Dear Mr. Thomas:

Montana's RFP describes the exciting next chapter in the procurement of healthcare support services in the United States. Through the NASPO ValuePoint® cooperative purchasing program, multiple states will have a vehicle to procure the kind of Provider Services module that Montana is procuring, with greater efficiency than is possible today. And Montana is leading the way.

We at DXC Technology share Montana's enthusiasm and are proud to support your endeavour. For Montana, and all the states participating in the NASPO ValuePoint® cooperative purchasing program, we bring the best of DXC to this project: the modular Healthcare Payer Platform solution, an experienced project team, proven approaches, and unparalleled experience in supporting the nation's Medicaid providers.

Company Name and Address

DXC Technology
1775 Tysons Boulevard
Tysons, Virginia 22102

Contact Person

I am the contact person for this procurement. I am authorized by DXC to commit the company to the scope and costs in this proposal. My contact information is:
