

Unique Requirement ID	Service Category	Major Process	Requirement Description	HHS Tech Group Detailed Response
SYSMOD129	Base	Integration	The Supplier's solution shall provide an architecture designed to support vertical and/or horizontal infrastructure and application scaling to meet increases in demand.	Confirmed. [REDACTED]
SYSMOD130	Base	Integration	The Supplier's solution shall use standard messaging formats (e.g. XML, JSON, EDI, etc.) to ensure interoperability.	Confirmed. [REDACTED]
SYSMOD131	Base	Integration	All service endpoints/APIs shall be exposed to the State's Integration Platform and are able to receive and submit messages through the State's Integration Platform.	Confirmed. [REDACTED]
SYSMOD132	Base	Integration	The Supplier's solution shall have the ability to identify errors in transactions and immediately notify the System Integrator and the source system of the specific errors including whether the errors have precluded loading and/or using the data.	Confirmed. [REDACTED]
SYSMOD133	Base	Integration	The Supplier's solution shall be integrated in loosely coupled design patterns with the rest of the enterprise by encapsulating its core functions and interacting with the rest of the enterprise via interfaces to and from the State's Integration Platform which leverage interoperability data standards.	Confirmed. [REDACTED]
SYSMOD134	Base	Integration	The Supplier's solution shall support standard web services and specifications (e.g., REST, WSDL, WS-*, SOAP, JSON, XML, EDI).	Confirmed. [REDACTED]

SYSMOD135	Base	Integration	The Supplier's solution must be capable of receiving, translating, and processing data to and from the variety of secure protocols (e.g., HTTPS, FTPs, SFTP, AS2, AS3). The Supplier shall include in their response a list of protocols supported.	Confirmed. [REDACTED]
SYSMOD136	Base	Integration	The Supplier's solution shall ensure that module operational data is available and is supplied to the State's Integration Platform in a format and frequency as defined by the Agency. The State's Integration Platform may require full incremental data synchronization, as well as periodic data refreshes, at agreed upon intervals.	Confirmed. [REDACTED]
SYSMOD137	Base	Integration	The Supplier shall participate in the API Governance process, as defined and administered by the Agency. The API Governance process will define processes and adjudicate concerns for items including but not limited to: • Design and definition of solution endpoint API specifications • Revisions to solution endpoint APIs (minor & major) • Deprecation of solution APIs • Definition of data formats and code lists utilized by an API • Dispute resolution for API designs and behavior • Publication of solution API specifications to the Agency's API Registry	Confirmed. [REDACTED]
SYSMOD138	Base	Integration	The Supplier shall coordinate security configurations and data sensitivity for multiple environments (e.g. integration testing, pre-production) with the State's Integration Platform as required by the Agency.	Confirmed. [REDACTED]
SYSMOD139	Base	Integration	The Supplier's solution shall capture, log, maintain and supply upon request to the Agency metadata for transactions and service calls between the solution and the State's Integration Platform. Metadata shall include but is not limited to, enterprise-supplied transaction IDs, transaction success/failure status, and other information as defined by the Agency. The Supplier shall support tracking and debugging of transactions as required.	Confirmed. [REDACTED]
SYSMOD140	Base	Integration	The Supplier must maintain any and all hardware and software products required to support the Supplier's solution at their most current major version (patches, fixes, upgrades, and releases for all software, firmware and operating systems) or no more than one version back from the most current major version.	Confirmed. [REDACTED]
SYSMOD141	Base	Integration	The Supplier shall provide an architecture that has clearly defined service endpoints.	Confirmed. [REDACTED]

SYSMOD142	Base	Integration	The Supplier shall accept the NPI in all applicable standard electronic transactions mandated under HIPAA	Confirmed. [REDACTED]
