Attn: Gary Craft, Agency Sourcing Manager

Re: Third Party Liability Services Electronic Request for Proposals #41900-DCH0000120

Mr. Craft,

The State of Georgia in partnership with multiple states and the National Association of State Procurement Officials (NASPO) ValuePoint Cooperative Purchasing Program is taking an important step forward in addressing the growing budgetary constraints of states as the number of citizens eligible for Medicaid, CHIP, and other public programs continues to grow. The continued struggle to reduce Medicaid program costs without eliminating or reducing services provided to the community is a significant challenge.

Georgia has been particularly diligent in ensuring providers and members alike supply information on third parties that should accept responsibility for payment before Medicaid. By further securing new agreements from qualified suppliers as part of this procurement, Georgia and other states will ensure continued, proper support for a wide range of Third Party Liability (TPL) services and technology needs.

HHS Technology Group, LLC (HHS Tech Group) is proposing our TPL System Module, Recover your Liability (RyL), in response to this procurement. We bring the right combination of direct State Medicaid systems experience, supporting agencies in Minnesota, Arkansas, Missouri, and more, coupled with the technology you need to modernize your MMIS enterprise architecture. As you review our submission, please feel free to contact Susie Bird, Director of Business Development, at (916) 612-0804 or via email at susie.bird@hhstechgroup.com should you have any follow up needs. Thank you for this opportunity. We look forward to hearing from you soon.

Sincerely,

Bradley B. White
Chief Executive Officer
HHS Technology Group, LLC
