RE: Provider Services Module for DPHHS MPATH (Number DPHHS-RFP-2018-0127JT)

Dear Mr. Thomas:

MAXIMUS Human Services, Inc. (MAXIMUS) is submitting our proposal for the Provider Services Module and Optional Services. Our Provider Services module is implemented currently in Tennessee, Nebraska, and the District of Columbia. We are currently supporting modular certification reviews in Nebraska and the District of Columbia. Nebraska expects expect certification by the end of the year; and, the District of Columbia in mid-2018. MAXIMUS, as the only vendor to have implemented multiple Provider Services modules specifically designed for the Medicaid program, stands alone in our experience.

For Montana and the Participating States, our comprehensive technology-enabled solution enables enhanced application automation and data sharing across all trading partners. Our intuitive and easy-to-use web portal enables providers to complete a paperless Medicaid enrollment application that includes integrated data quality checks to increase the speed of the overall process. Our solution is fully aligned with the Medicaid Information Technology Architecture (MITA), and meets the Seven Standards and Conditions for enhanced Federal Funding Participation.

MAXIMUS has been operating large-scale, effective solutions for health services clients since 1992, and has delivered Medicaid solutions since 1995. We look forward to your review of our proposal and the opportunity to deliver our proven solution to Montana and the other states.
