material defect is incapable of correction or that it is not practical to repair or replace defective Hardware or non-conforming Software, the price paid by the original purchaser for the defective Hardware or non-conforming Software will be refunded by Fortinet upon return to Fortinet of the defective Hardware or non-conforming Software (and all copies thereof). All Hardware (or parts thereof) that is replaced by Fortinet, or for which the purchase price is refunded, shall become the property of Fortinet upon replacement or refund. The Software license automatically terminates when a refund is given. As used herein, the term "Functional Specifications" means solely those specifications authorized and published by Fortinet in its product datasheets, subject to the terms and limitations specified in those datasheets. In the event no such specifications are provided to End User with the Software or Hardware, there shall be no warranty on such Software or Hardware.

7. Disclaimer of Other Warranties and Restrictions.

END USER ACKNOWLEDGES THAT SOFTWARE AND/OR HARDWARE IS NEVER ERROR-FREE. EXCEPT FOR THE LIMITED WARRANTY SPECIFIED IN SECTION 6 ABOVE, THE PRODUCTS ARE PROVIDED "AS-IS" WITHOUT ANY WARRANTY OF ANY KIND INCLUDING, WITHOUT LIMITATION, ANY IMPLIED OR EXPRESS WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT. IF ANY IMPLIED WARRANTY CANNOT BE DISCLAIMED IN ANY TERRITORY WHERE PRODUCTS ARE SOLD, THE DURATION OF SUCH IMPLIED WARRANTY SHALL BE LIMITED TO NINETY (90) DAYS FROM THE DATE OF ORIGINAL SHIPMENT FROM FORTINET. EXCEPT AS EXPRESSLY COVERED UNDER THE LIMITED WARRANTY PROVIDED HEREIN, THE ENTIRE RISK AS TO THE QUALITY, SELECTION AND PERFORMANCE OF THE PRODUCTS ARE WITH THE END USER. END USER HEREBY ACKNOWLEDGES AND AGREES THAT NO VENDOR CAN ASSURE COMPLETE SECURITY AND NOTHING HEREIN OR ELSEWHERE SHALL BE DEEMED TO IMPLY A SECURITY GUARANTEE OR ASSURANCE, AND FORTINET DISCLAIMS LIABILITY REGARDING END USER'S WEB BROWSER'S REQUIREMENTS OR ANY THIRD PARTY DEVICE OR APPLIANCE USED TO OPERATE THE SOFTWARE.

The warranty in Section 6 above does not apply if the Software, Product or any other equipment upon which the Software is authorized to be used (a) has been altered, except by Fortinet or its authorized representative, (b) has not been installed, operated, repaired, updated to the latest version, configured, or maintained in accordance with instructions supplied by Fortinet, (c) has been subjected to abnormal physical or electrical stress, misuse, negligence, or accident; (d) is licensed for beta, evaluation, donation, testing or demonstration purposes or for which Fortinet does not charge a purchase price or license fee; (e) includes Non-General Availability Software Versions; or (f) is procured from a third party other than a Channel Partner. In the case of beta, testing, evaluation, donation or free Software or Product and Non-General Availability Software Versions, the End User acknowledges and agrees that such Software or Product could cause system failures, data loss and other issues, and the End User agrees that such Software or Product is provided "as-is" without any warranty whatsoever, and Fortinet disclaims any warranty or liability

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

whatsoever for any system failures or data loss. For clarity, notwithstanding anything to the contrary, all sales are final and no provision in this EULA entitles End User to return Products, other than as expressly set forth herein.

8. Governing Law.

.

9. Limitation of Liability.

10. Compliance with Laws, Including Import/Export Laws and Foreign Corrupt Practices Act (FCPA).

End User is advised that the Products may be subject to the United States Export Administration Regulations and other import and export laws; diversion contrary to United States law and regulation is prohibited. Both parties (Fortinet and the End User) agree to comply with all applicable laws that apply to the Products as well as end user, end-use, and destination restrictions issued by U.S. and other governments. For additional information on U.S. export controls see <https://www.bis.doc.gov>. Fortinet assumes no responsibility or liability for End User's failure to obtain any necessary import and export approvals and licenses, and Fortinet reserves the right to terminate or suspend shipments, services and support in the event Fortinet has a reasonable basis to suspect any import or export violation. End User represents that neither the United States Bureau of Industry and Security nor any other governmental agency has issued sanctions against End User or otherwise suspended, revoked, or denied End User's export privileges. End User agrees not to use or transfer the Products for any use relating to nuclear, chemical, or biological weapons or to missile technology, unless authorized by the United States Government by regulation or specific written license. Additionally, End User agrees not to directly or indirectly export, import, or transmit the Products contrary to the laws or regulations of any other governmental entity that has jurisdiction over such export, import, transmission, or use. Furthermore, End User hereby agrees that, for any orders that End User places with Fortinet whereby any legal or regulatory requirements may apply to Fortinet such as requirements related to the International Traffic in Arms Regulations, or Buy American Act, or the Trade Agreements Act: End User is responsible to ensure the purchase order submitted to Fortinet by End User and/or any Channel Partners clearly states the specific requirement in writing, or otherwise Fortinet is not bound by any such requirements. End User represents that End User understands, and End User hereby agrees (x) to comply with, all applicable laws including but not limited to the U.S. Foreign Corrupt Practices Act, and (y) that its employees have not accepted, and will not accept, anything of value, including money, meals, entertainment, paid-for travel, beta, testing, evaluation, donation or free Products and/or related services, or anything else of value, in exchange for maintaining current business or for new business opportunities with Fortinet. End User represents and warrants to Fortinet that End User and its employees, consultants, agents and representatives will not use Fortinet's products and services to engage in, or support in any way, violations or abuses of human rights, including those involving censorship, surveillance, detention, or excessive use of force. End User agrees that it and its personnel will be responsible to comply in full with all laws and policies applicable to any and all dealings with Fortinet and Fortinet's Channel Partners.

11. U.S. Government End Users.

The Software and accompanying documentation are deemed to be "commercial computer software" and "commercial computer software documentation," respectively, pursuant to DFAR Section 227.7202 and FAR Section 12.212, as applicable. Any use, modification, reproduction, release, performance, display or disclosure of the Software and accompanying documentation by the

United States Government shall be governed solely by the terms of this Agreement and shall be prohibited except to the extent expressly permitted by the terms of this Agreement and its successors.

12. Tax Liability.

13. General Provisions.

Except as specifically permitted and required in section 5 ("Transfer") above, End User agrees not to assign this Agreement or transfer any of the rights or obligations under this Agreement without the prior written consent of Fortinet. This Agreement shall be binding upon, and inure to the benefit of, the successors and permitted assigns of the parties. The United Nations Convention on Contracts for the International Sales of Goods is expressly excluded. This Agreement may be updated from time to time in Fortinet's discretion by Fortinet publishing an updated version of this Agreement or by a writing that explicitly refers to this Agreement signed on behalf of both parties, and in the case of Fortinet, by its SVP Legal or above. If End User does not agree to the revised Agreement, End User must stop using the Products and promptly notify Fortinet in writing. In no event shall Fortinet be obligated to refund End User or Channel Partners any amounts previously paid. For clarity, except for Fortinet's SVP Legal or above, no one (such as Sales representatives, Sales Engineers, and the like) can bind Fortinet, and any statements by such personnel are non-binding and should not be relied upon. Notwithstanding anything to the contrary, this EULA constitutes the entire agreement between Fortinet and the End User with respect to the subject matter herein, and supersedes any and all prior representations or conflicting provisions related to (i) Fortinet's Products license or (ii) Products warranty terms, including topics such as limitations of liability, warranties, representations on Products capabilities or otherwise in any and all communication with the End User or purported End User agreements, whether entered into now or in the future. FORTINET SHALL NOT BE BOUND BY ANY ADDITIONAL AND/OR CONFLICTING PROVISIONS IN ANY ORDER, RELEASE, ACCEPTANCE OR OTHER WRITTEN CORRESPONDENCE OR OTHER WRITTEN OR VERBAL COMMUNICATION UNLESS EXPRESSLY AGREED TO IN A WRITING SIGNED BY THE SVP LEGAL OR ABOVE OF FORTINET. In the event of a conflict between this EULA and another agreement, this EULA shall prevail with respect to the subject matter herein unless the conflicting agreement expressly states that it replaces this EULA, expressly referring to this EULA, and is agreed to in writing by authorized representatives of the parties (which, in the case of Fortinet, is Fortinet's SVP Legal or above).

14. No Waiver and Severability.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

Failure by Fortinet to enforce any provision of this Agreement will not be deemed a waiver of future enforcement of that or any other provision. Any waiver of any provision of this agreement by Fortinet must be in a writing signed by its SVP Legal or above. The exercise by either party of any remedy under this Agreement will be without prejudice to its other remedies under this Agreement or otherwise. If for any reason a court of competent jurisdiction or an agreed-upon arbitrator finds any provision of this Agreement, or portion thereof, to be unenforceable, that provision of the Agreement shall be enforced to the maximum extent permissible so as to affect the intent of the parties, and the remainder of this Agreement shall continue in full force and effect.

15. Privacy.

End User agrees to Fortinet's collection, use, disclosure, protection and transfer of its information, as set forth in the Fortinet privacy policy on the Fortinet web site (<http://www.fortinet.com/about-us/privacy.html>), including (a) Fortinet's use of the End User's information to send information regarding Fortinet products and services; and (b) Fortinet's disclosure of End User's information to provide assistance to law enforcement, governmental agencies and other authorities or to allow Fortinet to protect its customers' and/or end users' rights. Fortinet uses commercially reasonable efforts to comply with data protection and privacy laws, rules, and regulations in the conduct of its business. In the event Fortinet becomes aware it is in material non-compliance with applicable data protection or privacy laws, Fortinet shall work in good faith to address and remedy such non-compliance within a reasonable timeframe; and notwithstanding anything to the contrary, in no event will Fortinet have obligations related to data protection and privacy laws beyond this good faith commitment. "Customer Data" means the data that the Products receive from End User or otherwise process for or on behalf of End User. Customer Data may be used to provide services related to the Products, to address security and business continuity issues related to the Services, or to analyze and improve the Services, including responding to new threats and developing new features such as described in the Fortinet Data Terms, which are located at <https://www.fortinet.com/corporate/about-us/legal/data-terms>) which are incorporated into and made a part of this Agreement. End User will comply with the Fortinet Data Terms. Fortinet's Data Protection Addendum, which is hereby incorporated by reference (<https://trust.fortinet.com/product/default/data-protection-addendum>), will apply to personal data within its scope. End User will not provide Fortinet with "protected health information" that is subject to the U.S. Health Insurance Portability and Accountability Act (HIPAA) unless (i) the relevant Fortinet Product is eligible for coverage under Fortinet's business associate agreement ("BAA")

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

and End User has entered into the BAA with Fortinet or (ii) End User's configuration and use of the Product are exempt from HIPAA BAA requirements under applicable guidance from the U.S. Department of Health and Human Services.

16. Open Source Software.

Fortinet's Products may include software modules that are licensed (or sublicensed) to the user under the GNU General Public License, Version 2, of June 1991 ("GPL") or GNU Lesser General Public License, Version 2.1, of February 1999 ("LGPL") or other open source software licenses which, among other rights, permit the user to use, copy, modify and redistribute modules, or portions thereof, and may also require attribution disclosures and access to the source code ("Open Source Software"). The GPL requires that for any Open Source Software covered under the GPL, which is distributed to someone in an executable binary format, that the source code also be made available to those users. For any Open Source Software covered under the GPL, the source code is made available on a CD or download package. If any Open Source Software licenses require that Fortinet provide rights to use, copy or modify any Open Source Software program that are broader than the rights granted in this agreement, then such rights shall take precedence over the rights and restrictions herein. Fortinet will provide, for a charge reflecting our standard distribution costs, the complete machine-readable copy of the modified software modules. To obtain a complete machine-readable copy, please send a written request, along with a check in the amount of US \$25.00, to General Public License Source Code Request, Fortinet, Inc., 909 Kifer Rd, Sunnyvale, CA 94086 USA. To receive the modified software modules, End User must also include the following information: (a) Name, (b) Address, (c) Telephone number, (d) E-mail Address, (e) Product purchased (if applicable), (f) Product Serial Number (if applicable). All open source software modules are licensed free of charge. There is no warranty for these modules, to the extent permitted by applicable law. The copyright holders provide these software modules "AS-IS" without warranty of any kind, whether expressed or implied. In no event will the copyright holder for the open source software be liable to End User for damages, including any special, incidental or consequential damages arising out of the use or inability to use the software modules, even if such holder has been advised of the possibility of such damages. A full copy of this license, including additional open source software license disclosures and third party license disclosures applicable to certain Fortinet products, may be obtained by contacting Fortinet's Legal Department at legal@fortinet.com.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc, <https://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software—to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

GNU GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
- c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>

Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, see <<https://www.gnu.org/licenses/>>.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author

Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type `show w'.

This is free software, and you are welcome to redistribute it under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision' (which makes passes at compilers) written by James Hacker.

<signature of Moe Ghoul>, 1 April 1989 Moe Ghoul, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License.

GNU LESSER GENERAL PUBLIC LICENSE

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc. <https://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: **SPB-RFP-2025-0563LS**

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library. You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) The modified work must itself be a software library.
- b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it. Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library. In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2 instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy. This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source code along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not.

Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.) Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

- a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)
- b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable. It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice. This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns. Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

Request for Proposals for Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>

Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, see <<https://www.gnu.org/licenses/>>.

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the library 'Frob' (a library for tweaking knobs) written by James Random Hacker.

<signature of Moe Ghoul>, 1 April 1990 Moe Ghoul, President of Vice

That's all there is to it!

Request for Proposals for
Data Communications

Solicitation Number: SPB-RFP-2025-0563LS

Attachment 2 SCOPE OF WORK

This Scope of Work (SOW) describes the deliverables available through this Master Agreement and the scope of what Contractors are expected to offer Participating Entities and Purchasing Entities. This SOW defines the scope of the Master Agreement and is not intended to limit the products and services a Contractor may offer within the defined scope.

I. OBJECTIVES

A. Scope of Work Objectives:

1. **Data Communications:** For the purposes of this Scope of Work and the resulting Master Agreements, **Data Communications is defined as the products and services that provide the technological capabilities to transmit, receive, and manage digital information through information technology networks.** This SOW seeks the Contractor to provide all aspects of data communications capabilities in a holistic solution, that includes hardware, software, and services, to develop, establish, maintain, secure, and expand data communications networks.
2. **Original Equipment Manufacturer (OEM):** For the purposes of this Scope of Work and the resulting Master Agreements, **OEM is defined as a Contractor that designs and manufactures data communications hardware.** The OEM (Awarded Contractor) shall provide data communications solutions consisting of the hardware as well as software solutions and services to support the hardware. Offerors are strongly encouraged to review this definition as it pertains to this SOW, to determine its eligibility to submit a proposal. All Offerors must affirm their OEM status (as defined in this section) in Attachment G, Offeror Response Worksheet.

B. Approach and Considerations: The scope of work approach will not establish individual product award categories but will seek to award to OEMs that manufacture data communications hardware and be capable of supporting that hardware through a holistic approach of software, cloud networking, services, etc. to provide the interested Participating Entities secure data communications capabilities in various protocols (data formatting, transmission, and error handling such as TCP/IP, HTTP, FTP, etc.). As stated, there will not be individual award categories, however, this SOW seeks solutions to be provided consisting of, but not limited to, the following common Data Communication fields:

- **Networking:** The infrastructure and systems that enable connectivity and data transfer, including routers, switches, network management and network optimization tools.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

- **Unified Communications:** Data Communications products and technologies that integrate various communications to provide the capability of exchanging digital information seamlessly including, but not limited to, voice, video, and text and other forms of media.
- **Wireless Networking:** Technologies that enable data communication over wireless mediums, including Wi-Fi access points, wireless controllers, and related management tools.
- **Security:** Solutions that ensure confidentiality, integrity, and availability of data and network resources, including firewalls, intrusion detection/prevention systems, encryption technologies, and secure access controls.
- **Facilities Management:** Products and technologies that provide digital capabilities to manage, monitor, and control various facilities functions utilizing access control systems, security and surveillance, energy and climate control, alert and emergency response systems, etc.

The definition of Data Communications above will consist of the following and defined in the below sections of this SOW. Some content and scope in the sections may cross between hardware and software.

- Hardware
- Software
- Services

This Scope of Work is meant to be solution-based, the following content in this SOW is meant to provide guidelines and framework for Data Communications solutions, it is not meant to limit the scope or restrict the solutions or systems. It is strongly encouraged to propose emerging technologies (such as Artificial Intelligence, Internet of Things) under the multiple categories so long as it is considered within the scope of Data Communications, by the definition encompassing this SOW, and adds or enhances the overall solution for the customer. The products must be able to address customers' business needs and integrate into the overall solution.

II. DATA COMMUNICATIONS: HARDWARE

- A. Networking: Routers** – A device that forwards data packets along networks. A router is connected to at least two networks, commonly two LANs or WANs or a LAN and its ISP's network. Routers are located at gateways, the places where two or more networks connect, and are the critical device that keeps data flowing between networks and keeps the networks connected to the Internet. Below is a list of routers, this list is not limited to the routers that can be provided under this scope:

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

-
1. **Branch Routers** — A multiservice router typically used in branch offices or locations with limited numbers of users and supports flexible configurations/feature. For example: security, VoIP, WAN acceleration, etc.
 2. **Network Edge Routers** — A specialized router residing at the edge or boundary of a network. This router ensures the connectivity of its network with external networks, a wide area network or the Internet. An edge router uses an External Border Gateway Protocol, which is used extensively over the Internet to provide connectivity with remote networks.
 3. **Core Routers** — High performance, high speed, low latency routers that enable Enterprises to deliver a suite of data, voice, and video services to enable applications such as Internet Protocol Television (IPTV) and Video on Demand (VoD), and Software as a Service (SaaS).
 4. **Service Aggregation Routers** — Provides multiservice adaptation, aggregation and routing for Ethernet and IP/MPLS networks to enable service providers and enterprise edge networks simultaneously host resource-intensive integrated data, voice and video business and consumer services.
 5. **Carrier Ethernet Routers** — High performance routers that enable service providers to deliver a suite of data, voice, and video services to enable next-generation applications such as IPTV, Video on Demand (VoD), and Software as a Service (SaaS)
- B. Networking: Switches** — A networking hardware device that connects multiple technology devices within a local area network (LAN). It forwards data packets to the correct destination device, ensuring efficient communication. These can be managed, unmanaged, layer 2/3 devices that are used to connect segments of a LAN (local area network) or multiple LANs and to filter and forward packets among them. Below is a list of switches, this list is not limited to the switches that can be provided under this scope:
1. **Campus LAN – Access Switches** — Provides initial connectivity for devices to the network and controls user and workgroup access to internetwork resources.
 2. **Campus LAN – Core Switches** — Campus core switches are generally used for the campus backbone and are responsible for transporting large amounts of traffic both reliably and quickly.
 3. **Campus Distribution Switches** — Collect the data from all the access layer switches and forward it to the core layer switches. Traffic that is generated at Layer 2 on a switched network needs to be managed or segmented into Virtual Local Area Networks (VLANs), Distribution layer switches provides the inter-VLAN routing functions so that one VLAN can communicate with another on the network. Distribution layer switches provide advanced security policies that can be applied to network traffic using Access Control Lists (ACLs).

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

4. **Data Center Switches** — Data center switches, or Layer 2/3 switches, switch all packets in the data center by switching or routing good ones to their final destinations, and discard unwanted traffic using Access Control Lists (ACLs) a minimum of 10 Gigabit speeds. High availability and modularity differentiate a typical Layer 2/3 switch from a data center switch. Ability to remotely disable and enable individual ports. Support “NetFlow” or equivalent. Jumbo frame supports EVPN over MPLS or BGP (9k bytes), plug and play fabric formation. Ultra-low latency through wire-speed ports with nanosecond port-to-port latency and hardware- based Inter-Switch Link (ISL) trunking.
5. **Carrier Aggregation Switches** — Carrier aggregation switches route traffic in addition to bridging (transmitted) Layer 2/Ethernet traffic that are designed for Ethernet networks that support video and high-bandwidth applications. Supports a variety of interface types, especially those commonly used by service providers.
6. **Carrier Ethernet Access Switches** – A carrier Ethernet access switch can connect directly to the customer or be utilized as a network interface on the service side to provide layer 2 services.
7. **MPLS and Ethernet-Based WAN Solutions** – Modern, scalable WAN technologies replacing legacy SONET networks.
8. **Switch Features and Capabilities** – the following list includes desired features and capabilities as necessary for the appropriate switch, as applicable:
 - Security Features: SSHv2 (Secure Shell Version 2), 802.1x (Port Based Network Access Control), Port Security, DHCP (Dynamic Host Configuration Protocol) Snooping, Two-Factor or Multi-Factor Authentication (2FA/MFA), MacSec encryption, Role-based access control lists (ACL)
 - Fast Ethernet/Gigabit Ethernet - 802.3bz (multi-gig interfaces 2.5Gbps and 5 Gbps)
 - 1/10/25/40/100/400 Gbps Support
 - PoE (Power over Ethernet) - up to 90/95W on all ports
 - Port Mirroring
 - Span Taps
 - Support of IPv6 and IPv4
 - Swappable powerlines and fans
 - AC or DC power supply minimum DC input ranging from 18V to 32 VDC and 36V to 72 VDC
 - Switch-port auto recovery
 - Dynamic Trunking Protocol (DTP)
 - Per-VLAN Rapid Spanning Tree (PVRST+)
 - IGP (Interior Gateway Protocol) routing, including non-proprietary such as IS-IS, OSPF, iBGP
 - EGP (Exterior Gateway Protocol) routing, including Border Gateway Protocol (BGP)

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

- VPLS (Virtual Private LAN Service) Support
- VRRP (Virtual Router Redundancy Protocol) Support

C. Networking: Storage

The emergence of new technologies creates an emphasis on storage devices that are connected via networks to servers to data to be accessed, managed, and shared efficiently across multiple systems. The goal is to provide managed centralized storage, increased scalability, and improved data protection and backup solutions.

This scope seeks various storage solutions that facilitate several use cases including, but not limited to, enterprise data centers, high performance computing, virtualization environments, artificial intelligence, security systems, backup and redundancy systems, and disaster recovery systems. Below is a list of storage solutions that are desired, this list is not limited to the storage devices or solutions that can be provided under this scope:

1. **Storage Area Network (SAN):** These devices are high-speed and specialize in block-level storage for data centers. This solution is protocol-independent and can be Fibre Channel (FC), FCOE or similar SAN topology for private cloud storage in virtualized environments.
2. **Network Attached Storage (NAS):** storage system at the file level connected to an IP network.
3. **Fabric and Blade Server Switches:** A Fibre Channel switch is a network switch compatible with the Fibre Channel (FC) protocol. It allows the creation of a Fibre Channel fabric, which is currently the core component of most SANs. The fabric is a network of Fibre Channel devices, which allows many-to-many communication, device name lookup, security, and redundancy. FC switches implement zoning; a mechanism that disables unwanted traffic between certain fabric nodes.

D. Optical Networking

High-capacity networks based on optical technology and components that provide routing, grooming, and restoration at the wavelength level as well as wavelength-based services.

1. **Core DWDM (Dense Wavelength Division Multiplexing) Switches** — Switches used in systems designed for long haul and ultra long-haul optical networking applications.
2. **Edge Optical Switches** — Provide entry points into the enterprise or service provider core networks.
3. **Optical Network Management** — Provides capabilities to manage the optical network and allows operators to execute end-to-end circuit creation.
4. **IP over DWDM (IPoDWDM)** — A device utilized to integrate IP Routers and Switches in the OTN (Optical Transport Network).

E. Wireless Networking

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

Wireless networking hardware are physical devices that enable data transmission without the use of physical cables, using radio waves, microwaves, or infrared signals to connect computers, mobile devices, and networks.

1. **Wireless Access Points (WAP)** – A device that allows wireless devices to connect to a wired network using Wi-Fi, or related standards. Capabilities should include:
 - 802.11a/b/g/n/ac/ and later
 - 2.4GHz, 5GHz, and 6GHz support
 - Should be capable of controller via DHCP, or automatically discovering cloud management system
 - Support for WPA2/WPA3
 - UL2043 plenum rated for safe mounting in a variety of indoor environments
 - Support AES-CCMP (128-bit)
 - Provides real-time wireless intrusion monitoring and detection
2. **Wireless Router** – Combination of a router and wireless access point, provides both internet access and Wi-Fi connectivity.
3. **Outdoor Wireless Access Points** – Outdoor APs are more rugged devices. Should be able to tolerate the elements of weather to tolerate a wide temperature range, high humidity, exposure to water, dust and oil, be able to be deployed virtually anywhere, provide real-time wireless intrusion monitoring and detection.
4. **Wireless LAN Controllers** — An onsite or offsite solution utilized to manage Light-weight access points in large quantities by the network administrator or network operations center. These devices are gateways that control user traffic aggregation. The WLAN controller automatically handles the configuration of wireless access points. Capabilities should include:
 - Ability to monitor and mitigate RF interference/self-heal
 - Support seamless roaming from AP to AP without requiring re-authentication
 - Support configurable access control lists to filter traffic and deny wireless peer to peer traffic
 - System encrypts all management layer traffic and passes it through a secure tunnel
 - Policy management of users and devices provides ability to de-authorize or deny devices without denying the credentials of the user, nor disrupting other AP traffic
5. **Wireless LAN Network and Cloud-Based Services and Management** — Enables network administrators to quickly plan, configure and deploy a wireless network, as well as provide additional WLAN services. Some examples include wireless security, asset tracking, and location services. Capabilities should include:
 - Provide for redundancy and automatic failover

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

-
- Historical trend and real time performance reporting is supported
 - Management access to wireless network components is secured
 - RFC 1213 compliant
 - Automatically discover wireless network components
 - Capability to alert for outages and utilization threshold exceptions
 - Capability to support Apple's Bonjour Protocol / mDNS
 - QoS / Application identification capability
 - Zero-touch access point provisioning
 - Network-wide visibility and control
 - RF optimization,
 - Firmware updates
6. Mobile Device Management (MDM) — MDM technology is utilized to allow employees to bring personally owned mobile devices (laptops, tablets, and smart phones) to their workplace, and use those devices to access privileged government information and applications in a secure manner. Capabilities should include:
- Ability to apply corporate policy to new devices accessing the network resources, whether wired or wireless
 - Provide user and devices authentication to the network
 - Provide secure remote access capability
 - Support 802.1x
 - Network optimization for performance, scalability, and user experience
 - BYOD/unmanaged device configuration (such as SecureW2 or CloudPath)

F. Security Hardware

1. Intrusion Detection/Protection and Firewall Appliances — Provide comprehensive inline network firewall security from worms, Trojans, spyware, key loggers, and other malware. This includes Next-Generation Firewalls (NGFW), which offer a wire-speed integrated network platform that performs deep inspection of traffic and blocking of attacks.
 - Non-disruptive in-line bump-in-the-wire configuration
 - Network-address translation (NAT), stateful protocol inspection (SPI) and virtual private networking (VPN), etc.
 - Application awareness, full stack visibility and granular control
 - Capability to incorporate information from outside the firewall
 - Upgrade path to include future information feeds and security threats
 - SSL decryption to enable identifying undesirable encrypted applications (Optional)
2. Data Center and Virtualization Security Products and Appliances — Products designed to protect high-value data and data center resources with threat defense and policy control.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

3. Application Delivery and Security – Includes application deliver controllers, load balancers, and Layer 7 Firewalls. Can be physical and virtual load balancers, WAFs, SSL offloading, and advanced traffic management.

III. DATA COMMUNICATIONS: SOFTWARE and CLOUD

Please note that software and cloud offerings are to be related to the functionality and solution-based data communications systems and solutions scope. It is recognized that advancements in technology have provided emerging solutions that do not require hardware or on-premises solutions to provide network and data communications capabilities. This Contract will not require software or cloud services to be tied to a hardware purchase, however, the software and cloud offerings must strictly to relate to Data Communications as per the definition established in this Scope of Work.

Below is a list of software solutions, this list is not limited to the software solutions that can be provided under this scope:

A. Networking Software Solutions

Software covers a wide array of solutions required to support network operation and management within the scope of data communications. These consist of management tools to optimize area networks, or to ensure performance, optimization, capacity, data migration, data reduction and efficiency.

1. Networking Software – Software that runs on a server, or within the Cloud, and enables the server to manage data, users, groups, security, applications, and other networking functions. The network operating system is designed to allow transfer of data among multiple computers in a network, typically a local area network (LAN), a private network or to other networks. Networking software capabilities should include:
 - Restartable Process
 - High availability options
 - Targeted operating systems, i.e. DC, campus, core, WAN
 - Operating System Efficiencies
 - Network analysis tools (solutions utilized to collect, classify, analyze, and securely store log messages)
 - Load balancing – supports multiple balances in the same system, layer 4+7
 - Reporting
 - WAN optimization
 - Data compression
 - Network analysis tools (solutions utilized to collect, classify, analyze, and securely store log messages)
2. Software Defined Networks (SDN) – Virtually manages flow control and can include SDN virtualized switches, routers, and controllers. These applications enable intelligent networking.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

3. Automated Management Software for Network, Cloud, and Data Centers — Software products and solutions for network automation, cloud computing, and IT systems management to ensure secure, reliable, and scalable network operations.
 - Automate routine and repetitive tasks
 - Implement monitoring and alerting for proactive system maintenance
 - Provision, configure, and manage cloud resources (IaaS, PaaS, SaaS)
 - Automate backup, scaling, and deployment processes
 - Monitor server health, storage systems, and power usage
 - Ensure cloud security with identity management, encryption, and compliance controls
4. Edge Computing – Distributed processing near data sources to reduce AI and IoT applications.
5. DDI (DHCP, DNS, IPAM) Management Platforms – Integrated platforms for automating and securing core network services (DHCP, DNS, IP address management).

B. Security Solutions

Security of networks is paramount for the success of this scope of work and one of the most important aspects to ensure the confidentiality, integrity, and availability of data transmitted over communications networks. Security solutions will secure the data in transit across wired and wireless networks, prevent unauthorized access, inception, and tampering of communications. Security solutions will align with industry standards. The security solutions will enhance monitoring of the network. It is expected that networks be equipped with cutting edge security technology. Network systems need to be aware of the ever-changing landscape of threats, how to detect them, prevent them, and in cases where the threat is present, eliminate the threat.

Please note that this section refers to an array of desired security products. This does not supplement security requirements found in the Master Agreement Terms and Conditions. While some products may overlap or require additional negotiation with the Participating Entity, the MA security terms should be a baseline that take precedence and apply to all of the offerings.

Below is a list of security solutions, this list is not limited to the offerings that can be provided under this scope:

1. Network Security – These security measures will require a comprehensive solution that protect the network and digital infrastructure from cyber threats. These security measures include, but are not limited to:
 - Remote Browser Isolation (RBI): Keeps web content off endpoints to prevent drive-by downloads and malicious scripts.
 - Incident Response Solutions: Rapid-deployment networking solutions for emergency response, including drone communication hubs.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

-
- Zero Trust OT Security: Focused on securing operational technology environments with strict identity verification.
 - Zero Trust Network Access (ZTNA): Provides secure, identity-based access to applications regardless of location.
 - Malware Analysis & Sandboxing: Isolates and analyzes suspicious files or behavior in a secure environment before execution.
 - DNS Security: Blocks access to malicious domains and provides visibility into domain-level threats.
 - AI Access Security: Controls and monitors access to AI tools and platforms, helping prevent misuse or data leaks.
 - Data Center Security: Protects physical and virtual infrastructure in centralized or hybrid data centers.
 - Data Loss Prevention (DLP): Prevents sensitive data from being lost, leaked, or misused.
 - Intrusion Detection and Prevention (IDPS): Monitors and blocks suspicious or malicious network activity.
 - AI-Driven Network and Security Management - For automation, anomaly detection, predictive maintenance, and self-optimizing networks.
 - IoT Security: Protects connected devices and their communication from exploitation.
- 2. Cloud Security** – Consists of securing the communication channels, protocols, and endpoints involved in data exchanges across cloud services. These cloud security measures include, but are not limited to:
- Cloud Secure Web Gateway: Protects users from malicious internet traffic, enforcing security policies in the cloud.
 - Cloud Access Security Broker (CASB): Bridges the gap between cloud service usage and enterprise security policies.
 - Cloud Security Posture Management: Continuously monitors and evaluates cloud configurations to ensure they meet security and compliance standards.
 - Cloud Workload Protection: Secures applications and services running in cloud environments by protecting workloads from vulnerabilities and threats.
 - Cloud Visibility, Compliance, & Governance: Provides centralized insight into cloud resources while enforcing policies for regulatory compliance and governance.
 - Secure Access Service Edge (SASE): Converges networking and security services into a single cloud-delivered platform.
 - Security Service Edge (SSE): Consolidates cloud-delivered security functions such as SWG, CASB, and ZTNA.
 - Cloud-Native Networking and Security: Tools and services supporting hybrid/multi-cloud deployments and modern security architecture.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

- Cloud Threat Detection: Identifies suspicious behavior, misconfigurations, and active threats across cloud environments using analytics and threat intelligence.
 - Infrastructure as Code (IaC) Security: Scans and secures infrastructure templates (e.g., Terraform, CloudFormation) to detect misconfigurations before deployment.
- 3. Identities and Access Management** – Consists of managing user identities, controlling access to systems and data, and ensuring that access is granted based on the principle of least privilege. These management security measures include, but are not limited to:
- Privileged Access Management (PAM): Secures, monitors, and controls access to critical systems by privileged users to reduce the risk of insider threats and credential abuse.
 - Identity as a Service (IDaaS): Delivers cloud-based identity management capabilities such as single sign-on (SSO), authentication, and user provisioning as a service.
 - Access Management: Controls and enforces who can access what resources, when, and under what conditions, often integrating with authentication and authorization policies.
 - Identity Governance and Administration (IGA): Provides policy-based controls to manage user identities, access rights, and lifecycle processes across the enterprise.
 - Directory Services: Centralizes user identity data and authentication across systems, typically using technologies like LDAP, Active Directory, or cloud directories.
 - Micro and Macro Segmentation Solutions: Granular (micro) and broad (macro) network segmentation for enhanced security and compliance.
 - Identity Analytics: Uses data analysis and machine learning to detect anomalies, assess risks, and support access decisions in real-time.

- C. Unified Communications** – Integrated data communications solutions that can include hardware, software, and services.

Unified Communications (UC) is a solution that integrates multiple communications tools and technologies into a single cohesive end-user interface to enhance business communication. UC features include, but is not limited to the following:

- 1. Voice Calling (VoIP):** Internet-based voice communication, includes E911 support.
 - Support for analog, digital, and IP endpoints
 - Flexibility to configure queue depth and hold time, play unique announcements and Music on Hold (MoH), log in and log out users from a queue and basic queue statistics
 - Enterprise Telephony Features (CFx, Transfer, CID, Shared line appearance, One Number Service, etc.)

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

2. Video Conferencing: Real-time video meetings and virtual collaboration.
3. Instant Messaging (Chat): Real-time text communication. Solutions that allow communication over the Internet Protocol, within the enterprise, and remotely, as well as with guest users that offers quick transmission of text-based messages from sender to receiver. In push mode between two or more people using personal computers, Desktop (Windows/Mac/VDI/Linux), Mobile/Smartphone, Tablet, along with shared clients, instant messaging basically offers real-time direct written language-based online chat. Instant messaging may also provide video calling, file sharing, PC-to-PC voice calling and PC-to-regular-phone calling
4. Email and Voicemail Integration: Unified inbox for different types of messages.
5. Presence Information: Shows user availability (e.g., available, busy, offline).
6. File Sharing & Collaboration Tools: Enables real-time co-editing and document sharing.
7. AI driven communication tools leveraging machine learning that automate and enhance communication experience and abilities.

D. Facilities Management, Monitoring and Control – Integrated data communications solutions that can include hardware, software, and services.

This integrated solution provides the capabilities of monitoring systems and control mechanisms to track, manage, and optimize building performance in areas such as energy, safety, HVAC, lighting, access, and IT infrastructure.

1. Monitoring – The use of technology such as sensors (hardware) and software to track building conditions and security. It can include environmental metrics, power usage, equipment usage and fault detection.
2. Control – The use of technology to automatically or manually manage and control systems in a physical space utilizing monitored data. It can include remote equipment operation, HVAC and lighting systems, power management and backup systems.
3. Security Systems – The use of data communications systems to provide video surveillance, facial recognition, thermal imaging, smart sensors, real-time alerts and forensic search. The employment of AI solutions that enable video surveillance and analytics is desired.

IV. DATA COMMUNICATIONS: SERVICES

This SOW seeks not only hardware and software offerings above, but a comprehensive service offering to ensure that all purchases of data communications hardware and software perform properly and optimally. The Contactor shall be responsible for the performance of all aspects of the contract, including the performance of all subcontractors.

Request for Proposals for
Data Communications

Solicitation Number: SPB-RFP-2025-0563LS

A. Services and Consulting

To ensure success of data communications systems and networks, the SOW requires that the Contractor provide holistic solutions consisting of services including, but not limited to the following service areas:

1. Installation

- Site Survey and Assessment – Includes preinstallation site assessments to identify cabling paths, equipment locations, power requirements, and potential constraints
- Network Cabling and Physical Infrastructure – Installation of secured cabling systems and testing of all cables to ensure connectivity.
- Equipment Installation – Mount and install all hardware including firewalls, switches, routers, wireless access points, etc. Configure hardware to design and system specifications, including integrating power supplies.
- Wireless Network Deployment – Install and test wireless access points, optimize signal strength, secure access points by configuring encryption and protocols.
- Configuration and Integration – Load base configurations on hardware, integrate new hardware with existing systems.
- Testing and Validation – Includes performance testing, fault tolerance, connectivity and document results.

2. Maintenance

- Preventative Maintenance – Perform routine inspections and testing of data comm systems.
- Corrective Maintenance – Respond to system failures, cable faults, or connectivity issues. Replace faulty or defective components, restore service and limit downtime.
- Performance Monitoring – Monitor performance, analyze data traffic efficiency, identify congestion.
- System Configuration Management – Maintain backup copies of data comm system configurations, track and document changes to network.

3. Troubleshooting and Helpdesk

- Support Services – Provide Tier 1 (basic), Tier 2 (intermediate), and Tier 3 (advanced) support for data communication systems. Offer support in multiple channels (phone, email, chat, remote in)
- Incident Management – Log, categorize, prioritize, and track all incidents through a centralized ticketing system
- Guide users through troubleshooting steps for simple issues (e.g., cable checks, adapter settings)

4. Security

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

- Security Architecture and Design – Includes firewall and perimeter defense consulting.
- Updates and Patching – apply critical updates to system, test and update firewall rules, scan the system for network vulnerabilities.
- Data Encryption and Secure Transmission – Encrypt data in transit using protocols like TLS, IPsec, and VPNs. Secure communications between network nodes, cloud services, and remote users.

5. Training

- Conduct training and knowledge transfer sessions for Participating Entity staff and end users.
- Platforms for upskilling staff in AI, automation, network management, and cybersecurity.
- Provide user guides and quick-reference materials.

B. Service Level Considerations

This SOW seeks quality services administered with successful performance while recognizing that there are multiple potential Participating Entities with many different needs. This service level outline is meant to provide framework for the Contractor to incorporate as required and as appropriate per the service level agreed upon by the Contractor and Participating Entity.

1. Performance Guidelines:

- Assign a contract manager to act as a liaison and contact person between the Purchasing Entities and the Contractor for the purpose of resolving issues or problems related to any part of this contract.
- Follow the Participating Entities' state and local laws and regulations, especially labor and prevailing wage laws as well as all federal law (i.e. Davis-Bacon Act).
- Employ skilled and experienced professionals for the specific task required to ensure highest quality and neat and expeditious performance.
- Be licensed in each region, state, jurisdiction, etc. where Contractor is approved and awarded to work. Contractor or subcontractor performing work requiring a license must have obtained the license prior to commencing work. The Participating Entity reserves the right to reject a response if the responder fails to provide the Participating Entity adequate documentation of any required license. The Participating Entity reserves the right to verify any required license prior to final award and at any time during the work. The Contractor is responsible for the costs of obtaining or maintaining any licenses, permits, or other costs and shall not pass the cost through on an invoice.
- Be responsible for obtaining all necessary permits, plan reviews, and inspections required for the work when applicable. Permits and Plan Reviews required by local authorities or the State shall be secured and paid for by the Contractor.
- Provide all necessary payroll and prevailing wage reports along with any required statements of compliance along with their invoice.

Request for Proposals for
Data Communications

Issued by the **State of Montana**

Solicitation Number: SPB-RFP-2025-0563LS

- Comply with each Participating Entity's cabling, electrical, and construction materials requirements.
- Hazardous Materials – The Contractor is responsible for compliance with any Participating Entity requirements regarding hazardous materials. If the Contractor encounters a hazardous material or substance not addressed in the quote and if reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance, including but not limited to asbestos or polychlorinated biphenyl (PCB), encountered on the site by the Contractor, the Contractor shall, upon recognizing the condition, immediately stop work in the affected area and report the condition to the Participating Entity.
- Final Acceptance of Completed Service by the Participating Entity – Upon completion of installation, maintenance, or repair services, Contractor must submit a request for written final acceptance of service completion from the Participating Entity. After receiving written final acceptance of completion of the service from the Participating Entity, the Contractor may issue an invoice to the Participating Entity. Contractor must satisfy all other Contract submittal requirements necessary for the service prior to submitting the request for written acceptance of service completion. If agreed upon by Participating Entity and Contractor, milestone payments are permitted. The milestones will be in writing and a part of the quote/contract between the Participating Entity and Contractor.

2. Request for Quote

- Provide a quote to any Purchasing/Participating Entity for data communications services and projects prior to any installation.
- Provide a not to exceed number of hours at the time of quote to complete the service and indicate whether the service will be performed on or off site.
- Provide the Participating Entity with a written quote of the amount of additional time needed to complete the service which the Participating Entity must approve in writing before continuing with the service, in the event the number of quoted not to exceed hours is met, but more time is needed to complete the service.
- Provide Contractor's name and subcontractor's name, and representatives.
- Date of quote and contract number at the top.
- Hardware, software, third party products information that will be used in the data communications solution – including price, extended pricing, quantity, license agreements, additional service level agreements.
- Estimated Quantity – clear and concise number of hours for all positions that will perform work.
- Any retainage information based on Participating Entity requirements.
- Any performance bond information based on Participating Entity requirements.

COST PROPOSAL

Pricing for this Agreement is set forth in the Cost Proposal, attached hereto and incorporated by reference. The Cost Proposal is maintained as a separate Excel workbook titled **Fortinet Cost Proposal.xlsx**

Attachment H - Cost Proposal

Solicitation Number: SPB-RFP-2025-0563LS

Data Communications

Offeror Name: Fortinet, Inc.

Please note that the list of offerings below (Hardware and Software) are only to be bid on if the Offeror is the OEM.

- Offeror's Minimum Discount: Enter the discount as a percentage % off list price.

- Sales: Please indicate with either "Direct" or "Supplier Partner" to indicate how you currently sell the product.

Data Comm Hardware Sector	Offeror's Minimum Discount	Sales: Direct or Through Supplier Partner
Networking Routers	20%	Supplier Partner
Networking Switches	20%	Supplier Partner
Networking Storage	20%	Supplier Partner
Optical Networking	20%	Supplier Partner
Security Hardware	20%	Supplier Partner

Data Comm Software Sector	Offeror's Minimum Discount	Sales: Direct or Through Supplier Partner
Networking Software Solutions	15% -20%	Supplier Partner
Security Solutions	15% -20%	Supplier Partner
Unified Communications	15% -20%	Supplier Partner
Facilities Management, Monitoring and Control	15% -20%	Supplier Partner

For the services section, the maximum hourly rates will not be scored, but will contribute to the overall evaluation. Please add additional rows

Non-scored section:

Service Type	Maximum Hourly Rate
Integrator	\$450.00
Architect	\$450.00
Engingeer	\$450.00
Installer	\$450.00
Training	\$450.00
Other	\$450.00

Attachment H - Cost Proposal

Solicitation Number: SPB-RFP-2025-0563LS

Data Communications

Offeror Name:

Fortinet, Inc.

1. Describe your relationship with price competitiveness and how do you ensure that the contractual pricing is competitive?

Fortinet uses a standardized MSRP price list and applies a baseline contract discount of 15–20 percent for this RFP. This establishes a consistent minimum discount that every authorized reseller must honor under the awarded contract. To maintain price competitiveness, Fortinet performs routine market analysis, evaluates peer pricing through publicly available contracts, and monitors industry benchmarks. Resellers may offer deeper discounts at their discretion based on deal size, configuration, or customer requirements. This combination of fixed minimum pricing and optional reseller-driven reductions keeps final customer pricing competitive across diverse procurement scenarios.

2. What measures have been put in place that will enhance cost savings. What tools and communication/transparency capabilities does the Offeror currently have to support this?

To support cost savings, Fortinet provides customers and resellers with a single, standardized MSRP and discount structure that removes uncertainty from pricing. Tools such as the Fortinet Partner Portal and FortiCare support site ensure that resellers always have access to current pricing, SKU details, lifecycle information, and product alternatives. These tools also improve transparency by showing end-of-sale dates, recommended replacements, and available bundles that may reduce overall spend. For customers, Fortinet publishes extensive product documentation and energy-efficiency information to help them select cost-effective solutions that meet performance needs without over-building their network.

3. How will you manage pricing volatility?

Fortinet manages pricing volatility by updating its global MSRP list on a predictable, quarterly cycle. This allows customers and partners to plan budgets with confidence. Any material adjustments, such as changes driven by supply chain conditions or component costs, are announced to partners in advance through formal communications to ensure a smooth purchasing process. The discount structure tied to this RFP remains fixed, which protects participating entities from fluctuations and ensures stable contract pricing throughout the term.

4. Do you provide any tools that assists users in evaluating the total cost of ownership of products offered during the purchasing process (i.e., Contractor tools to assist buyers in identifying equipment that runs more efficiently or that utilizes fewer supplies, etc.).

Fortinet provides several resources that help customers evaluate total cost of ownership. These include energy consumption data, Security Compute Ratings, product comparison matrices, and lifecycle planning documents that guide customers toward models that deliver stronger long-term value. Fortinet's fabric-based architecture also reduces TCO by consolidating multiple point products, lowering maintenance, licensing, and integration costs. Customers can use these resources to assess not only acquisition cost but ongoing operational savings such as reduced power usage, simplified management, and fewer third-party tools.

5. Location of data – please provide details around your pricing models when it pertains to where data is stored. Please provide scenarios in which the location of data is provided as an option with different price points available? What is the markup when it is US soil only?

Most Fortinet hardware and perpetual software products do not involve customer data storage and therefore have no pricing variations related to data location. For cloud-delivered services such as FortiSASE and certain FortiGuard AI/ML-driven analytics, Fortinet uses regional data centers that comply with applicable privacy and security requirements.
